MORLEY TALKS OF HOME RULE

For Ireland and Lloyd George Says Britain's Exports of Manufactures Have Increased Enormously Since 1903, Exceeding American and German Exports Together.

LONDON, Jan. 5.—(Special.)—John Morley speaking at Aberroath, Scotland, tonight said he believed one effective method of reform for Ireland would be an elective representative body which would have control of Irish affairs, under direction of the Imperial Parliament.

of manufactured goods by the United Kingdom has increased enormously since 1903 when Chamberlain said the country was going to the dogs. The export of manufactured goods reported had increased by one hundred and seventy-five million dollars. The returns would show that the United Kingdom exported more manufactures than Germany and the United States together.

WOMAN LAWYER NOT ADMITTED

Application of Miss French for Admission to New Brunswick Bar Refused by Supreme Court of New Brunswick—Home is Woman's Sphere.

FREDERICTON, Jan. 5.—(Special.)—The Supreme Court today delivered judgment on the application of Miss Mabel French of St. John for admission to the New Brunswick bar. The Chief Justice said the arguments advanced by her counsel were based on

sentiment rather than law and in his opinion the words person or party in the Act governing such matters do not include females. It would be far better for women to remain in their own sphere of life. This judgement was concurred in by the other Judges and thus unanimous.

Leaving the Pacific coast in May, Professor Ferguson proposes to fill an engagement at Harvard for June and July. His lecture course in the summer school will be on Greek constitutional history. After that he will go to Germany and later to Greece. The career of Professor Ferguson has been rather remarkable. He is thirty years old, and is the son of Senator Donald Ferguson, Marshfield.

Dominion, has been granted permission to accompany the body by the admiralty.

Lady Parker, while staying at the Carlton Hotel, during alterations at her town residence on Carlton House Terrace was robbed of some valuable jewelry; she was writing in her private room at the hotel when a man appeared in the room, and apologizing for entering the wrong room withdrew. Lady Parker discovered the robbery on going to her bedroom.

LOCAL OPTION SWEEPS ONTARIO

TORONTO, Jan. 4.—A wave swept over the province of Ontario Monday in favor of local option. The most notable victory for the measure was in the large and populous town of Owen Sound, where the by-law was carried by nearly 500 majority. Local option by-laws were carried in North Grimsby, Elma, Osprey, Thornbury (town), Arkdua Village, Arran, Anselburg, Lakefield village, Enniskillen, Oakville (town), Stouffville (village), Tara (village), Pickering, Anabel, Southampton (town), Dunmer, Otnabee, Vaughan, Sophiasburg, and Haldimand townships. License reduction was also carried in the city of Peterborough. As against this long array of victories, the cities scored at Ernest township, Markham, Drayton, Stamford, Petrolia, Drayton (village) and Seneca township.

Alderman Dr. Lynd admitted receiving seventy-five dollars from Dennis the contractor for the carpenter work and one hundred dollars from Rogers, contractor for furniture. He did not ask for these amounts but understood they were for his election expenses and not to influence his vote in the Council.

LORD STRATHCONA MEETS LAURIER

OTTAWA, Jan. 4.—Lord Strathcona, who arrived in Montreal two days ago, has made an appointment by wire to meet Sir Wilfrid Laurier today. He will also call upon Sir Richard Outright and Hon. Frank Oliver to discuss commercial and immigration problems affecting his office as high commissioner in Canada for London. Lord Strathcona will remain a fortnight in Canada.

SAY THEY RAN A BUCKET SHOP

BOSTON, Jan. 4.—The application of Oliver M. Davies, a creditor of the H. R. Leighton Company, the brokerage concern which assigned recently, for an injunction to restrain it from carrying on the business of a bucket shop, and to appoint a receiver to wind up the affairs, was brought up this afternoon in the superior court. Charles E. Allen, lawyer, to whom the company made an assignment, furnished Mr. Turner, counsel for the petitioner, with a schedule of assets which he had received. Mr. Turner said that they appeared very small compared with the large volume of business which the concern did.

FEAR BLASTS WILL DAMAGE WALDORF

NEW YORK, Jan. 3.—To determine whether blasting in the Pennsylvania railroad tunnel across Manhattan Island had damaged the walls of the Waldorf-Astoria hotel, two engineers employed by the Astor estate are making a minute examination of the interior of the hotel from top to bottom. The tunnel, it is said, passes under a part of the building, and many of the hotel employees say that frequently while the blasting was being done thereabouts, the shock could be felt distinctly. Across Thirty-second street the Hotel Cambridge was shaken perceptibly and with apparent results, as a good sized crack in one wall had to be filled in, but this, it was said was about six weeks ago. The engineers began their survey on Tuesday. They are making many measurements, sketches and diagrams, but will not discuss the results of their observations.

JEROME TO BEGIN THE SERIOUS WORK

NEW YORK, Jan. 4.—The World says "District Attorney Jerome will today begin the serious work of preparing for the prosecution of officers of life insurance companies who have abused their trusts." It was stated yesterday by a man in a position to know what is going on within the various insurance companies that Mr. Jerome will undoubtedly receive aid from unexpected sources. He added that before the month was out Mr. Jerome would receive overtures from at least one "squaler" in each of these companies: The Mutual Life, the Provident Savings Life, the Life Association of America, and the Mutual Reserve Fund Life Association. While no promises of immunity are ever made by the district attorney to a "squaler" it is the unwritten law in Mr. Jerome's office not to prosecute those who give evidence which enables the people to convict offenders who might otherwise escape punishments.

BAHAMA LIGHT WAS ATTACKED

KINGSTON, Jan. 3.—The captain of the British steamer Dordogne, which has arrived from Baltimore, Md., reports that he saw the signal, "I am attacked," flying from the lighthouse on San Salvador Island, Bahamas, during the afternoon of December 29. The Dordogne was unable to send a party ashore owing to lack of a landing place, but the captain promised to report the facts in the case to the Jamaican Government, and has done so. Later a cable despatch was sent to the Governor of the Bahamas asking him for details of the attack. The captain of the Dordogne believes that a disturbance occurred on San Salvador Island and that the inhabitants besieged the keeper of the lighthouse.

THEY ASK RESPITE FOR PATRICK

ALBANY, N. Y., Jan. 4.—Governor Higgins was requested yesterday to grant a respite to Albert T. Patrick, who is under sentence to be executed during the week of Jan. 22 for the murder of the aged millionaire, Wm. M. Rice, of New York city. The request was made by counsel for Patrick, in order to give them sufficient time to perfect an appeal to the Supreme Court of the United States. Governor Higgins has not yet decided what he will do.

THE WORST OF A COLD

Is how suddenly it comes. No time to hurry to the drugstore, croup develops, the lungs are affected with pneumonia or tuberculosis and it's too late. Keep Catarrhose on hand—it kills colds instantly. Something magical about the way it cures Catarrh and Bronchitis. Catarrhose is the best remedy because it cures in nature's way; it heals, soothes and restores permanently. Carry a Catarrhose inhaler in your pocket, use it occasionally and you'll never catch cold—that's worth remembering.

SEAL RIVER.

Jan. 5.—Several of our local fishermen have made some very good catches. McKinnon Bros, Tracadie are buying and packing at the warehouse of Henry Green. They have already shipped upwards of four tons. Peter Holland, East Baltic, has again returned. He is clerking in the store of Jas Fay, Newport. All are pleased to see Peter looking hale and hearty.

CLYDE RIVER.

Jan. 4.—Spurgeon Hicox has remodeled the old homestead and by so doing its appearance is very much improved. George Hicox has built for himself a beautiful house and has just moved his family into it. It is pleasing to know that he has decided to remain in the neighbourhood, for George is a hustler. Miss Christina McAdyen has rented her farm to Austin Hyde for a term of years.

The tax payers of Newport and vicinity intend holding a meeting in the near future for the purpose of discussing the advisability of bringing to the notice of the authorities, the need of better accommodation on the Newport-Georgetown ferry. Were it not for the ability and experience of the obliging ferryman, crossing would often be attended with great danger for it takes a skillful boatman to bring a boat to, at the stage that has served as a landing place, for the last two summers, on the Georgetown side of the river. This stage is carried away by the ice every spring, and has to be rebuilt in the summer. The school is closed owing to the departure of our late teacher Miss Lucy Campbell, who left on Dec. 29th for Regina, Sask. to take a course in Normal School previous to taking up teaching in the West. All join in wishing Miss Campbell success in her new field of labour. John McNelis is improving from his late illness. James Bruce has returned from Regina, after a year's absence. Mr. Bruce intends moving out West with his family in the spring. Jos. M. Campbell has returned from New Glasgow where he spent the last few months.
