Spring Millinery opening To-night at 7.30

THE SHOWING THAT commences the millinery season is ready for you this evening at half past seven. In past years of achievement you have learned to expect much from this initial showing, and this year you may look with confidence for even more.

Every feature that marks out this spring as one of the most remarkable and advanced in the history of the millinery trade, is well represented here.

There are the mushroom and lampshade features, there are the poke effects, there are the turbans. It has been well said that the hats suggest the days of Romney, and the first Empire, and yet the prevailing mode is contradicted in not a few attractive designs.

Now while the hats we show are the perfectly new and authentic spring designs there are no "freaks" that no one would wear, every design is the outcome of discriminating taste.

MORE THAN TWO HUNDRED beautiful trimmed designs will be shown you. This enormous showing includes many imported models, specially selected for this showing, and a great range of very lovely things designed and made up under the supervision of Miss Wilson our head milliner.

Among the hundreds, yes thousands of new attractions shown you will see a great variety of hats and trimmings bought in the Old Country by our Mr. MacLeod, wonderfully lovely materials at very moderate prices. Another instance of the way this store strives to give you best service, our buyer went direct to the best foreign markets, and went early so that Charlottetown may have its Easter millinery practically as soon as New York.
