The Nova Scotia Elections

The Maritime Government yesterday ... The results in detail are given elsewhere in today's edition.

Dalton declared that the end of the present precarious peace would bring the collapse of the Canadian policy of preserving national unity by postponing decisions.

Notes By The Way

Where Dominionists of the Empire differ in their mode of regarding their own affairs there can be no comparison, and there should be no comparison of Dominion in England.

CASES OF GRAVE'S DISEASE—NOT HAVE ENLARGED GLAND OR BULGING EYEBALLS

In the examination for overseas service if we came across a recruit with a rapid heart it was customary to make him jog or do a stationary run of 50 steps to see to what extent the exercise increased the heart rate.

PUBLIC FORUM

This column is open for the discussion by correspondents of questions of interest. The Charlottetown Guardian does not necessarily endorse the opinions of correspondents.

THE ELECTRIC LIGHT PROBLEM

Sir—In a previous letter reference was made to the extension of electricity to rural sections in the Province of Quebec and to the steps being taken there to insure cheaper light and power to the people of that Province.

Five Returning Ministers

Five of Canada's long serving Federal Ministers are expected to arrive at Ottawa on July 1, returning from Dominion and Imperial Conference functions, as well as from visits to Scotland and the Continent.

Editorial Notes

The end of the summer month ... In Europe we do not know what a day may bring.

Italy

In twenty-four hours one can see in a single week what the Fascist regime has done in Italy.

These facts explain why Trans can sell power to the Parson County Power Board at one cent per kilowatt

These facts explain why Trans can sell power to the Parson County Power Board at one cent per kilowatt. It can be produced at a less cost than one cent and from information obtained I can confidently assert that the Maritime Electric Company is able to generate and has actually generated electric power at a less cost than one cent per kilowatt.

Table with 3 columns: Location, k.w.h., k.w.h. per hour. Locations include London, Ottawa, Saint John, Halifax, Port Arthur, Brantford, Brockville.

Now let us compare Charlottetown with these rates

Table with 3 columns: Location, k.w.h., k.w.h. per hour. Locations include Charlottetown, Port Arthur, Brantford, Brockville.

Now let us compare Charlottetown with these rates

Now let us compare Charlottetown with these rates. Here in Charlottetown 2.65 3.25 2.95. With power generated here for less than one cent per kilowatt and with another cent added to cover other expenses, what justification can be alleged for charging small users at the rate of 14 cents per kilowatt for the first 7 k.w.h. and at the rate of 5 cents for the next 33 k.w.h. Surely our City Council will not further submit to such an imposition upon our people.

In the rural districts a large number of users would not use more than 15 kilowatts

In the rural districts a large number of users would not use more than 15 kilowatts. If so they are called upon to pay at the rate of nearly 17 cents per kilowatt. How can there be an extension of electricity at these rates? Surely this is a case for governmental investigation and action.
