

Has the Famous Frost Lock

Canada's imports of eggs are down. There are wonderful opportunities in developing home and export markets!

The bigger and better your poultry runs, the greater the production and profits! **FROST White Rock Brand—a new FROST Poultry Fence—is the strongest poultry, garden and hog fence ever built.**

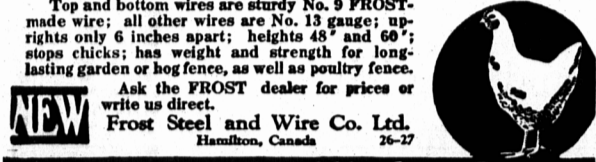

It has the **FROST TIGHT LOCK**, famous in **FROST Farm Fences**, but made of smaller wire. Every fence space is precisely even, every joint solid for the entire life of the fence.

FROST White Rock Brand Fence is easiest and cheapest to erect. It saves frequent renewals of flimsy erections; no expensive wooden supports required. It costs least per year of service.

Top and bottom wires are sturdy No. 9 **FROST**-made wire; all other wires are No. 13 gauge; uprights only 6 inches apart; heights 48" and 60"; stops chicks; has weight and strength for long-lasting garden or hog fence, as well as poultry fence.

Ask the **FROST** dealer for prices or write us direct.

JURABON

(11836)

The Black Percheron Stallion Jurabon raised by the Dept. of Agriculture, sired by Julius 10986, dam Jurabelle (9069) is a premium horse of the highest standard. This horse won first prize when shown at the Provincial Exhibition and is one of the finest proportioned horses of his type to be found. He has the soundness, size and quality, also the quietness and willingness, that are so much called for in the draft horses, in the market today and will call for with greater insistence in the future. In short he has the breeding and characteristics that make the ideal type of draft.

This horse will be in the stud at owners stable through the season. Usual terms with special advantages.

Dezeng Diagnostic Professional Unit

COMFORT FOR THE PATIENT EFFICIENCY FOR THE OPTOMETRIST

The Wellworth Unit presents a compact selection of scientific instruments that enable the Optometrist to cover completely his ocular examination, without the patient leaving the chair and with each individual instrument within instant reach.

An important feature of a refracting outfit is absolute comfort for the patient.

This has been accomplished in the Wellworth Unit with adjustable seat, head rest and armrests. The chair can be reclined, raised or lowered and adjusted to the perfect comfort of any patient. A comfortable patient can be more quickly and easily examined.

Accuracy and efficiency for the Optometrist is accomplished with Dezeng diagnostic instruments of minute precision which are within instant reach and swing before the patient.

This Unit is used in all ocular examinations by

INSIDIOUS EYE STRAIN

We use this adjective advisedly.

Sufferers from Eyestrain may have perfect vision and therefore do not suspect the presence of any eye defect.

The motive power of the entire human organism is Nerve Energy.

Normal eyes, it is computed utilize about 20% of this Nerve Energy, but when Eyestrain is present, a much larger proportion is required. Hence defective eyes, through their consumption of an excessive amount of Nerve Energy, may seriously affect the functioning of other organs of the body, and produce ill health.
