## LINDBERGH'S LAND IN MAINE

### Famous Fliers Forced Down On Account Of Fog.

(Canadian Press)  
NEW YORK, July 9.—Colonel and Mrs. Charles A. Lindbergh, taking off casually in their trim red monoplane, started today on a seven weeks' flying expedition to Greenland via Halifax with a view to mapping a possible commercial transatlantic air route.

The Radio Corporation of America's station at Chatham, Mass., reported the flying couple alighted near Rockland, Maine, at 6 p.m. (Eastern Standard Time) three and a quarter hours after leaving New York.

Although the announced intention of the Lindberghs had been to fly to Halifax, N. S., in one hop, the report said they put down earlier because of the fog.

## GOLD BLOC COUNTRIES TO WITHDRAW

### Observers Will Keep Sharp Eye On Con- ference — Decision On Agenda Will Be Made Today.

(By Melvin K. Whiteleather)  
(Associated Press Staff Writer)  
LONDON, July 9.—(A.P.)—European gold standard countries prepared tonight to withdraw from the World Economic Conference gently and without a rumpus.  
Georges Bonnet, French Finance Minister, spent the week end searching for a formula by which the members of the gold bloc could leave observers to keep a sharp eye on what the inflationist sterling-dollar bloc might concoct. This would not mean a technical walk-out, it was said, but the gold countries hoped it would be a knockout blow.

Whether the conference is to blossom forth on the basis of a sterling dollar price raising programme or suffer a lingering death probably will be decided tomorrow. The conference steering committee will meet at 11 o'clock tomorrow morning to give a final decision on whether it is to lop off monetary and tariff questions as is demanded by the gold bloc members, representing all continental Europe except Portugal, Finland, Estonia, and Scandinavian countries.

The permanent monetary committee, the only one which has not yet reported its desire, meets before 11 o'clock.

The committee on temporary monetary measures for easing the crisis already has voted to keep pushing on while the economic committees voted to strangle the conference immediately.

The bloc members are convinced they will close the battle in the steering committee where a majority vote for the sterling-dollar group is predicted.

The policy of the gold bloc as expressed by M. Bonnet, its defender, is to remain adamant and not to give a single observer plan for they are said to feel that it is to their interest to keep tab on the sterling-dollar bloc if it attempts a vast prize-rising scheme.

Prime Minister Ramsay MacDonald sent emissaries today to M. Bonnet to attempt to persuade the Frenchman to "play ball" tomorrow and afterwards. They were told, it was understood, that this was impossible and that the gold bloc countries intended to adopt the observer plan.

Meanwhile the British and Do-

Roger Q. Williams is planning a round-trip transatlantic flight in July. With two other pilots, as yet unselected, he will go from New York to Rome, non-stop, by the southern route, following a course north of the Azores. After a short hop from Rome to Athens, the return trip will be made by way of Ireland, non-stop from Dublin to Chicago. He has set July 24 for the take-off.

## Await Better Weather

### Fog Over West- ern Atlantic Holds Up Ital- ian Fliers.

REYKJAVIK, Iceland, July 9.—General Ivalo Balbo, Italian air minister, and his companions piloting 24 seaplanes to Chicago are awaiting more favorable weather conditions for the next stage of their journey, a 1,800 mile hop to Cartwright, Labrador.

Weather reports were being received at frequent intervals from vessels along the projected course of the air armada and the pilots were ready to start as soon as conditions were good.

The weather was calm here but there was fog over the western Atlantic.

To Represent Government  
OTTAWA, July 9.—Hon. Dr. Murray MacLaren, Minister of National Health and representative of the province of New Brunswick in the Dominion Cabinet, left yesterday for Shediac where he will represent the Government at the reception to the Italian armists.

Dr. MacLaren will be accompanied by the Italian Consul General M. Zanotti-Bianca, who will join him at Montreal.

It is anticipated that the Italian air armada of 24 seaplanes, commanded by General Balbo, Italian Air Minister, will reach Shediac on Monday next, and plans have been made, so far as the Government is concerned, to extend a formal welcome on that date.

REYKJAVIK, Iceland, July 9.—Takeoff of 24 Italian seaplanes for Cartwright, Labrador, next leg of their flight to Chicago, was further delayed today when no change appeared in the weather. Stops are also scheduled at Shediac, N. B., and Montreal.

(Associated Press)  
PARIS, July 9.—France's battle plans to defend her golden franc, her trade and her prestige were outlined by Premier Edouard Daladier today in a rousing speech surveying the future.

On the eve of the campaign which six gold bloc countries launched yesterday to support their currencies and throttle speculation against gold through their central banks, the Premier assured the country that its money was safe and promised a "youthful policy"—vigorous, daring, but never too venturesome—to keep it so.

He announced he would summon parliament in October to arm the Government for the anti-inflation fight by balancing the budget, pledged rapid repayment of the British loan, said France was able to meet all her bills and intimated that the war debt difficulties with the United States would be adjusted.

Admiring them not to put on airs, the code says, "frequent humble quarters of the cities, get in tune with office hours, lending a patient and sympathetic ear to as many as possible of the people who come to see you."
