"THE IRISH MILLIONAIRE" IS A GREAT SUCCESS

Play Given Before Crowded House In The
Prince Edward Theatre Last Night Under
The Distinguished Patronage Of
His Honour, The Lieutenant Governor
And Mrs. Heartz.

The delightfully humorous comedy "The Irish Millionaire" was presented last night in the Prince Edward Theatre to a crowded audience. It was given under the auspices of the Benevolent Irish Society, and favoured by the distinguished patronage of His Honour the Lieutenant Governor and Mrs. Heartz. The play was splendidly staged and acted, and is in every way a credit to all connected with its production and performance. Patrick Clancy, a most lovable character, as an Irish contractor, who has risen by good honest toil, of which he is not ashamed, to the possession of a million. But with it all he is inspired, and is ever a man rather than the social butterfly that his son, his wife and one of his daughters, Kathleen, would wish to have him become. The affable members of his family, though sound at heart, as is seen in the denouement are dazzled by sudden wealth, and give themselves over to the pomps and vanities of smart society, into which they are keen to climb. The son, Michael, got to money with which to pay his rapidly mounting gambling debts, becomes involved in a diamond smuggling transaction, from the consequences of which he is saved by the ready wit and devotion of little Eileen O'Malley, daughter of an old friend of Patrick Clancy, but who has been masquerading in the household as a maid. Well, in the end Michael, the son and Eileen—but come tonight and see it for yourself. You'll enjoy it, and to tell more here would spoil the story for you. Patrick Clancy, the father, is given in splendid rendering by Mr. Patrick MacTague. His society struck wife, Mary Anne, his flapper daughter, Kathleen, as also his other

ROTARY CLUB HOLD LUNCHEON

Splendid Address on
Fox Industry Given
by W. Chester S.
MacLure, M.L.A.

At the weekly luncheon of the Rotary Club held yesterday the speaker was Rotarian W. Chester S. MacLure, who gave an interesting address on fur farming, and spoke of his recent visit to London accompanied by his partner Lt.-Col. D. A. MacKinnon. Rotarian P. W. Turner presided at the meeting. Major C. C. Thompson, a new member, was introduced by Wilfred Boulter, and the Rotary charge read by Percy Pope. The question of Rotary co-operation with the Abegweit in putting on a show for the grounds fund was left to the Executive. Mr. MacLure's excellent address is as follows:

FUR FARMING AND FUR SALES
During the past few weeks the agricultural farming interests have been well and favorably placed before the people of this Province. The different Farmers' Associations, farmers themselves, as well as lecturers, have been vying with each other to give their best ideas and to make the best reports on the different kinds of farming operation, while man's greatest benefactor—the Press—has been carrying the news to all those who have vision and hearing. Perhaps at this time it is permissible to say something on the subject of Fur Farming, which perhaps may have been overlooked during Farmers' Week, as one of the important industries of our province. It is not my intention to weary you with the history of Fur Farming; all are familiar with it, but will endeavor to mention a few facts that may add a new interest in the wonderful industry which has done more to make Prince Edward Island world-known than any other commodity it produces, and that also in a short space of time.

Its Beginnings
A little over thirty-five years ago conservation of the Silver Fox or Fox Farming, had its modest beginning when the late Mr. Robert T. Oulton and our esteemed citizen, Sir Charles Dalton, gave to Prince Edward Island an industry that has not only increased the revenue of our province to a large extent, but supplied military of fashion throughout the world with the finest article of beauty and adornment. The men who gave this new industry laid no claim to a knowledge of the Biological principles underlying their venture. The simple fact that while they were living an outdoor life and trapping, that when they found a Silver Fox in their trap that the market would give them much more money for its pelt than any of the common varieties, here, as in all kinds of farming, business and professions, and in fact, in almost every walk of life, the dollar was the main force in determining commercialized conservation of Fur Farming. Fur Farming has developed in the last twenty years to such an extent in our province that it is now one of the largest revenue producers in fact the best net revenue producing industry.

**Loss of Life In
St. Francis Dam
Disaster**
(Special to the Guardian)
LOS ANGELES, March 19.—The total loss of life in the St. Francis dam disaster was computed today at 449 persons—272 known dead and 177 missing and believed to have perished. While the search for the dead continued, with an army of more than one hundred motor tractors being used to tear through the big piles of debris, authorities in the stricken zone decided to confine their efforts to reclaimable land. Debris on the unclaimable area occupied by the old bed of the Santa Clara River will be burned. The huge fires will serve as funeral pyres for an unknown number of the dead. Authorities said it would be impossible to put a large enough force to work to reclaim land within a reasonable time, and that with the available organization the process would require so much time that the purpose of seeking them will be defeated. The State's enquiry into the cause of the dam break was to open today. Many funerals both public and private also were arranged for the victims.

**Four Provinces
Endorse Plan**
(Special to the Guardian)
OTTAWA, March 19.—The rural credits scheme sanctioned by the Ottawa session before last, will be put into effect, probably within the next two months. This is an act whose operation was contingent upon provinces going into the plan on a fifty-fifty basis. So far Nova Scotia, Manitoba, Alberta and British Columbia have expressed in legislation, adherence to the plan. Saskatchewan has a plan of its own. The Dominion Act provides for a commissioner and staff at Ottawa and for local provincial boards to supervise loans. Fifteen million was appropriated by parliament for the purpose which is designed to supplement existing credit and provide for bridging what has been termed the "barren area" credit between the short term loans of the banks and long term mortgages.

**Tunney To Fight In
July, Says Rickard**
(Canadian Press)
MIAMI BEACH, Fla., March 19.—Tex Rickard said today that there will only be one heavyweight boxing match this year and he will stage it. His announcement followed a conference with Gene Tunney, the champion, and he added: "Other promoters who want Tunney's services might just as well think of something else to want. The fight will be held in July against an opponent to be selected and at a place not yet determined, he said."

LEGISLATIVE CHAMBER IS READY

It Has Been Beautifully and Lavishly
Redecorated, in
Readiness for Opening of the House
Today—Other
Rooms Also Receive
Attention.

The Legislative Chamber, with its ante-room and adjoining chamber, as also the Stenographers room, the Premier's office, and that of the Department of Public Works have for some weeks past been the scene of much activity. Painters, upholsterers and redecorators have been busy but all is now finished in readiness for the opening of the Legislature which takes place today. The Premier's office, as well as the other offices named above have been cleaned and repainted in white and softer tones of rich grays and greens in the most tasteful manner. This session, too, accommodation is provided for the members of the Opposition in room No. 3 of the upper floor which was formerly occupied by the Engineers of the Department of Public Works, who have been assigned temporary quarters downstairs. A room on the lower floor is also provided for the use of the members of the government. It is, however, in the Legislative Chamber itself that the excellent work of the decorators excels in the most tasteful manner. Here the prevailing motifs are white and the softest tones of green. The balcony, doors and trimmings are all been cleaned and repainted in white enamel with tasteful touches of relief in rich gold on the volutes of the Ionic capitals of the pillars which support the balcony. The delicate sage green of the walls is also carried out in a heavy linoleum which covers all that portion of the floor lying outside of the bar of the house. There is also an exquisite colour harmony in the beautiful carmine curtains of the windows and the throne with the lovely red pile carpet of richest material which covers the floor. The window curtains are hung from heavy brass curtain rods and are caught up into tasteful folds by rich gilt mountings. The curtain of the speaker's chair too, are edged and decorated with gold, completing the harmony of tones with the richly gilt picture frames, all of which, as well as the pictures, have been most carefully renovated. The Premier's room, is also the speaker's room, opening to right and left of the speaker's chair, carry out the themes of green and white in their decorations. They too are carpeted in the same beautiful material which covers the floor of the main chamber. The speaker's room has been provided with three beautiful arm chairs, done in walnut with lovely upholstery in softest tones of sea gray, and embellished with a chaste design in black and purple. It only remains to add that all the desks and seats in the assembly room have been thoroughly cleaned and renovated for the use of the incoming legislature. Much credit is due to all who co-operated in the work, more especially to Miss Doull, who so skillfully renovated the pictures.
