PROBABILITY OF STRIKE AMONG BRITISH MINERS

Nation-Wide Strike Voted for Which Will Paralyze Indu try or Lead to Nationalization of Miners.

(Special to The Guardian.)

LONDON, Sept. 1.—In the hands of the executives of the Miners' Union of Great Britain rests the question of a strike that will either paralyze industry or bring about the nationalization of mines. By a majority of 367,917 out of 845,647 votes cast by miners authority to declare a strike was turned over to the leaders. It had been a forgone conclusion that the miners would vote in favor of striking. The national conference of British Miners, called for Thursday to hear the official returns of the nationwide ballot, will decide on the date for action which is expected to take place between 11th and 18th of September.

Mixed Farming Canada's Salvation

(Special to The Guardian.)

SHERBROOKE, Sept. 1—Mixed farming, with livestock as a basis, was the advice given Canadian farmers by the Hon. S. F. Tolmie, Federal Minister of Agriculture, in yesterday's address at the luncheon tendered the directors of the Great Eastern Exhibition here at which he was a guest. The Minister expressed the fear that Canada might be repeating history of other sections of North America in impoverishing the land by rumors of a one crop system. Mr. Tolmie urged greater production and to that end begged our farmers to take advantage of the opportunity of obtaining and ascertaining modern scientific farming methods.

Another C.P.R. Man Gets into Trouble

The ninth C. P. R. conductor to be arrested this year, charged with converting to his own use money and tickets, the property of the railway company, was arrested on Saturday afternoon by C. P. R. Detective McKinnon, acting under the instructions of Chief Burns of the C. P. R. secret service. The conductor, L. A. Lepage, appeared before Judge Cusson this afternoon. Bail was set at $1,000. The enquete will be held on September 3, at the request of J. J. Creelman, K. C., who appeared for the C. P. R. Mr. Creelman stated that he resired the case to be set for an early date in order that Lepage may be tried simultaneously with the eight other conductors now committed for trial. The accusation against Lepage is that, while employed as a conductor on the Quebec-Montreal line, he appropriated to his own use money and tickets without making the proper statement to the company's auditors. Mr. Burns this morning stated that two other conductors had been arrested in Toronto on similar charges and also that a merchant in that city had been arrested for receiving stolen tickets.

No Word Of Martial Law

BIG CONTEST NOTES

Candidates Have Only a Little Over a Week in Which to Capture Their Prizes.

THE BEAUTIFUL GRAY DORT, THE PLAYER PIANO, THE BIG PHONOGRAPH AND OTHER VALUABLE PRIZES WILL SOON BE THE POSSESSION OF SOME HAPPY CANDIDATES. WHO WILL WIN THE GRAY DORT? IN LESS THAN TWO WEEKS THE WINNER WILL BE ANNOUNCED. THEY WHO TAKE ADVANTAGE TO THE UTMOST DURING THESE LAST DAYS OF THE TRIPLE VOTES SCHEDULE ARE SURE TO WIN THE BIG PRIZES. GET BUSY..... GET BUSY

Candidates this week are working at top-speed. They realize that time is getting short and that every effort must be expended during these few remaining days. Competition is keen, and it is yet impossible to foretell the big winners. Of course, every candidate is sure of a prize, even if it is only ten per cent of his collections, but from the way business is coming in, there will be a sharp competition for the first three big prizes. The work the candidates do this week and next will determine the prizes they win. Let every candidate get busy in earnest and amass such vote totals that victory is assured.

Now is no time for delay. Rest, and well-earned rest, may come afterwards—after your coveted prize is yours—but now every minute counts. Don't let some other candidate walk off with the prize you want and worked for—for lack of just a little exertion on your part.

THE TRIPLE VOTES SCHEDULE IS BIGGER THIS WEEK THAN NEXT. DO YOUR BEST THIS WEEK AND NEXT, AND THE RESULTS WILL TAKE CARE OF THEMSELVES.

McSWEENEY MAY LIVE WEEK OR TEN DAYS

Government Provided Physicians to Guard Against Possible Complications but Refuse to Release Him. Other Hunger Strikers Have Capitulated.

(Special to The Guardian.)

LONDON September 1.—Government physicians reversed their recent decision today and declared that Lord Mayor MacSweeney on hunger strike in Brixton prison would live from a week to ten days longer. The government is providing the best medical experts obtainable and has declared officially that MacSweeney will not be permitted to die from complications if science can prevent it. This was his nineteenth day without food.

Hunger strikers at Mount Joy prison capitulated and began eating this afternoon. Twenty two hunger strikers in Cork, however continued their voluntary starvation and several had collapsed.

GENEVA, Switzerland, Sept 1.—Police arrested Bernere Guevray here late yesterday on a charge of sending a threatening telegram to Premier Lloyd George at Lucerene demanding release of Lord Mayor MacSweeney.

P. E. I. WOMEN'S INSTITUTES CONVENTION

Two Interesting Meetings Addresses Dr Helen McMurchy and Dr. Yeo.

The seventh annual convention of the Prince Edward Island Women's Institutes opened yesterday afternoon in the Domestic Science Kitchen, Kindergarten Hall. Unfortunately the weather proved very unfavorable to a large attendance, but in spite of this handicap a good number turned out and the preliminary business of the convention was successfully carried through. Miss Della E. Saunders, Supervisor of the Institute, ably presided. Following the opening chorus a brief address of welcome to visiting delegates was delivered by the Hon. Walter M. Lea, Commissioner of Agriculture. He spoke especially of the urgent need of school improvement, and the good results which it is hoped will attend this Women's convention upon school legislature. A reply to the address of welcome was given by Mrs. Walter Simpson of Bay View, after which Miss Saunders delivered her Supervisor's report. This proved very interesting, showing as it did the splendid work carried on by the Institutes. Since July last year fifty visits have been made throughout the Island to local branches, in which demonstrations were given in cooking, nursing, millinery, interior decorations, etc., From September until Christmas talks have been given upon cooking to the pupils of the town schools. Short courses all through the winter have been held for girls from the country, and six weeks were taken up in courses for soldiers' wives and sisters. From May until the present time the organization has been busy in field work. Two new institutes have been established, one at Murray Harbor and one at St. Nicholas.

Following Miss Sausders' report came reports from the various branches, general discussion, and registration. An enjoyable feature of the meeting was the delightful music furnished by Miss Earl.

In the evening the Convention met in the Assembly Hall of the Prince of Wales College, where a splendid program was carried out. The attendance was small but appreciative. Mr. W. J. Reid, B. S. A., acted as chairman and Miss Earl was again present at the piano, leading the song service in "Old Time Favorites" The chairman in a few fitting words introduced the first speaker of the evening, Dr. Helen McMurchy, of the Child Welfare Department, Ottawa.

Dr. McMurchy received hearty applause on coming forward. She opened her address by paying an enthusiastic tribute to our Island province, to its resources and its beauty. "It is twenty years since I first visited P. E. Island" she said, "and I have come back to it since then as often as I could, for I have never forgotten it. Everybody comes to the Island, if they can. Everybody drives Island horses and eats Island potatoes—if they can afford them!"

The Doctor went on to speak of a greater thing the Island was producing,—its men. She spoke of a president of a University, and other prominent men and women, whose stirling abilities and character have made the Island famous throughout the length and breadth of the Dominion!

The Department of Health with which Dr. McMurchy is associated is the youngest department in the Dominion. It was unknown even in Great Britain until 1918 when a Ministry of Health was appointed. This was a marked success and in the following years its counterpart was established in Canada. The Hon. M. W Rowell was the first Minister appointed in Canada. He did splendid work and following his retirement Mr. Calder took it up. Its efficiency today is a splendid monument to his success.

The formation of a Department of Health at Ottawa had practically become a necessity. Before its establishemnt eight different ministries were occupied with its work. The Department of Education, burdened with its own work, was obliged to take a great share of it. Now conditions are changed and a competent staff of educationalists are released to look after throughout the Dominion the important problem of Child Welfare.

The child has never been studied in the past. Not even in the portraits by great painters of old time can be found any indication that they studied children. Look at their work,—at the work of Rhambrant, for instance,—and in every childish feature there is somethingh which does not look right or natural. This was the first fact stumbled upon by the new Department in its work—that the child has never been studied. The great message of the Angel was "Ye shall find the Babe" and this is the great first problem still before us today.

The speaker then went on to emphasize the great importance of looking after our children, and of rasing large and healthy families. "It takes four children to a family" she said, "to keep things even. Less than four children in a family mean that there will be fewer Canadians asd more something else,—as it is in the States, for instance." We should not only see that our children are reared strong and healthy, but that their school lives should be made comfortable and inviting. Some of the schools even in this great modern Canada of ours are maintained in a disgusting condition, through carelessness or ignorance. The last point emphasized by Dr. McMurchy was that accurate registration of births should be maintained. "I ask you," she said in her emphatic way "would it be too much to expect parents to remember the number of their children,—whether they had six of four? You smile! Do you know that there are two provinces in this Domision that do not know how many children they have,—how many births they have? One of these is Prince Edward Island. You have never counted your children!

This announcement created some astosishment in the minds of many of the audience, but the speaker went on to state that this important matter of birth statistics would no longer be neglected.

Following the splendid address of Dr. McMurchy a vocal solo was rendered by Mrs. William Trainor, which was heartily encored. The chairman then called upon Dr. Yeo for his promised address. This was upon Medical Inspection of School children. We regret that time prohibits us from giving even a summary of this able paper which was listened to with the greatest attention.

At the close of the meeting the program for the following day was read and a hearty vote of thanks extended to the speakers.

20,000 Workers To Strike in N.Y.

(Special to The Guardian.)

NEW YORK September 1.—Twenty thousand workmen in trades which control the fate of New York's fall moving, may either go on strike this afternoon or will walk out tomorrow unless their demands for increased pay are granted. They include 3,000 van drivers chauffeurs and packers and 2,000 plumbers all of whom strike today and 15 000 painters, paper hangers and decorators who will quit work tomorrow unless their terms are met.

"Triple Alliance" Continues Session

(Special to The Guardian.)

LONDON, Sept. 1.—The "triple alliance", representing miners, transport and railway workers today authorized the sub committee to remain in continuous session with power to convene the full body at any time to take action regarding the pending miners' strike.

Transport Workers Will Not Join Strike

LONDON, Sept. 1.—Despite the action of the "Triple Alliance" in adopting a resolution supporting the miners' demands for increased wages, the belief was general today that railway and transport workers will not join the miners in the latter's scheduled strike. Labor Minister Horne announced he is ready to confer with the miners.

Brush Fires Causing Alarm

(Special to The Guardian.)

WINNIPEG, Sept. 1—In a dozen separate regions of Manitoba brush prairie fires are still menacing the life and property and in many cases demanding the attention of scores of men who should be on their farms cutting and threshing their already over-ripened grain.

(Special to The Guardian.)

LONDON, Sept. 1—Terrence MacSweeney, Mayor of Cork passed a slightly better day Tuesday. There seems to be little change except that the prisoner developed symptoms of neuritis in the arms. Mrs. MacSweeney remained with her husband at his bedside tonight.
