IRELAND'S WAVE OF PROSPERITY.

NEW YORK, Aug. 16.—"Ireland is on top of a wave of prosperity since the war began," said Frank Moran, the fighting man, this morning.

"England has long bought food from Norway, Sweden and other countries, but since the German submarines have begun to blow up every ship they can catch bound for England, those sources of food supply have been cut off.

"So the English have had to turn to Ireland, a rich agricultural and grazing country for food, and the result is that the Irish farmers and drovers have more money than they have seen in years. And, of course, when the farmers are prosperous every one shares the good luck with them. I never saw Ireland so well off.

"And there's another matter in which Ireland is better off than any other part of the United Kingdom—there won't be any conscription in Ireland. It is admitted everywhere that the volunteering has been far in excess of what it has been in any other part of the Empire. The Irish have done their share and far more than their share in fighting."

Moran was born in Pittsburg, but he comes of a long line of ancestors famous as strong men in the county Mayo.

"Another thing that has brought Ireland to Ireland," Moran continued, "is the racing. They are racing on twenty-two courses in Ireland, from Leopardstown and the Curragh of Kildare to a lot of minor tracks that are almost unknown in this country. Since all the railroads in England are given over to the carrying of troops and army supplies, it would be impossible to transport the horses and the people who go to watch them from one part of England to another.

"So the whole business has been picked up bodily and taken to Ireland. I suppose there are at this moment no less than \$1,000,000 worth of thoroughbred horses in Ireland, and with them no fewer than 10,000 owners, trainers, jockeys, stablemen, exercise boys, and all the rest of the big staff that follows the horses. They are not all at the track every day but most of them are there three or four times a week. That means a lot of money put in circulation.

"Everything is war over there now. There are no end of war stories. Did you hear of the Comaught Rangers taking part in the rear guard action in the Allies' retreat from Mons? The rangers were halted a dozen times, expecting every time that they were going to have a crack at the Germans. But each time it was a false alarm.

"At last they were suddenly halted. 'Dig yourselves in, now, boys,' said the officers, 'for the Bosches will be here in a little while.' An hour passed, two hours and not a sign. At last a tall sergeant, looking the picture of distress, stood up and walked over to his captain.

"'Lord save us, captain,' he said anxiously, 'but I do hope there's nothing happened to the poor Dutchman.' 'Then they told of a couple of Irish soldiers who had been out scouting all day. It was late in the afternoon before they saw anything. Then one of them took a long look through his glasses, sweeping all the way across the horizon.

"'By Heavens,' he cried, 'there's 40,000 Germans coming against the two of us. Get your gun, Larry.' 'The war is pretty sure to last three years longer. That is the opinion of everyone over there who knows the facts and has good judgment.'

ROYAL COMMISSION ABANDONED

OTTAWA, Aug. 17.—The Dominion Royal Commission which was to have visited Canada this year to finish up its work of reviewing the Empire's resources has abandoned its intention. The commission travelled all over the British Empire and accumulated a vast amount of information as to resources, trade conditions and other features. Their next stop was Canada and they reached Stoney when war broke out. This interrupted their journey and they returned to England. Since that time the Canadian authorities have forwarded them a great deal of information and it was understood the Commission would come back this year and complete its work. It is understood, however, it has decided not to do so.

HAVE \$2,000,000 FOR GUNS.

OTTAWA, Aug. 15.—The firm of John Bertram & Sons, of Dundas, Ont., of which General Bertram, chairman of the Shell Committee, is president, has given \$10,000 toward the supply of machine guns to the Canadian troops, or enough to buy ten guns. A request accompanies the contribution that the guns be given to that section of the First Battalion, First Brigade, which is composed of men from Wentworth and Dundas.

It is understood that the total contributions now received by the Militia Department for Machine-guns amount to \$2,000,000, enough to buy 2,000 guns.

HEAVY TAXES ON ROUMANIAN FRONTIER

(Special to the Guardian.)
PARIS, Aug. 17.—A delayed despatch from the Havas News Agency filed at Bucharest on Saturday says that Austrian and German Agents at points along the Rumanian frontier are paying three times the Normal prices for wheat, corn, hay, flax, peas and beans exported from that country. This is the result of the heavy export taxes placed upon the Rumanian Agricultural production on Saturday, following the action of the Government on the previous day of removing prohibition against sending certain food supplies out of the country. The export tax amounts \$80 to \$200 on car loads.
