They thought they could beat the train to the crossing — but they didn't. Lucky they were to escape with their lives for the old car was wound up like a pound of hamburger. It's hard to realize the tremendous power of a locomotive. Before you drive over the tracks slow down, look carefully both ways and listen. It's a good plan to stop entirely before crossing. It takes only a few seconds more to insure safety. It's much better to stop, look, listen and be safe.

**OUR GIFT FOR THE BRIDE**

If there is a bride on your list, you can do her a favor by carefully considering your present to her.

Try to think specifically of the couple who will use your gift. Are they going to keep house? Are they to live in a small apartment or a large home? In another town? (Then you can help by buying things that are easy to pack).

You should, if possible, know whether her hope chest is light in linens or lacking in kitchenware. Most likely she will be eager to show you her wedding collection. You can fill in accordingly. Every bride who receives a lot of lamps but nothing to place them on will bless the office force that delegates some one to call and find out what she needs.

Close friends nowadays are presenting gifts that can be exchanged. So many couples have been deluged with duplications that cannot be returned. Aunt

Arise, prepare and be Brave patriots all stand, or fall Soldiers of liberty. Then, all ye honest freemen bold For truth and honor stand. And when there'll be true liberty The God made right of man.

In pagan days mid goddess away The poor were kept bow down. Like soulless serfs, despised by those Who wore the despot's crown. But he who came the poor to claim As a mark of freedom's laws By his life did sanctify That true and noble cause. So all ye grateful sons of men Close by your Leader stand. Were it not for He, there ne'er would be The God made rights of man — M. Callaghan.
