—Miss Pearl MacDonald of Portage has entered the Prince County Hospital for treatment. S.

—Miss Blanche Sonier of Summerside is a patient in the Prince County Hospital. S.

Address And Presentation To Mrs. Jeans

The regular monthly meeting of the Girls' Club of the Summerside Presbyterian Church was held last Friday evening at the home of Mrs. Ernest Walker. There was a very large attendance.

At the close of the regular meeting a rather pleasant surprise awaited the President, Mrs. Jeans, when she was presented with an address and a lovely bedspread, which was the handicraft of the members of the Club. Miss Frances Robertson read the address and Miss Zilpha Sharp made the presentation.

Mrs. Jeans very fittingly replied to the address and expressed her delight at the lovely gift, which she knew entailed a good deal of work. Mrs. Jeans extended a cordial invitation to the girls to visit her in her new home in St. John.

Mrs. Walker assisted by some of the young ladies, served a dainty lunch.

The meeting closed with singing "Old Lang Syne."

Following was the address read:

To Mrs. Q. J. St. Clair Jeans,
Summerside.

Dear Mrs. Jeans,—In view of your approaching departure from Summerside we have asked you to be present with us tonight, at this our last meeting of the year, in order that we might convey to you the thanks and appreciation of our organization, the Girls' Club of the Summerside Presbyterian Church, for the wonderful interest you have shown in our work, and for the splendid assistance you have rendered in all our undertakings. We do not forget that the inception of this Club was due to your initiative, and we assure you that this fact will be an inspiration to us in all our future activities.

We cannot express in words the deep regret we feel at your departure from our congregation and our community. We can only extend the sincere wish that the richest of God's blessings may be showered on you and yours in your new home, and that the New Year may bring to all of you continued health and happiness.

May we ask you to accept the accompanying gift as a small token of our appreciation and good wishes, not only for yourself, but for Mr. Jeans and Jackie also.

The Girls' Club of the Summerside Presbyterian Church, Zilpha Sharp, Vice-president; Frances Robertson, Secretary.—S.

HOMEMAKING QUIZ FACES COLLEGE GIRLS

CAMBRIDGE, Mass. Dec. 17—(CP)—Fair students at Simmons, Wellesley, Radcliffe and other women's colleges redoubled their studies in home economics today in an effort to save money for their boy friends at Massachusetts Institute of Technology.

The extra diligence resulted from an edict by sponsors of a party, to be held at the Massachusetts Institute of Technology on Friday night, that each feminine guest would be required to answer "yes" or "no" to a list of 10 problems of household management. Should the girl err in her answers her escort must pay a fine of 10 cents per error in addition to the regular party fee.

And what is more, the party sponsors say, it will be easy to rate the various girls' schools on homemaking" after compilation of the questionnaire statistsics is completed.

Chili Has Building Boom

Down in Santiago, Chile, they are having a near building boom which has brought about prosperity in the national cement industry, according to the Industrial Department of the Canadian National Railways. A great factor in this great building activity is the impetus given by the new government plan which exempts house construction from new taxation for a period of ten years and applications for building permits have reached peak figures as a result of this state assurance. Home ownership is steadily increasing among the middle and private employee classes in Chile. This the government encourages as much as possible by state propaganda and generous loan facilities through the various "cajas."

Brewer Is Found Dead

(C.P. By Guardian's Special Wire)

WINDSOR, Ont., Dec. 16—Esau Thistle, secretary treasurer of the Walkerville Brewing Company, was found dead in a room in a downtown hotel here today. His body was suspended from an overhead water pipe by means of a rope. Mr. Thistle had registered at the hotel early Saturday. When he failed to answer the telephone during the day, employees of the hotel forced the door and discovered his body.

VIRGIN ISLANDS KNOWN AS SUMMITS OF FABLED ALANTIS

There is a group of islands comprised within the British West Indies group which are somewhat off the beaten track. They are known as the Virgin Islands and their trade is carried on with the Leeward Islands served by direct steamship connection from Canada by the "Lady" liners and freighters of the Canadian National Steamships. Trade is also carried on with the neighboring American Virgin Islands. Sometimes referred to as the summits of the fabled Atlantis, that mysterious continent the story of which forms part of ancient muthology and which was said to have lain beyond the Pillars of Hercules, some claim where the Atlantic Ocean now holds sway, the Virgin Islands were discovered by Christopher Columbus on his second voyage in 1493. English buccaneers drove out their Dutch fellow "tradesmen" in 1666 and the islands were annexed to the Leeward Islands in the time of Charles II. Canada, here as elsewhere throughout the British West Indies, is the chief supplier of four, imports increasing by 14.2 per cent in 1933 as compared with the previous year. Exports are principally cattle, charcoal mules, fresh fruit, sweet potatoes, bananas, chiefly to the American Virgin Islands tnd the Leeward Islands.

MUST LEARN MUCH TO FLY AIR-MAIL

MIAMI, Fla., Dec. 17—(CP)—An aerial training ship will be operated out of here this winter in preparation for a flight by Pan American Airways men across the Pacific Ocean, a preliminary, if all goes well, to establishment of a Trans-Pacific airmail service.

The ship, a giant multi-motored amphibian aeroplane, will be flown from a base here on prolonged ovewater flights to familiarize five of six picked men with conditions they are likely to meet in a flight from California to Canton, China. Each will be required to make himself an expert in his own job and to learn the jobs of all his companions.

The men who will carry out the experimental flights across the Pacific will be "captains" or "junior pilots" of the air service. Each will be an experienced pilot, navigator, graduate engineer and licensed radio operator. They will be trained in making flights over water by day and night and will fly further and further from land as their training develops.

When the giant plane takes off from San Francisco for Canton it will start an 8,500-mile journey on a 56-hour schedule which will necessitate an average cruising speed of 150 miles an hour. The plane is capable of 191-miles an hour with all engines turning over at maximum revolutions, and has a range of 3,000 miles.

The route of the Trans-Pacific flight will be San Francisco to Honolulu, 2,410 miles; Honolulu to Wake Island, 2,300 miles; Wake Island to Guam, 1,500 miles; Guam to Manila, 1,600 miles,; Manila to Canton, 600 miles.

ALLOWANCES PAYABLE DEC. 20TH

(C. P. By Guardian's Special Wire)

OTTAWA, Dec. 16—Civil service superannuation allowances will be paid for December on the 20th instead of the end of the month in order that the money may be available for Christmas. The banks have been notified by the Finance Department to cash the receipts when presented any time after Dec. 20. About 5,400 persons receive these allowances. The cheques for the militia pensions and the Mounted Police pensions will go out in time to be cashed on the same date.

OXFORD —(CP) — During the past academic year 204 Rhodes Scholars were in residence at Oxford, 101 from the Empire, 98 from the United States and five from Germany.

BARRAGE OF ROTTEN EGGS FOR AGITATORS

Western Farmers Pelt Pro-strike Orators.

EDMONTON, Dec. 17—A barrage of rotten eggs hurled by irate anti-farm-strikers greeted speakers substituting for grain-strike agitators when they appeared before a meeting at St. Michael, east of here, last week.

Peter Kaisan and Mike Yaniw, of Royal Park, proxies for Peter Kleparchuk, Mundare district's delegate to Soviet Russia two years ago, who now is awaiting hearing of his appeal against a two-month jail term for wrecking a grain wagon while picketing, and William Pylpow, Town Councillor of St. Michael and Chairman of the meeting were liberally splattered with foul-smelling debris when the meeting broke up in disorder.

Kaisan and Yaniw were sent by Kleparchuk to hold the meeting while he was busy in Mundare with a hearing before the Board of Grain Commissioners, sent to investigate the grain strike in that district.

The speakers had hardly finished presenting the case for the strike when the farmers, deciding against strike measures, pelted those on the platform with five dozen overripe eggs.

The Board of Grain Commissioners returned here tonight after concluding its investigation into charges of undergrading and excessive dockage of wheat delivered by farmers of the Mundare district to elevators.

ORDERED PARENTS TO VIEW PICTURE

(By The Canadian Press)

BROOKLYN, N. Y., Dec. 16 — Judge Samuel D. Levy, dean of the domestic relations court here, was so impressed with the performance of Nova Pilbeam 14 year old English movie star in the title role of "Little Friend" that he "sentenced" a quarrelling couple in his court to see this film at a local theatre and rehabilitate their home.

Learning the parties had a nine year old daughter Judge Levy recalled "Little Friend" as a picture stressing the child and the heartaches and unhappiness she suffers with her parents in disagreement. He thought thousands of men and women who have encountered marital snares would be brought together in love and happiness through this picture.

Nova Pilbeam got her front name from the fact her grandmother was born in Nova Scotia.

SHOW BIG SCENES WITH NO CURTAIN

(By The Canadian Press)

OXFORD, Dec. 16 — Rameau's opera "Castor and Pollux," which was originally produced in Paris in 1737 has been presented by the Oxford University Club, for the first time in England, but was given in Glasgow seven years ago.

The production is a marvel of ingenuity, there being no curtain and only one scene. Yet Heaven, the burial place of the Kings of Sparta, the Temple of Jupiter, and Hell were all adequately represented in the opera here. Costumes and headgear were suggested in such cheap materials as velveteen, painted calico, pine-cleaners and paper, and, according to a critic "looked real and rich."

There was a small orchestra, conducted with good effect.

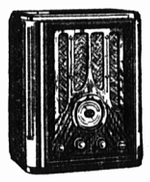
FEAR SURVEYS MAY BE UPSET

SPRINGFIELD, N.J., Dec. 17—(CP)—Landholders in Northern New Jersey's rich real estate tracts are nervous following discovery atop a ridge of the Watchung Mountains of a pottery cone marking a primary triangulation point fixed more than 65 years ago.

The point, marked by early surveyors, was lost more than 50 years and rediscovered by an Emergency Relief Administration engineering party. Jacob L. Bauer, former state high engineer, says it may upset land surveys in the real estate area.

GOVAN, Scotland, Dec. 17—(CP) Harland and Wolff, shipbuilders, recently despatched to South Africa two powerful steam tugs for service in the South African Railways and Harbors.

"Here's the Christmas gift I want ...a *Globe Trotter* Radio"



Victor "Globe Trotter" 118 (Dual-Wave) $62.50, *with tubes*

Canada's Meat Guarantee

In view of the fact that the assurance of a supply of sound, wholesome meat is one of the best methods of safeguarding the public health, the meat inspection service administered by the Health of Animals Branch of the Dominion Department of Agriculture may, therefore, be regarded as one of the most vitally important services rendered by the Canadian Government to the people. This service functions under the Meat and Canned Foods Act and applies to interprovincial and export shipments of meat products manufactured in Canada, and to those products brought into the Dominion from other countries. Only sound and wholesome meat fit for human consumption is allowed to be shipped from one province to another, or to countries outside Canada; the handling of meat and meat products must conform to stringent sanitary requirements; no harmful dyes, preservatives, or chemicals are allowed to be used, and honest labelling of the products is enforced.

To ensure all these points, the service of control is efficiently complete. The entire premises of establishements engaged in export of meats and meat products, including the yards, pens, and stables are placed under constant supervision of officers of the branch, and, in the first place, only those establishments with plants that meet the requirements of sanitation in regard to construction, equipment, and maintenance are allowed to operate. The actual work of inspection begins with the examination of the animals before and after slaughter. If there is no disease, the carcass is permitted to pass to the slaughtering department, and from thence every phase of manufacture is under complete control. Nothing is allowed to enter or leave the plant without the knowledge, consent, and supervision of an inspector. Hence, the legend "Canada Approved" is known all over the world as a real guarentee of pure and wholesome food.

QUEBEC GIRL ON SCREEN

(By The Canadian Press)

QUEBEC, Dec. 14—Lucille Watson, well known actress who was seen here recently in the screen version of Barrie's "What Every Woman Knows," is a native of Quebec City and attended school here as a child. Her parents, Capt. and Mrs. Charles Watson, who came here from England, were both prominent in theatrical affairs. Later the family moved to Ottawa. The part played by Miss Watson in the Barrie picture required the ability to speak French fluently.
