25 p. c., 33 $\frac{1}{3}$ & Half

This is not an every day occurrence with us. It is ten years since we had a clearance sale. Read this advertisement and cut it out for references as it won't appear again.

We want \$15,000,000, before the first day of February 1903, and we have to get it even if every cent of profit has to be sacrificed. It will be an event that will make history for us.

There are times in the life of every business when it pays to sell goods at a loss. Our judgment tells us that the present occasion is one of the times that our business needs a good cleaning out, so we believe, the wisest thing for us to do is to sacrifice now. If our discount don't sell the goods and bring us the \$15,000,000 we shall call in the auctioneer.

There are goods that you want and want badly at the price for which we are offering them. We would rather have the money than the goods. The prices asked shall be lower than AUCTION PRICES.

Mr. Paton took over this big Dry Goods business in 1893. He placed the stock on the market at a sacrifice to pay off his late partners. The people patronize this sale and benefited thereby. Many will remember the big bargains given.

The present firm has had no general Clearance Sale since, and it will be ten years in October since that grand clearance took place. The stock is offered at about 67 $\frac{1}{2}$ cents on the dollar. Our customers know the low price at which our goods are always marked, and know many of our bargains. The present management thinks it is time for another house cleaning, so we will commence our sale on Friday morning and will continue until they realise \$15,000,000 cash. Come early and participate in the sale.

Each article will be marked in plain figures; nothing will be returnable; there will be nothing given out on approval; and no samples cut and everything will be sold for cash. Our books will be closed until the Sale is called off. Respectfully yours.

JAMES PATON & CO.
