BOYS MEET A WATERY GRAVE

A Faithful Dog Escaped From Upset Boat and Gave the Alarm.

NEW YORK, May 3—(Special)—Three boys set out Saturday on a clamming expedition. A stiff wind was blowing. Night came and they did not return, but a shepherd's dog which they had taken with them crawled whining into the house of young Kunz, one of the boys, in the darkness. Search was then started which resulted in finding of the capsized boat with sail gone and rigging entangled, bobbing up and down in a cove at Freeport. The bodies also were recovered.

SPLENDID PLAY LAST EVENING

One of the brightest melo dramas presented in this City for some time was put on in the Opera House last evening by the Colonial Stock Company in "As a man sows." Miss Edith Warren as Barbara Vernon, performed her part as a true artist and the applause she received was well merited. A bit of "old Ireland" in Kathleen O'Neill met with a warm reception as she won all hearts with her warm Irish love and wit while Amy Chester, the beloved of Frank Hawtry was a most winsome maid, who with her pure love won over Mrs. Hawtry, who in her early life had been deserted by her husband Sir Walter Vernon and as the plot progressed Colonel Brandon performed a difficult character well. Charles Brooke the Englishman, who happily married Miss O'Neill, cultivated the Irish brogue to the immense enjoyment of all. Each act was superbly staged while the ladies wore handsome and varied costumes. The songs by Mr. Oliver were bright and catchy and helped to pass away what would otherwise be a tiresome delay. The players received a warm welcome, which they well deserved for their perseverance in overcoming their difficulties with which they met on their last visit to this Province and forming a company which has ably earned for itself the good name it has. The manager of the company heartily thanked the citizens for their kindness to them in the past and assured them of the company's appreciation and hoped that they would be pleased with the performance which was an assured fact from the hearty applause which he received.

MORE ABOUT ATTACKS ON SIR ROBERT BOND

ST. JOHN'S, Nfld., May 3—The attack on Sir Robert Bond caused a sensation throughout the country, when it became generally known. According to Sir Robert the incident was more serious than first reported. He was climbing from the steamer to the wharf at Western Bay, he was attacked by a hostile crowd, several of whom kicked him in the chest, and knocked him overboard. He saved himself from drowning by seizing a small boat nearby, and climbing into the craft, making his way to the steamer. The Morrisites disclaim any connection with the affair, and say Bond was warned not to land at Western Bay.

THE MEMBERS OF PARLIAMENT ALARMED

OTTAWA, May 3—The news that smallpox has been discovered within the precincts of Parliament, supplemented by the action of the local health authorities, fumigating and disinfecting the room of one of the Senators, caused excitement among Parliamentarians and gave rise to the rumor that possibly all the members might be quarantined. ITALIANS PAY DEATH PENALTY

Arosha and Seppel Hanged for Cruel Murder of Paddy Green, Pedlar.

ANDOVER, May 3—(Special)—This Tuesday morning at daylight Tony Arosha and Leon Seppel, two Italians paid the penalty for the murder of Paddy Green in December last, the double execution being conducted by Radcliffe. One pull of the lever launched both men into eternity, the gallows being fitted with a double trap. The men met their death calmly, having spent the past few days in almost continuous prayers with Father Ryan. Both prisoners professed their gratitude to the attendants who had been kind during their imprisonment. A pathetic feature was a letter from Arosha's mother who believes her son sick in hospital, offering to send him money for his passage home and paying for his recovery. After the execution the bodies were taken to Indian Point Cemetery for burial.

THE FUNERAL OF T. A. MCLEAN

One of the most impressive Masonic funerals ever held in Alberta took place at Hillhurst on Sunday afternoon last, when the remains of Bro. T. A. McLean were buried with full Masonic honors. Mr. McLean was a past grand master of the grand lodge of Prince Edward Island, and a 33rd degree Mason. As general sales manager of the Hillcrest Coal company, he was brought into close contact with a great many people, and the respect that he was held in by both business and personal friends was evident from the large number gathered together to do him honor in death. Over 100 members from the Masonic lodges of Lethbridge, Coleman and Frank attended, and the impressive funeral ceremony was conducted by R. W. Bro. T. J. McDonald, deputy grand master (a native of Montague, P. E. I.). Besides the members of the lodges a large number of outside friends were present, and the number of floral offerings showed how well the deceased was esteemed. Mr. McLean came from British Columbia about four years ago, and has resided in the Pass ever since that time. He was a justice of the peace, merchant and postmaster at Hillcrest. Death was due to heart failure, and arrived very suddenly. On Tuesday Mr. McLean attended a reception being given by his daughter on her wedding anniversary. On Wednesday he was taken ill and he expired Thursday at 5 p.m. He was 64 years of age. The remains were interred at Blairmore.—Calgary Albertan, April 27.

MORNING SESSION IN THE COMMONS

Sir Wilfrid Announces Earl Grey Remains Till Next Year in Canada.

OTTAWA, May 3—(Special)—The Commons began morning sittings today. This is regarded as the beginning of the end of the session which is looked for in the course of a couple of weeks. There will be no further legislation brought down by the Government, but a small budget of supplementary estimates and railway subsidies is expected this week. The Prime Minister stated that he had been asked by members if it were the intention to present the usual address on their departure to the Governor General and Countess Grey for the appropriate manner in which they had discharged their duties in Canada. Sir Wilfrid was happy to announce that there was no occasion for such an address, as the term of His Excellency would not come to an end this year. This means that Earl Grey does not propose to follow the precedent in case of Governors General, who, while appointed to Canada for six years have left as a rule at the end of five years.

Another workman, ignoring the warning cries of the people, followed the first and tried to save his companion, but shared a similar fate.

"SIXTY" TRIP VOTES IN THE GUARDIAN OF MAY 22

The Morning Daily Guardian of Saturday, May 22, will be a big surprise in every way. Those who have not had a hearty laugh for years should not miss the humorous column in the "Special" section on that date. The poetry will not be the ordinary every day kind, but "special" poetry from "special" sources for the "special" section of that date. Each of the three sections of The Morning Daily of May 22 will contain a ballot worth "twenty" votes and thus a total of "sixty" votes instead of that issue for but five cents, instead of but "twenty" votes in all other issues for two cents. And all the net receipts from the sales of all such receipts will be for the "Anti Tuberculosis" movement. Every reader of The Rural Daily Guardian should not miss The morning Daily of above date, for it will give everybody an idea of what the women can do in editing a newspaper. Business men are already arranging for advertising in the women's section of the Morning Daily of May 22. The Daughters of the Empire deserve all possible help for their movement to help increase the funds for so laudable a movement. Four-fifths of the receipts from all of the "Special" advertising, which will be placed on the "Special" pages with the "Special" articles by the ladies, will be for the "Anti-Tuberculosis" movement. The Guardian merely being paid for the expense of setting each ad in type and for inserting same in each page. Not more than five cents will be asked for each copy of the paper, but all who desire can pay any larger amount they wish, for the net receipts from all such sales and all such "special" advertising will be for the "Anti-Tuberculosis" movement. The Guardian will receive no more for each copy of that big issue of from 20 to 24 pages than for the regular eight page paper and only the cost of setting in type and inserting each advertisement. Thus the net receipts will help stamp out that dread mally Tuberculosis. Watch for tomorrow's Guardian.
