

SOURIS, MONTAGUE AND KING'S COUNTY

It pays to buy in this Province... T. O. F. regular meeting of Court... Charles Thompson, Montague...

The Morning Daily Guardian can be obtained at H. J. Mabon's drug store, Souris... R. Stewart, South Lake, who has thoroughly recovered from the operation...

NOT NECESSARY. "Papa?" "Yes, daughter." "Would I have to be an heiress to put on airs?"

Don't take strangers into your confidence. Don't be afraid to inquire the way if you are bewildered. Don't wipe the dust off the car window with your elbow.

delightful comedy-drama in three acts, dealing entirely with English society life. This play was first produced in London and enjoyed one of the most phenomenal runs that the metropolis has ever known.

Miss Edith Warren—the wife in the play—also suffers from domineering influence of "our aunt-in-law" which character is assumed by Miss Mollie Revel.

grow all these years, not seeing any story in him at all. It was natural because it was Johnson, and I'd always known he'd do it. He was clean and fearless and open-minded—said, a pugnacious dreamer. All the more I happened to see his career more impersonally and note that while it is in some respects typical of enterprising young America...

Sch. Marion Emerson Capt. Wallace White arrived at Beach Point from Port Hastings recently with a cargo of coal... W. L. Jordan, of the firm of R. W. Jordan & Co., Beach Point, left Souris yesterday for Charlottetown to attend the exhibition... Sch. Minnie Laura Capt Ruben Penny, of M. H. South has arrived at Beach Point, with a cargo of coal from Port Hastings... Martin McKinnon, Montague, is Guardian representative, and all news, advertising and subscriptions in Montague and vicinity should be handed to him... D. P. Murdock, who has been spending a few days at his home in Murray Harbor, Souris, will leave this evening on return to New Glasgow... F. G. Jordan, Souris, is Guardian representative, and all news, advertising and subscriptions in Souris and vicinity should be handed to him

INSECT ALIVE IN SOLID ROCK. Entomologists here have found something that has stamped them, and they are likely to call on their brethren elsewhere to help them out. It is a bug that has been taken from an apparently solid piece of rock blasted out more than 200 feet below the surface. The find was made by W. J. Wostenholme, general manager of the Shamrock Gold Mining and Milling Company at Marysvale, recently. He was going over the dump looking at the broken ore that had come up from the mine in order to pick out some specimens he wanted to use. He broke open what appeared to be a solid piece of rock, first cracking it with a hammer. When he separated it he found in a little cavity a bug about a quarter of an inch long. It was not very lively, but it was alive. He examined the rock to see if there was any fissure that could let air in to the insect, but there was no evidence of any. Mr. Wostenholme was particularly interested because about a year ago George F. Dalton, the president of the company, while hunting specimens, came across a similar bug in a similar little hole in what appeared to be solid rock. This had been taken from the hard quartzite that had been blasted out 100 feet below the surface. Mr. Dalton consulted some experts in such things, but they could not tell him what he had found. As a matter of curiosity he put the bug in a sealed bottle, and it lived for months without any visible means of subsistence. The entomologists here are very much interested in this new find, and it is expected that a full description of the bug will be sent to various authorities on the subject in the hope that some one of them may be able to tell what it is and something of the phenomena surrounding its life under such remarkable conditions.

FONT FOR THIRSTY HORSES. A water-carrying motor car, probably the first of its kind in the world, has been placed in commission in Philadelphia by the Women's Society for the Prevention of Cruelty to Animals, as a dispenser of water to thirsty horses. The car, its mission clearly placarded on its body, will move slowly through busy streets in the parts of Philadelphia where troughs are not available, and any driver can stop it and get a bucket of water free of charge.—Popular Mechanics Magazine.

Catehall, N.B. Minard's Liniment Co. Limited Dear Sirs,—While in the country last summer I was badly bitten by mosquitoes, so badly that I thought I would be disgraced for a couple of weeks. I was advised to try your Liniment to allay the irritation, and did so. The effect was more than I expected, a few applications completely curing the irritation, and preventing the bites from becoming sore. MINARD'S LINIMENT is also a good article to keep off the mosquitoes. Yours truly W. A. V. W. A. V. R.

Friday, Sept. 29 Particulars Later.

Wednesday & Thursday

Horse Races

Details Tomorrow

Specialties between the heats at the Horse Races

1.—The 2 Clairmont Bros in their Comedy Revolving Ladder Act. They do handstands on the ladder, handstands on the back of a chair balanced on the ladder, trapeze and other chair work. Their entire act is of the hair raising kind and filled with thrills. 2.—The 2 De Macos graceful, lithe, skilled gymnasts, whose acts are strikingly novel and original, including aerial acts. 3.—Piquo in the clown novelty act. He is considered one of the best clown bar performers before the public. To this he adds comedy pantomime which never fails to amuse. 4.—Mr and Mrs Couser with their ten performing dogs. Trained animals always appeal to our people. These dogs do everything but talk. Among them are dancing dogs, leaping dogs, dogs that jump, and turn somersaults, clown dogs and every other kind of dogs. 5.—Mr and Mrs Couser again in their great wire act. Suspended 10 feet above the platform with nothing but a silver wire for a foothold they perform as if they were standing on the ground without the slightest sign of fear. With all the confidence born of the knowledge of being perfect masters of the art. Enough said, come and see them. 6.—Robin—the great juggler—not a bird this time but a bird of a juggler, manipulating large and small objects with rare skill and keeping the comedy going at the same time. He is a top-notch in his line and truly a great entertainer. 7.—La Belle Faustina, the great contortionist. To-day is the opening day of the Annual Provincial Exhibition at Charlottetown.

Notice
