Personal Attention to the Affairs of Estates

More personal attention is given to individual estates handled by this Company than is given by the individual executor.

Specialists pass on every transaction before it is finally confirmed by the advisory board.

Being a highly organized institution, no detail is too small to escape notice and care.

That is why the Trust Company has succeeded the individual as executor and trustee under will of the large majority of professional and business men.

We have some pamphlets explaining the matter in detail. Write for them.

Radway's Ready Relief

Chas. H. Billings, of 240 W. 17th St., writes: "For years I have been suffering from asthma and bronchitis. A week ago I purchased a bottle of Radway's Ready Relief and have taken a teaspoonful in water before retiring each night. The relief I have experienced is marvellous. I most heartily endorse R. R. H."

CURES ASTHMA The specifics for this disease are the Ready Relief, the Resolvent and Radway's Pills. The Relief must be rubbed on the chest and throat until a burning sensation is produced, and the pills must be taken frequently, to keep the bowels thoroughly open. The Resolvent must be given at short intervals, in small doses, and a desiccated portion of radium in red. Use a teaspoonful of the Resolvent whenever a paroxysm occurs. RADWAY & CO.

"WINTER SPORT.—St. Peter's Skating Rink has a number of innovations to its credit this season, among the lot being a ladies' Hockey Team. Their first practice on Monday night was eventful, and numerous squalls and catlike ejaculations, testified to the strenuous efforts that were being put forth in honor of the National Canadian Winter Sport. A number of those "hardy boys" who happened to be in the rink at the time were shut up in the dressing rooms, when the game started and were strictly forbidden to exhibit their facial protrusions outside the doors which injunction was obeyed to the latter for the space of one minute. Then the excitement inspired by the awful din coming from the ice being too much for their weak masculine nerves they broke bounds and came out. The female puck chasers were so intent on their work, more power to their elbows, that they had no time to devote to insignificant male onlookers and they proceeded with the game with increased vigor, if that were possible. It is needless to remark that the spills were marvellous and one might add that the variety of attitudes assumed by the fallen were great and wonderful to behold. The Captain of the team was particularly unfortunate in this respect, he overzeal and to lack of skill, but to overzeal and a hubbub skirt. The other Captain, who by the way is an ardent snowshoer, while she did not fall as often as her rival, had great difficulty in arising to her feet again, when she did come down, which fact she attributes to the snowshoeing habit, others however remarking on the circumstances, claim that the good-looking male referee whose chief duty was picking up the fallen had something to do with it. The rest of the boys are now wanting to take turns at refereeing these games, but the present occupier of the position, wants to hold his job or anything else that falls his way throughout this season. Mr. Freeman Leslie the efficient manager is to be congratulated for his good work and the ship shape manner in which he discharges his duties. A Carnival is being discussed by the directors as an amusing and paying feature "This would be something new in this part of the country.—U.

The Double Work of the Blood

The circulation of the blood is one of the most perfect pieces of mechanism in the universe. Besides carrying nourishment to every part of the body, the blood collects the waste products and passes through the kidneys in order that these poisons may be eliminated. Hence you see the tremendous importance of keeping the kidneys in healthful working order so that they free the blood of these impurities before they find lodgment in some weak spot and set up serious disease. Aching back and aching head, troubles with the digestion, deposits in the urine, constipation and biliousness—such are the symptoms which indicate the need of Dr. Chase's Kidney-Liver Pills. The liver is awakened to action, the bowels regulated, and the kidneys made vigorous in their work of purifying the blood. In the great majority of homes Dr. Chase's Kidney-Liver Pills are kept at hand for use in just such cases. They save many doctor bills, and by keeping the digestive and excretive systems in health do much to prolong life and bring comfort in old age.
