times and later on in Maine. is credited with 22 dashes won. Vella la Vella, 2:08 1-5 is also credited with 22. Baldrita 2:10 with 21. Billy McVay 2:09 3-5 with 21. Gay Law 2:07 1/2 with 20. Judd 3, 2:07 1/2 with 15. We feel rather proud that our Annual Review of Maritime Racing published December 31st, had the above credited to the Maritime horses named.

Many friends will gather today at the home of Johnny and Mrs. McCabe, Iona, to celebrate their Diamond Wedding. For sixty years they have enjoyed married happiness and the love and esteem of their neighbors and hundreds of friends. The writer has been a personal friend of Johnny's ever since I took up horse racing in 1912. He was one of the fastest drivers that ever handled the ribbons and one of the most skillful trainers, conditioners and drivers. It is certainly a great event for any married couple to be permitted to celebrate their Diamond Jubilee and we on behalf of horsemen friends and ourselves, extend to the worthy couple our congratulations and hopes for many more years of happiness to come.

We always welcome news from our Montreal correspondent, who takes considerable trouble to locate items of interest to Maritimers. In last week's racing at Richelieu Park there was only one straight heat winner in the four classes—Matt McKinney. His best mile was in 2:17 over a slow track. This horse won several class events at Dufferin Track, Toronto, and was therefore in real good condition. Class A was a split up between Williamsburg, that finished fourth in the first heat and won the second, and Chamberlain that was first in the first heat and second in the second heat. Chamberlain also raced at Dufferin. There were several other Dufferin horses in the summaries. The Class B first heat was won by Josephine Richard. It was 2:16 1/2 over a mile and he won in 1:18. The second heat was won by Iola Mainshet. It was 1:16 miles and she won in 2:32. There were two other classes. The best price paid by any winner was \$1120 for \$2.00 by Guy Wire.

And now from S. Thane Byles, Fredericton. "Was up river to Woodstock on business last week and also went over to Houlton and saw Bob Ryan's horses. He has eight head and is very high on a two-year-old by Lusty Frisco out of Ima See. He says this youngster can really trot. He also has a two-year-old, Jack Martin, by Fleet Hanover out of The Flapper, that can mock a pacer. Freddy Chief, that he raced as a three-year-old, looks good and he has a three-year-old named Speedy Guy by Guy Abbe out of a full sister to Volomite that is lovely looking and should make the headlines. Frank McKay will be interested to know that Nelson Budlong is in splendid shape and looks most like Calumet Budlong of any of his colts I have seen. On my visit to Bob's farm I took pleasure in looking over Lusty Frisco and you can tell former owner Charles Chandler that he looks great and not a day older. Bob has three yearlings and several brood mares. Among them was a colt by Widow's Pride—a real nice one five weeks old. At Woodstock I talked to Henry Dewitt for a few minutes. They were just starting to work slow miles at the track last Monday. I regret I did not have time to visit a list of the horses there but understand there is a lot of speed being prepped."... Thanks Thane.

Carl MacKenzie, Secretary-Treasurer of the Nova Scotia Harness Horse Racing Association, Truro, N.S., has very thoughtfully forwarded the following dates decided on at a recent meeting of the track operators. Truro: Night racing every Saturday night from June 18th to September 24th, and four days racing during the Nova Scotia Exhibition week August 30-31, September 1-2. Lower Sackville: May 24, July 1 and other dates announced later depending upon celebration of Centennial Year. Pictou: July 13, 14 and Sept. 7 and 8. Amherst: August 3 and 4. Bridgewater: September 5 and Exhibition week of September 26. In Cape Breton, North Sydney: May 24, July 20, Sept. 5-7-9. Sydney: July 1 and 2, July 27. It will be noticed that our Nova Scotia friends have left the dates for Old Home Week Aug. 15 to 20 open.

The many friends which William "Bill" Nicholson made in his journey through life were shocked to learn of his passing a week ago. Although he had been in ill health for several years he was up and around as usual the day previous to his death. Bill inherited a great love for the trotters and pacers because of his association with his father, the late Dr. J. M. Nicholson, who was one of the best judges of speed, trainers and developers of the "long ago. No harness meet was complete without Bill's presence and he had a keen memory that could recall events of the past with ease. Last summer he promoted the harness meet at Summerside which drew a large attendance and was very successful. His sudden passing was a great shock to his mother, sisters and brother. To the members of his family we on behalf of ourselves and horsemen friends tender our deep sympathy.

Do YOU know the Answers

Question: What is Cancer?
Answer: Cancer is a disorderly growth of cells which does not respond to the laws that control activities of normal cells.

Question: Can Cancer be cured if detected in its early stages?
Answer: Statistics show 3 out of 10 of those doomed to die can be saved if the case is detected and treated in the early stages.

Question: Is Cancer more commonly prevalent in older people?
Answer: Cancer strikes most frequently between the ages of 35 and 60. However, Cancer respects neither age nor sex, and until man has finally conquered Cancer we must always be on the lookout for it.

Question: Do fear and ignorance play a part in the Cancer mortality rate?
Answer: Yes, most people have an inherent fear of the onset of Cancer, or are not aware of the early signs and symptoms. Therefore, because of this fear, ignorance or both, they delay consulting a doctor until the case is too far advanced to be arrested and cured.

Question: Is there a source where I can secure up-to-date information on Cancer?
Answer: Yes, become a member of the Canadian Cancer Society. The main function of this organization is the distribution of educational material on Cancer. Be sure to see your family physician for more details.

* "C" Day represents the day when man has finally conquered Cancer. Everything and anything that is done individually and collectively, to bring "C" Day one precious second nearer means countless millions of lives will be saved.

Hunters' Corner

(Continued from Page 6)

from an old trapper in the Wheatley River district. Five or six years ago I was talking to this outdoorsman and he told me that one dry season the skunks dug out and destroyed the majority of the bank muskrats in his trapping grounds. To be frank I never have come across evidence of this work of the skunk, but since verification of this additional black mark against the scented tribe has come from Monticello I am quite willing to accept it as a fact without seeing first hand evidence.

To add to the difficulty in keeping this pest in check we might just as well resign ourselves to the fact that the skunk is here to stay. Jimmie Skunk is becoming more trap shy with each passing season; and it can be said of a few old dodgers on the rounds right now that pinching their toes in a steel trap will test the skill of a professional fox trapper.

Canada geese are thinning out a bit as the laying birds head northward, but there are still thousands present with us. Last year a few flocks stayed on until the first week in June. Brant appear to be plentiful this spring and flocks of several hundred in each are common sights along our shores.

The Game Act convictions at Morel on Thursday of this week practically concludes the Court cases that resulted from the R. C. M. P. Combined Operations on

Good Friday. In all 21 Defendants from widely separated districts in all three counties were charged with fishing trout out of season on the day in question.

The condition of the dirt roads has not improved over the weekend and many outlying 'fishin' holes' are not yet accessible. Weather conditions in general have not been conducive to heavy catches but there have been rumours notwithstanding that the limit of 20 trout per day has been exceeded in several instances by substantial margins. Here is a gentle reminder boys. Game enforcement officers consider that fishing trout out of season and exceeding the daily limit of 20 are both in the same category in respect to severity of penalty imposed if and when the offender is brought before a Magistrate. Those of the angling fraternity who still choose to play with the

idea of filling the fishing basket to the top when the trout go on a nibbling spree had better arrange to have a tidy sum laid by for a rainy day.

Fifty-two-year-old Steve Donoghue, England's favorite jockey, capped his last season of racing by winning the One Thousand Guineas for the first time 12 years ago today. Donoghue, six times Derby winner and victor at least twice in each of the other classics—Oaks, St. Leger and Two Thousand Guineas—had headed the jockey list 10 times since his first race in Dublin 30 years before.

LONDON — (CP) — Persons from the western side of the village have been getting married in the wrong church since 1924. The rector of nearby Templeton, found an order-in-council of July, 1924 transferring part of Withleigh ecclesiastical parish to Templeton.

GREAT YARMOUTH, England—(CP)—Four hundred litter baskets will cost the local council 14s 9d (\$2.95) each. They hope to get some of their money back by renting space on the baskets for advertising.
