**Canadian Youth To Carry On In Nation's Tasks**

(By The Canadian Press)

Canada's 1938 university graduates, 5,500 strong, is too occupied with its drive for a place in Canada's progress in peace to worry much about its possible part in a widespread war in Europe. This also goes for the women graduates who held an increased proportion in degree rolls of 1938. The challenge of home service, adventures in new fields of women's endeavor right here in Canada—even to engineering and veterinary science—seem to have been the dominant factor in their choice of careers. The Canadian Press reports that the response to what was their feeling toward (1) enlistment in British Imperial Forces if the United Kingdom entered a European war, (2) overseas enlistment in an expeditionary force Canada might send to an overseas war in which the United Kingdom or the Empire entered, and (3) enlistment in Canada's forces if Canada were attacked by armed forces.

The reaction to the inquiries across Canada, in terms of general opinion, is that the majority of the president of a Nova Scotia university: "Student debate is naturally invariably on the side of peace. A few, however, do not think that overseas adventure would probably be slight. I don't think, however, there would be any hesitation to come to the aid of the Empire at large in the case of definite aggression from a foreign power."

Another Maritime educational head viewed it as a little different. However, he thought there had been a great change in the feeling of students towards war during the last few months. "There are a few, however, who feel that war is inevitable. They realize that if war becomes inevitable, it will be different."

**Yates Returns In Triumph With Walker Cuppers**

(By Paul Mickelson, Associated Press Sports Writer)

**NEW YORK, June 14**—Charles Richardson Yates, who still calls himself just plain Charley Yates since he won the British amateur golf championship, returned to the United States today leading his vanquished Walker Cup teammates in song and story.

The happy-go-lucky Atlanta bank clerk regarded as the "weak sister" of the team when it sailed May 10, took the praise and tumult of his homecoming in a complete manner. Yates, who had a couple of minor mishaps on the golf course, was the delight of everyone. He rendered a vocal solo of his new favorite, "Just A Wes Deoch 'T Doris."

Yates' high spirits were so infectious that for a spell everyone forgot the United States had been licked by the British for the first time in 10 matches of Walker Cup play. But, to a man, they all seemed tickled to make the swap—the Walker Cup for the British amateur trophy—because Yates, the most popular of the players, seemed through to win the cherished amateur prize.

As Johnny Goodman of Omaha and Reynolds Smith of Dallas reported seeing Yates and his teammates with their wisecracks and gags, the Atlanta star he owed his unexpected triumph to his iron nerves.

Yates' first walk on the green and his scoring average in Walker Cup play was approximately a half shot over par round, so no alibis were regarded as necessary.

**WEST ROYALTY W.I.**

The May meeting of West Royalty Institute was held at the home of Mrs. Gordon Stetson with seven seen members and four invited guests. The President opened the meeting in the usual way. Minutes of last meeting were read, approved and signed. Committees then gave their reports. Sick committees reported being out to two sick. No report from school committee. It was moved and seconded that one dollar be given to the school for the purpose of buying flowers for the members. Motion carried and seconded that five dollars be given to the teachers for prizes to be given to the children at the end of the school term. The following were appointed as follows: Sick, Mrs. Vernon Burke, Mrs. Lawson Crosby, Mrs. Fred Gess, Mrs. Hammond Sanderson, Program, Mrs. E. M. Mackay and Mrs. Gordon Stetson. Questionnaire on Education and Better Schools was filled in by Conventer and discussed at meeting. A reading was given by Mrs. E. M. Mackay and a contest enjoyed. Mrs. Crosby, Mrs. Chowan and Miss Toombs secured the prizes. An interesting feature of the evening was the hearty response that each member gave to the exchange of shrubs and plants among the members. Next meeting to be held on June 15th at the home of Mrs. James Blake. Roll call to be answered with each member describing their wedding costumes. Meeting closed with the National Anthem. Lunch was then served by the hostess and a special hour enjoyed.

**Ministers Deny Hepburn Charges**

**TORONTO, June 14**—United Church ministers throughout Ontario joined today in denying that they were "parlor socialists" as charged by Premier Mitchell Hepburn in a speech at Hamilton yesterday.

Ministers in all sections of the province were up in arms at what they termed an "unjustified attack" on the Church. It was reported that ministerial associations in all sections would be placed in a state of readiness to meet and pass resolutions.

**MOBILIZATION**  
(Continued from page 1)

"The posters are still ready in every French commune, and the problem of the government is never to find itself forced to post them."

Speaking after news reached here on the sinking of two French vessels by insurgent Spanish planes at El Oro, near Valencia, Spain, Premier Daladier said France remains not only loyal to non-intervention but determined to see it enforced.

He added: "As in all international understandings, this policy should be loyal and reciprocal and simultaneous. It is toward that end that we are now directing our efforts."

The Premier referred to the forthcoming visit of King George VI and Queen Elizabeth, "an another demonstration of the United States achieved by Great Britain and France at London earlier this year, which he described as a plan of preventive diplomatic action based on moderation and on firmness."

"This 'preventive diplomatic action,' which observers believed was a reference to the united stand of Paris and London during the Czechoslovak crisis, has been carried out successfully in a number of instances, Daladier said, speaking to the executive committee of the Radical Socialist Party.

He referred with emotion to the "cruel massacre" of innocents in Spain and China which he said tearing "a ravine, bleeding wound in the flank of our world."

He said the destiny of Spain should be determined by Spaniards alone, and that Great Britain and France were determined to see that this should be the case.

**French Study Club Closing Meeting**

The closing of Le Cercle d'Etude Port La Jolie was held at the home of Mrs. J. H. Blanchard on Tuesday, June 14, at 8:30 p.m.

Rev. John Beese, the Chaplain, opened the meeting with prayer. Mrs. A. J. Howatt presided. The annual report was read by Mrs. J. H. Blanchard, the secretary-treasurer. This lady, whose members are all French ladies, meets weekly at the homes of the different members. The slogan of the Club is "Better French in Conversation and the programmes are always all in French. Since its organization in August last there have been held twenty-eight meetings. The annual report showed that the membership of the Club had been active in helping the social service dept. during the winter, several articles of clothing having been made. A hand-made quilt which was awarded to Miss Dorothy McKenzie in a recent contest at the Hospital Bazaar was also a donation from the ladies of this Club.

A short programme followed the reading of the annual report. The taking part were Miss Ida Poitrier who gave a vocal selection; Mrs. Frederick Smith (formerly Miss Doris Poitrier) who gave a reading; and Mrs. J. C. Howatt who gave a short but amusing talk on the aims of and benefits derived from attendance at a French Study Club.

This was followed by congratulatory remarks from the Reverend Chaplain and Professor J. H. Blanchard.

The leader, Mrs. Howatt, in a few words thanked the members for their cooperation in this worthwhile enterprise.

**CANADA PACKERS**  
(Continued from page 1)

ons "And I say he is making monkeys of the officers of the livestock branch."

Charlie Todd is nominally the head of a packers association but in reality he is the mouthpiece and the lips of Stanley Maclean, the worst enemy the Canadian farmers ever had.

There was not an independent packer in Canada who would not endorse this statement if they did not fear the weight of Canada Packers.

When he was minister of trade and commerce, Mr. Stevens said he called a conference of livestock and marketing officials. The livestock men had brought with them Mr. Todd and the sales manager of Canada Packers and these two did most of the talking.

OTTAWA, June 15—Gold storage companies which have extracted millions from the Federal Treasury should not be allowed to control prices for their own benefit.

Hon. H. H. Stevens (Recon, Kootenay East) today attacked the carefree men today. They should be made to operate toward stabilizing prices in the interests of the farmers and producers.

Mr. Stevens said he was not urging cessation of grants to cold storage plants but that operating policies of the companies should be supervised from the standpoint of the farmers and producers.

During the months of August, September and October there is often a possibility of moving butter out of Canada, thus relieving the pressure in that high production period. Mr. Stevens thought that Government should be assisted if necessary, because the presence of large supplies on hand was always used as an excuse to keep down the price to the producers.

Mr. Gardiner said the question had been raised before as to whether these grants should be used to assist commercial ventures or assisting the producers.

**Study Revised List Of Czech-Nazi Demands**

(A.P. By Guardian's Special Wire)

**PRAGUE, Czechoslovakia, June 15**—Cabinet ministers examined tonight a revised list of Sudeten German demands for minority rights.

The session followed 24 hours of almost continuous discussions of the nationality problem by Premier Milan Hodza, his government colleagues and Czechoslovak representatives of Konrad Henlein.

It was announced Hodza told the Sudeten German leaders he would accept the terms of the list in a few days, upon his own proposed minor amendments. But statements from both sides indicated the Germans were holding out for:

1. Equality of status between Czechs and Germans in Czechoslovakia as a legal entity.
2. Recognition of 3,500,000 Sudeten German population in Czechoslovakia as a legal entity.
3. Separation of German territory as distinct from Czech territory.
4. Entire self government in such border areas.
5. Minority protection for Sudeten Germans living outside such recognized territory.
6. Reparation for damages caused to Sudeten Germans since 1918 by "unjust" measures.
7. Establishment of the principle of parity between Germans for German territory.
8. The right of individuals to acknowledge their German nationality to the German Government.

These would be more conciliatory than the eight-point program Henlein announced April 24, when he called for the termination of the Czechoslovak-German alliance and recognition of the Sudeten Germans' right to secede from the Czechoslovakia-German-inhabited districts, among other demands.

**Aid Indian Women To Higher Living**

**REGINA, June 15**—Education of Indian women with a view to promoting a higher standard of living among the tribes has been undertaken by the Saskatchewan Department of Indian Affairs with the co-operation of women's clubs.

"The Indian woman has more influence over her husband than the white woman has over hers," Dr. Thomas Robertson, inspector of Indian agencies in Saskatchewan, said here. "In the past not enough attention has been paid to the money has been spent on men for farming equipment and improvements but the department now aims at higher standard of living through women's education."

Requests of Indian women that meetings sponsored by the department be devoted to work shows the interest they are taking in their work," Dr. Robertson said "Indian women, young and old, are eager to learn."

At the meetings they are being instructed in sewing, knitting, canning, cooking and other household arts. Dr. Robertson believes craft work has increased 50 per cent in many Indian homes in the past two years.

**WATERLOO, N. S., June 15**—A. J. Mason of Springhill, N. S. was charged with manslaughter late today following an inquest into the death of Nathan Stiles of Lunenburg. Stiles died after his bicycle was struck last night by an automobile said to have been driven by Mason.

**MAN LOSES TOOTH DOG REALLY HURT**

**TORONTO, June 15**—When a dog knocks out a man's teeth it's news, a Toronto newspaperman discovered when he turned up for work with a cavernous hole where his frontal incisor ought to be.

No, he hadn't run into a door in his sleep, fallen out of bed or any other thing like that. He had been hit by a vicious dog while on duty. The dog had bitten the man's tooth and the tooth had fallen out.

The man, who is a reporter, said the dog was a bulldog and was very vicious. He had been walking down a street when the dog came up to him and bit his tooth.

The man said he was in a great deal of pain and was unable to eat. He had to go to the hospital where the tooth was removed.

The dog was caught and is being kept in a pound. The man said he was very angry and would like to see the dog punished.

Addresses Authors

(C.P. By Guardian's Special Wire)

**OTTAWA, June 15**—Canada's northland is a rich and virgin field for authors. Dr. Charles Camsell, deputy Minister of Mines and Resources, said tonight in an address to the Canadian Authors' Association.

Development of the fur trade and the mining industry should be a fruitful field for literature. A predominating strain of tragedy northward and westward of the line of the lives of those who lived there.

"This tragic strain is only to be expected when you realize the nature of the Arctic and the severity of conditions under which people live," he said. "It is a hard country to live in and the northern author must endure it. Those who know no other conditions of life." The north offered a kindly, generous, honest and hospitable life.

"Who is to occupy that vast country as a permanent home if we allow the native people to disappear?" he asked. "I think the answer is that only people who can live contentedly on the northern fringe of this continent and on the islands of the Arctic and on whom we call to maintain our sovereignty and perhaps carry on some of the functions of government. These people therefore must be preserved."

Authors will find in the north names to stir their imagination, he said. Hunley Creek, Dease's Falls, the Redoubt, the Drowned, Tropical Valley and Bloody Fall have sinister sounds and "each would appear to have a story behind it which might make good copy."

**CITE SAVINGS**  
(Continued from page 1)

Replying to the criticism of several Senators that the C. N. R. witnesses were making no constructive suggestions, Government leader Dandurand said the committee had desired to have the C. N. R. submissions "tested" by the experts of the state-owned road. In many instances, he reminded the committee, what could be done under cooperation.

"You are almost antagonizing the committee because you are all talking unification and nothing else," said Senator F. B. Evans (Cons. Westmoreland). "Make some suggestions to us along some other line," he urged.

Unification, said Senator C. W. Robinson (Lib. Moncton) had been a great question before the country. It had been advocated in press, in public speeches and by radio. "The matter had to receive proper consideration."

"We should not let ourselves be stampeded by that," said Mr. Black. Unification must not be looked to as the only solution of the problem.
