## PROSECUTOR LI

SIR—In connection with the prosecution of the Detective Prohibition cases that have been held lately in Summerside, certain statements have been made from pulpits and otherwise in respect to my conduct in regard to a certain settlement and other matters.

In all fairness to myself I must ask the gentlemen who have made such statements to inquire more fully into the facts referred to by them. I must say that in all matters I have acted squarely and above board with the full consent of Rev. Mr. Wilson, Secretary of the Temperance Alliance, and in regard to the much disputed settlement I must say that the same was arranged by Mr. Wilson and my attorney, and with the understanding that all parties were satisfied, I agreed to it, and as a man of honor could not afterwards repudiate it.

I am Sir, &c.

## How Thin People

### Can Put on Flesh

#### A NEW DISCOVERY

Thin men and women—that big, hearty, filling dinner you ate last night. What became of all the fat-producing nourishment it contained? You haven't gained in weight one ounce. That food passed from your body like unburned coal through an open grate. The material was there, but your food doesn't work and stick, and the plain truth is you hardly get enough nourishment from your meals to pay for the cost of cooking. Your nutritive organs, your functions of assimilation, are sadly out of gear and need reconstruction.

Cut out the foolish foods and funny saw-dust diets. Omit the flesh cream rub-ons. Cut out everything but the meals you are eating now and eat with every one of those a single Sargol tablet. In two weeks note the difference. Five to eight good solid pounds of healthy, "staying there" fat should be the net result. Sargol charges your weak, stagnant blood with millions of fresh red blood corpuscles—gives the blood the carrying power to deliver every ounce of fatty material in your food to every part of your body. Sargol, too, mixes with your food and prepares it for the blood in easily assimilated form. Thin people gain all the way from 10 to 25 pounds a month while taking Sargol, and the new flesh stays put. Sargol tablets are a scientific combination of six of the best flesh-producing elements known to chemistry. They come 40 tablets to a package, are pleasant, harmless and inexpensive, and all druggists sell them subject to an absolute guarantee of weight increase or money back.

### LEAGUE HOCKEY

Just over half of the number of games in the P. E. I. Hockey League, senior and intermediate, have now been played, and as the result the Summerside club, the Crystals, lead in both competitions. They have not as yet lost a single match, and they have marked up victories against all three of the Charlottetown clubs. In the Senior League, it is true, the Connaughts Club is packed with the Crystals in regard to the number of points, each having three to its credit; but then the Crystals have played one game fewer than the Connaughts, and have no defeat to count against them, as the Connaughts have.

Following are the league tables, giving the present positions of the competing clubs:—
