

THE TRIUMPHS OF PE-RU-NA INCREASE.

Thousands of Chronic Ailments of Women Cured Every Month—Disguised Internal Catarrh the Enemy of Women—Pe-ru-na the Only Internal Systemic Catarrh Remedy Yet Devised—Prominent Cases in Illustration.

Nervous Depression.

Summer months are peculiarly the months of nervous diseases, especially nervous prostration and other depressed states of the nervous system. People who are not at all inclined to be nervous or suffer from weak nerves find this time especially trying. Sultry heat and electrical disturbances of the atmosphere are probably the cause of this.

Invalids need to be particularly careful to fortify the nervous system by the use of Peruna.

Miss Helen Rolof, Kankana, Wis., writes: "Several times during the past two years or more my system has been greatly in need of a tonic, and at those times Peruna has been of great help in building up the system, restoring my appetite and securing peaceful sleep. I know a great number of women who are using it for the troubles peculiar to the sex, and with the best results."—Helen Rolof.

time. The medicine only is obtained by each patient at her own drug store. Those desiring to become regular patients have only to send address, duration of disease and treatment previously received, and directions for the first month's treatment will be sent at once.

Over half the women have catarrh in some form or another. And yet, probably not a tenth of the women know that their disease is catarrh. To distinguish catarrh of various organs it has been named very differently.

MISS LOUISE BERTSEL.

MISS JENNIE FINLEY.

Miss Jennie Finley, 79 Madison Street, Memphis, Tenn., a popular young society lady of that place, writes: "Three years ago I had very poor health, and while I was only sick about occasionally, I was unable to enjoy life and to work and to study. I was an easy subject to cold and malaria. Four bottles of Peruna changed my entire physical condition. My head stopped aching, my strength returned, and the poison was driven out of my blood till I felt like a new and well woman once more. It is a truly wonderful medicine, and I will always have my indorsement."—Jennie Finley.

Miss Louise Bertsel, 19 1/2 Second street, Brooklyn, N. Y., writes: "My health was excellent until about six months ago, when I seemed to have a collapse from overdoing socially, and the doctor ordered an entire change of scene and climate. As this was an absolute impossibility at the time, I had to try and regain my health in another way and was induced by a friend, who gave Peruna such a good recommendation, to try Peruna. I can not tell you the condition of my nerves when I began to use it. The least noise irritated me and I felt that life was not worth living, but Peruna soon changed me into a well woman, and now I do not know I have nerves."—Louise Bertsel.

Miss Lucy M. Riley, 33 Davenport street, Cleveland, Ohio, writes: "I wish to add my indorsement to thousands of other women who have been cured through the use of Peruna. I suffered for five years with severe headache, and when weary or worried in the least I had prolonged headache. This fall I caught a bad cold and was advised to take Peruna for it. Imagine my surprise when I started to take it, but after taking two bottles not only was my cough gone, but I had no more headache or headache. I am now in perfect health, enjoy life and feel neither an ache or pain, thanks to Peruna."—Lucy M. Riley.

A newspaper contributor was lately admitted into the extensive suite of offices which constitute the headquarters of Dr. Hartman who treats catarrh of the bladder and prostate. Among the busy swarm of assistant doctors, clerks, stenographers and bookkeepers, Dr. Hartman stopped long enough to say a few words.

A large number of female patients visit me every year, but the number who are entered on my books as regular patients and are treated by correspondence is very much larger. Hundreds of letters are received and answered free every day. A yet greater multitude take my catarrh remedy, Peruna, and are cured, of whom I never hear. Some of this latter class write me years after their cure.

"I never allow a name published except by the written consent of the patient. We make no charge at any

THE people of Halifax crowded Orpheus hall till there was not room enough for another to get in. The Bostonia Sextette Club gave the most enjoyable recital the best music, that has been heard in Halifax for many a long day. The program, not severely classical, comprised selections from the very best composers, and the men and women who heard the sextette will mark May 3 as a red letter day in their musical recollections.—Herald, Halifax, N. S. May 3, 1900.—Get your tickets at Gourlie's to-day for the entertainment in Market Hall next Tuesday night.

YESTERDAY the death took place of a most aged resident of this place, the person of James Bernard. He was born at Wilmot on the farm now occupied by William Hacker, and was a son of the late John Bernard, one of the first settlers in this district. He was a farmer and shipcarpenter, and was widely known throughout Prince County. Deceased had just passed his 80th birthday. In his earlier days he moved to French River where he resided until about 18 years ago when he removed to Back Road, recently named Sherbrooke, and for the last two years has lived in Summerside where his death took place about 11 o'clock yesterday forenoon at the house of his son Jeffe Bernard, with whom he has resided for many years. Besides a wife, the following family survive him: James Bernard, Cambridgeport, Mass.; J. E. Summerside; and Mrs. Playton Seburman, Summerside. The late Mr. Bernard was a descendant of the British Loyalists who emigrated to this country from the U. S. One daughter Samuel living in Dakota and one sister Mrs. William Bernard residing at French River also survive him.

Watch Your Shoulders.

When standing before a looking glass, notice if your shoulders are the same height. Generally the right is higher than the left. The reason for this unevenness lies in the way one sits. You get into a comfortable chair at your desk, and at once you rest your right elbow on the arm of your chair or your desk, thus throwing one shoulder higher than the other. This is especially the case where one writes a great deal. When you notice that one shoulder is higher than the other, the thing to do is to change your way of sitting at your desk. Two simple exercises will be beneficial. The arm of the lower shoulder should be extended upward, the hand grasping a dumbbell. That of the higher shoulder should be lowered and made to support a heavy weight.

English Brass.

The composition of English brass is about seventy parts of copper and thirty of zinc. "Prince Rupert's metal" contains 75 to 80 per cent of copper and on account of its golden color is employed to some extent in jewelry. The kind of brass called tombac contains still more copper, nearly eighty-five parts in a hundred. It is the alloy used for the manufacture of what is called "Dutch metal," an imitation of gold leaf. It can be rolled into sheets, and these can be beaten out till they are only fifty-three thousandths of an inch in thickness.
