U. S. PLANES FIGHT IN RECORD BATTLE

Allied Soldiers Cross Volturno River In Force

Tanks, Supplies, Guns And Troops Stream Northward

By EDWARD KENNEDY (Associated Press War Correspondent)

ALLIED HEADQUARTERS, ALGERIA, Oct. 14 (AP)—The German first natural defence line in front of Rome—the steep-banked Volturno River—has been smashed by the Anglo-American 5th army at several points near Capua in a furious night assault in which Allied engineers bridged the stream under withering German fire. Allied headquarters announced today.

British and American infantry and armored forces, including tanks, moved across the river in darkness early yesterday after having repelled a futile Nazi assault on Capua and today were fighting fiercely to expand their bridgeheads against desperate enemy resistance.

So murderous was the aerial cover given the attacking troops that German infantry was blunted down to its defensive positions north of the Volturno and not a single Nazi tank was able to join the battle.

There was no exact information how far Allied vanguards had penetrated beyond the river, but an official announcement that bridgeheads had been firmly established northward far enough to ensure them against German counter-attacks.

Throughout today a stream of Allied tanks, artillery, supplies and engineers crossed the Volturno bridges, leaving heavy Nazi fire to support the advance units.

The Germans were falling back toward the mountains, the Aurung and Aurung mountains. They were undoubtedly well equipped with anti-aircraft guns and anti-tank weapons and permit the Germans to hold Rome as long as possible.

(A Berlin broadcast said seaborne British troops, employing leapfrog tactics, had landed at the mouth of the Tiber.)

Red Army Smashes To New Victories

New U. S. Plane Dwarfs Fortress

WASHINGTON, Oct. 14 (AP)—A new United States super-bomber hauling more explosives and having vastly greater range than any existing airplane now in production.

An unsuspected member of the new air giants has been delivered to the American army within the last few weeks.

Dwarfing the consolidated Liberator and Boeing flying fortress, the new dreadnought of the sky is reckoned capable of bringing the innermost production centres of Hitler's European fortress and the Japanese islands within the misle of United States bombers.

The plane is identified as the B-29.

From previous guarded reports which have cleared military censorship, it appears that officials do not expect to see the new airplane in combat before 1944. This presumably because of the time required to attain full-scale production, train crews, and adjust bugs which may show up in the early models.

War Situation Last Night

By Kirke L. Simpson, Associated Press War Analyst

A month short of the 25th anniversary of German surrender in the First Great War, Nazi armies in Russia and in Italy appear doomed to renew their current backward marches, stalked by disaster.

In Italy, the Volturno-Biferno front is crumbling to its collapse under combined 5th and 8th army flanking and frontal Allied attacks. The roads to Rome are being forced hour by hour, German hope of long delaying its investment and capture are waning. It is questionable even now how long the German stand north of the punctured and outflanked Volturno line is more than a strong rear-guard action to facilitate escape of the main Nazi forces deployed across the Peninsula from entrapment.

Russian troops battling at Melitopol, south of the great bend of the Dnieper, meanwhile are within less than 100 miles of the only remaining Nazi escape route from the Crimea. No formidable natural obstacle remains to impede a quick march to Perekop that would make the Crimea a trap for invaders sought within it. Subsequent heavy rains make the terrain south of the Dnieper bend available for a wave of movement in which Russian Cossack cavalry could again figure.

That the Nazi situation in the south is critical cannot be doubted. Russian penetration to the head of the Perekop isthmus connection with the Crimea must inevitably also force evacuation of the whole of the Dnieper plateau within the river bend. It would be vulnerable from the south as well as from the north and east.

Russian bridgeheads on the right bank south of Kiev and east of Kremenchuk already menace the main supply route for all Nazi forces. In the bend, the Bell Yersarkov-Dnepetrovsk railway, it seems impossible that the German high command has not already begun a withdrawal from both the Crimea and the Dnieper plateau to add another chapter of defeat to the grim story everywhere unfolding for the German people.

Memories of the First Great War are revived.

Allied relations of the vital Vinohostro communications since 7 p. m. as one of the enemy's "decisive strongpoints" in the lower Dnieper.

The broken German armies that had manned the Zaporozhe-Melitopol line were threatened with annihilation in trying to flee across the mudflats between the lower Dnieper and the Sea of Azov just as the Crimea. There were no natural defences left to them until they reach the safety of the western bank of the Dnieper.

Gen. E. A. Di. Malinovsky's army took Zaporozhe, a city of nearly 200,000 five miles southeast of the site at which the 8th Army's 00,000 hydro-electric works and dam which the Russians destroyed in August, 1941.

The victory's significance was noted by Stalin who ordered Moscow's 224 Victory Cannon to fire 24 salutes, one of the heaviest salutes yet given a Russian triumph.

A Tass dispatch broadcast by Moscow also said that a steady stream of Russian troops were reaching the western tip of the Taman peninsula from the Crimea across the two-mile-wide Kerch Strait from the Crimea.

Hospital Ship In Halifax With Wounded From Med.

HALIFAX, Oct. 14 (CP)—Wounded United States soldiers from the early campaigns in Libya and North Africa and a large group of Canadians invaded home from Britain for various reasons arrived here aboard the Canadian Hospital ship Lady Nelson, which docked late today and began discharging her patients.

There were no Canadian casualties from the fighting in Sicily and Italy aboard, although it had been rumored beforehand some might be arriving. All had come from base hospitals in Britain presumably as part of a movement to care for wounded from the Italian fighting.

The Americans had been taken from field hospitals in North Africa.

Among a group of Maritimers returning were several from Prince Edward Island. All were invalided back from Britain for various causes. They are Pte. W. H. Gray, Alberton, Pte. J. J. Smith, Charlottetown, Pte. I. J. Smith, Armdale, and Pte. W. D. Clark, Summerside.

After they were injured several months ago, and had been cared for in Britain since, the Canadians included men who had been injured in accidents in Britain or who were invalided home because of illness.

Brig. Sir Frederick Carson, a British army officer whose home is in Kingston, Ont., returned to convalesce in Canada following a motor transport accident in Syria that cost him a broken leg.

Brig. Carson, a graduate of Royal Military College, Kingston, has been attached to the transport division with the British command in Iraq and the Middle East. This is his first home since 1938.

The heaviest previous American loss was 59 bombers on the Rogenburgh-Schwefelfurt shuttle raid to Africa Aug. 17.

The U.S. wounded were being unloaded tonight, while the Canadian casualties were being discharged.

(Continued on page 7, Col. 2.)

Strike Heavy Opposition On Daylight Raid

LONDON, Oct. 15 (Friday)—(CP)—United States heavy bombers reached deep into Germany yesterday to smash the important ball-bearing plant at Schweinfurt and lost a record number of 60 bombers while knocking down 91 fighters in what was probably the fiercest single air battle ever fought.

Escorting long-range fighters accounted for another 13 aircraft, boosting the total of enemy losses to 104. Two of the American fighters were missing, boosting the raiders' total losses to 62.

The size of the attacking group was not announced but United States army headquarters referred to them as "large formations." It was the second smash in two months at the industrial city in south-central Germany.

The heaviest previous American loss was 59 bombers on the Rogenburgh-Schwefelfurt shuttle raid to Africa Aug. 17.

The Berlin radio, in a broadcast recorded by the Associated Press, claimed that 70 British-American bombers had been shot down during the day "over West German territory."

The heavy assault was the first since the Oct. 10 attack on Meunster, which climaxed three straight days of one of the war's most intensive bombardment campaigns including the record long-distance smash of Oct. 9 against eastern Germany, Poland and East Prussia.

The heaviest previous British air-based operations by both the R.A.F. and the Americans, R. A. F. bombers have been in the air since Oct. 8 when they struck heavily at the record long-distance smash of Oct. 9 against eastern Germany, Poland and East Prussia.

Provincial percentages of dwellings in need of external repair were as follows: Saskatchewan 40, Alberta 37, New Brunswick 37, Manitoba 32, Nova Scotia 27, Prince Edward Island 26, Quebec 25, Ontario 23, and British Columbia 23.

Make Final Plans For Loan Drive

Final plans were made here yesterday, at a conference of Queen's County salesmen for the opening of the Fifth Victory Loan campaign on Monday. Sessions were held at the Charlottetown Hotel.

Mr. W. D. Gillis, vice-chairman for Queen's County, presided over the sales procedure. An instruction in the meeting was given by Mr. W. H. V. Dunbar, vice-chairman for the Province who outlined the various prospects and application forms. Mr. P. W. Turner, the Provincial chairman of sales, went over the sales procedure. Mr. Gillis also presided at a luncheon. Grace was said by Rev. W. T. Mercer of St. Andrew's.

Mr. E. W. MacKinnon, Provincial chairman in an address said that with the same enthusiasm and effort as was displayed in the fourth loan campaign by the Queen's County salesmen there would be no difficulty in reaching the objective in the forthcoming loan.

Mr. A. L. MacPherson, chairman of sales for Queen's County also addressed salesmen on matters pertaining to the campaign.

Short speeches were made, too, by Mr. L. T. Beaton of Bonshaw, Rev. Mr. Mercer, Mr. A. G. Putman Eidon, and J. A. McIsaac of Charlottetown.

Later instructional films were shown to the salesmen.

Altogether it was a most enthusiastic meeting and augurs well for the success of the campaign.

Mr. N. W. Lowther, chairman for Queen's County was unable to be present at the session. Mr. E. W. MacKinnon, organizer for Queen's County was also absent, through illness, much to the regret of the meeting.

The following salesmen attended yesterday: Murdock Cutcliffe, Hunter River; Rev. W. T. Mercer, Mount Stewart; Philip Matheson, Oyster Bed Bridge; J. A. Moore, Charlottetown; R. R. MacDonald, Eidon; William MacDougall, Hunter River; P. G. MacPherson, Victoria; John MacKay, Emerald, R. R.; George MacLean, North Wilshire; A. P. Simmon, Crapaud; Rev. W. T. Mercer, Hunter River, R. R.; James Smith, Fairview; Earl Jay, Mount Stewart; L. T. Beaton, Bonshaw; A. G. Putman Eidon, and from Charlottetown, R. E. Hyndman, R. T. Matheson, T. A. McAvlin, J. A. McIsaac, W. M. Bears, H. M. Simpson, M. C. Stewart, Col. C. C. Thompson, Stewart, Ives and Neil MacLeod.

Many Canadian Homes Need Repairs

OTTAWA, Oct. 14 (CP)—There are a lot of Canadian homes that need repairs, the Dominion Bureau of Statistics reported today. In a report on the results of a survey of homes in the 1941 census showed that 27 per cent of all dwellings in the Dominion are in need of external repair.

To come under this classification houses had obvious need of repairs to foundations, dilapidated roofing, chimneys in need of attention or stairways and steps approaching the main entrance in need of repairs.

The proportion of homes in need of external repair was highest in the large cities than in rural communities. The farm home percentage was 40 per cent compared with 20 for urban dwellings, and this proportion declined steadily in the larger communities.

Provincial percentages of dwellings in need of external repair were as follows: Saskatchewan 40, Alberta 37, New Brunswick 37, Manitoba 32, Nova Scotia 27, Prince Edward Island 26, Quebec 25, Ontario 23, and British Columbia 23.

Report Rommel And Kesselring In Disagreement

STOCKHOLM, Oct. 14 (AP)—Field Marshal Gen. Albert Kesselring was reported today to have been recalled as commander of German troops in southern Italy after another clash with Marshal Erwin Rommel, commander in northern Italy, who was said to have assumed charge of defenses throughout the country.

Kesselring was transferred to an unannounced post and a German general named Stamel placed in command of the Rome area under Rommel's orders, said the report carried in a dispatch from the Geneva newspaper La Suisse.

Berlin announcement today said Mussolini had received Rommel, at Mussolini's "government seat" Tuesday, which may have been in connection with the affair.

The exact background of the new dispute between Kesselring and Rommel over the best means of halting steady Allied gains in Italy was not determined, the Swiss dispatch said, but their rivalry dates back to the African campaign.

Kesselring, the commander of German forces in the entire Mediterranean basin, was Rommel's superior when the "desert fox" first went to Africa only as a General. But Rommel refused to recognize his authority, it was said, and piled up impressive victories which led him to El Alamein in Egypt and won him the baton of a field marshal, equal in rank to Kesselring.

At an auction in aid of Mrs. Winston Churchill's Russian fund six pairs of silk stockings drew 25 guineas (\$127).

Bermuda Boosts Tax On Liquor

HAMILTON, BERMUDA, Oct. 14 (CP Cable)—Despite protest that Bermuda finance committee has introduced a tariff bill calling for a 50 per cent increase in the tax on 50 per cent in all liquor taxes, effective immediately.

The increase does not affect stocks in stores, but only liquor in bond and new shipments. However, most dealers here said they would raise their supplies in bond, including about 18 months supply of West Indies rum.

Price of rum will be raised from eight shillings (about \$1.90) to 10 shillings sixpence (\$2.12) a quart bottle.

Roddie Williams, member of the legislature, and proprietor of a club here, said other liquors could stand the increased taxes, but the poor man could not afford to pay for his rum. Other members expressed the opinion it "would be better if the poor man didn't drink so much."

Quota Set For S'ide, Ch'town

The victory loan quota for Charlottetown, Summerside and the Prince and Queens Counties outside the urban centres was revealed yesterday.

The town of Summerside is being asked to raise \$550,000 and the remainder of the county, \$600,000. Charlottetown is being asked to contribute \$975,000 and the remainder of Queens County, \$475,000.

Queens County will be broken down into objectives for districts which will be announced later.

A conference of salesmen will be held at Montague tonight. It will be attended by Mr. W. H. V. Dunbar, provincial vice-chairman and Mr. P. W. Turner, provincial chairman of sales.

Nazis Admit Loss Of Political Prestige

STOCKHOLM, Oct. 14 (AP)—An authoritative German periodical, Heinrich Himmler's weekly Das Schwarze Korps, openly acknowledged today that the Nazi retreat in Russia had resulted in "a tremendous loss of political prestige for Germany"—a loss which now troubles many of us.

This organ of Himmler, Gestapo chief and minister of the interior, also stated that Germany had suffered a serious economic loss in being forced out of the fertile grainlands of Russia's Ukraine.

Although these frank admissions were coupled with an assertion that the loss of prestige had been compensated for by a strategic gain in the retreat, it was noted that they came at a time when Berlin's propagandists were struggling with the problem of explaining two other important setbacks: the opening by Portugal of Azores bases to Britain and Italy's becoming a co-belligerent of the Allies.

Das Schwarze Korps warned Germany that if they were unable to intensify agricultural production sufficiently in 1944 to make up for the loss of the Ukraine breadbasket, the effects will be felt fully at the next year's harvest.

The loss of prestige resulting from the retreat in Russia, the magazine contended, is balanced by an increased war power derived by the Nazis.

"But even these fruits ripen slowly," it observed. "The loss of prestige which now troubles many of us soon will be forgotten when strategic advantages which have been won through shortening of the front appear. Then an advance in prestige will again occur."

Local Airman Seriously Ill

A P.E.I. airman was listed as seriously ill last night on the 70th anniversary of the Royal Canadian Air Force.

The airman was Lieut. Frederick Leigh Gates, whose mother-in-law was given as his father, Fred Gates of Charlottetown. He was reported seriously ill as a result of injuries sustained in a motorcycle accident. He is serving in Canada.

Five Airmen Are Awarded D. F. C.'s

OTTAWA, Oct. 14 (CP)—Air Force headquarters late today announced the award of five Distinguished Flying Crosses to members of the R.C.A.F. overseas and one to a Canadian serving overseas with the R.A.F.

The award winners: FO. D. B. Williams (R.A.F.), Saskatoon; PO. E. McLearen, Ottawa; Flt. Lt. W. E. Pettit, Brampton, Ont.; FO. J. E. Bell (37 Golden St.) Saint John; Flt. Lt. G. W. Galen, Didsbury, Alta.; and PO. S. F. Garland, Ottawa.

The citation for FO. Bell read: "This officer is a navigator of high merit. He has completed a large number of sorties and his efforts have brought his instruments to the successes obtained. On a recent occasion during a flight to Berlin an electrical storm was encountered. Displaying great skill FO. Bell ingeniously guided his pilot to the target which was successfully bombed. This officer has displayed commendable courage and resource."

Postal Employees To Seek Wage Increase

OTTAWA, Oct. 14 (CP)—Jack Cochrane, president of the Ottawa branch of the Canadian Postal Employees' Association, said today that between 450 to 500 of its members will meet here next week to petition the government for wage increases averaging \$300 a year.

Cochrane said the demand will be based on an opinion among postal employees that the minimum salary of \$66 a month is inadequate, and that staff control regulations and other factors result in employees remaining for long periods in temporary capacities.

Keep League Of Nations Alive

LONDON, Oct. 14 (CP)—Keeping the framework of the league of nations alive, the British Empire has paid its member dues up to date and 14 other countries have brought their instalments up through 1942 to the credit side of the ledger, it was learned in London today.

Six countries of the British Empire are included in the 1943 paid up members, but the amounts they paid has not yet been published in Geneva. Canada is currently paying her instalment.

RAMIREZ GOVT HAS TROUBLES

MONTEVIDEO, Oct. 14 (AP)—The Ramirez government of Argentina struggled through a cabinet crisis today amid indications it was having difficulty in determining a definite foreign policy.

The problem seemed to be whether to change Argentine foreign policy to active support of the United Nations or to continue to be the ally of the Axis.

The crisis was precipitated by the resignation of three ministers understood to favor a break with the Axis.

Brilliant British Surgeon Is Dead

LONDON, Oct. 14 (CP)—Ceil Rowntree, 63, one of Britain's most brilliant surgeons and vice president of the national cancer union, died today.

Russia Accepts Badoglio Gov't

MOSCOW, Oct. 14 (AP)—Russia's acceptance of Marshal Badoglio's Italian government was reported tonight on the eve of the three-power conference in Moscow to have removed one of the main sources of irritation between the Soviet Union and Great Britain and the United States.

The three national joint declaration accepting Italy as a co-belligerent, recognizing the Royal Italian Government and accepting its co-operation against Germany was published prominently in the official press. Detailed news comment was not forthcoming immediately, but the statement was taken generally as a welcome clarification of intentions.

The Russian press previously had not concealed its dislike for such moves as Admiral Dorian and Marshal Badoglio, and frequently has criticized the Allied military government of occupied territories and the policy of maintaining former opponents in power in occupied territories.

Soviets Exert Great Pressure

STOCKHOLM, Oct. 14 (CP)—A revealing picture of the pressure the Red Army is exerting on the Germans was given today in the first dispatch from the Nazi front line to reach here since the German withdrawal "according to plan" started.

A war reporter wrote: "The exhausted grenadiers sink to the earth. Sleep not to be thought of. Every minute is precious. The attackers, pressing behind us, are close to our heels and won't allow us any rest."

Australia Has Coal Problem

SYDNEY, Oct. 14 (CP Cable)—Falling coal stocks in Australia have caused the government considerable concern, the position being largely attributed to strikes and absenteeism.

In spite of prosecutions under national security regulations, application to the miners to produce more coal and threats of further drastic measures, Prime Minister Curtin today found it necessary to announce a drastic coal rationing plan to build up stocks.

He announced that the government has decided to reduce coal consumed by railways and industry, and in making gas and electricity. Other decisions include prosecution of all mine workers absent from work without excuse and further mechanization of mines.
