A hay tedder on our streets the other day was gazed at by many citizens who wondered what the Town Council was going to do next; or was it Peter Schurman's Potato digger? thought some. The machine is quite new in these parts, but there are many farmers who if they were on our streets on the day in question would have soon relieved the ignorant ones by telling their experience with the machine in words of praise which would prove its right of way on our streets. Mr. John Dickieson was the responsible party for starting some of our townsmen and he would still further surprise them if he showed them the machine at work in a hay field.

## AT HENLEY.

HENLEY, England, June 20.—The oarsmen from the University of Pennsylvania were up bright and early this morning. They are all delighted with their quarters at the Five Horse-Shoes Inn, a rustic hostelry situated in a picturesque spot. Ellis Ward, the coach of the Pennsylvanians, walked the crew to the railroad station where the boats were taken off the trucks and carried to the boat house. A small crowd of the inhabitants and several oarsmen watched the visitors' racing boat, which was much admired, as was also the clean-cut athletic appearance of the crew.

## THE CAUSE OF NERVOUS HEADACHE.

This most distressing and common malady doubtless has its origin in some unbalanced condition of the nervous system. Probably the simplest, safest and most efficient remedy is Folsom's Nervine. Twenty drops in sweetened water gives immediate relief, and this treatment should be supplemented by bathing the region of pain with Nerviline. To say it acts quickly fails to express the result. Sold everywhere in large 25c. bottles.

Corticelli Skirt Protector should not be used as a binding—it is a physical impossibility for any kind of a binding to outwear a skirt.

Corticelli Protector Braid should be sewed on flat—not turned over—one or two rows of stitching—one at upper edge of braid and the second near the bottom of the skirt.

Put on thus it is a real "protector"—its perfect shade match makes a desirable bottom finish for any skirt.

Sold everywhere 4 cents a yard.

The genuine has this label.

## Contract Let.

On Thursday, May 30th, a meeting of the Directors of the Comstock Gold Mining Co., was held and the Manager authorized to go ahead with work just as vigorously as possible. A Contract to drive a development tunnel has been let and no delays will be made in prosecuting the work.

The Dominion Govt. has granted the Canadian Pacific Railway \$96,000 for the Lardreau Branch Line and the Lardreau newspapers just to hand say it is likely trains will be running to Trout Lake (our shipping point) by November.

The bounty on Lead puts us on a level with the American producers of Silver-Lead Ores and altogether an investment in Comstock Shares looks very promising for big returns on a small outlay. Shares are 10 cents each. \$100 for 1000 shares.
