The first engagement rings, used by the time of the Romans, were made of iron.

STOCK QUOTATIONS

Stock Markets At A Glance

TORONTO, Nov. 21.—(CP)—The stock market proceeded on the recovery trend in Saturday's two-hour session of the Toronto Exchange and substantial gains were posted by both mining groups and the industrials. The western oil stocks weakened slightly and closed 1/4 down. Volume was high for a short market at 297,000 shares but a large portion of the total was in two or three penny issues.

MONTREAL, Nov. 21.—(CP)—Security prices showed a net loss in trading last week on the stock exchange and curb market but tended to display an improved tone Saturday.

Utilities were higher, those getting lifts being Canadian, Gattineau, Quebec and Power Corporation. B. C. Power and Beathorns were headed. C.P.R. edged up in carriers.

NEW YORK, Nov. 21.—(AP)—The stock market yesterday topped a generally good week with its third successive advance. In relatively broad and active dealings for a short session, favored rails, utilities and industrials added fractions to a point or so. A little profit taking at the last trimmed peak prices here and there, many leaders closed at or near the day's best.

No. 1 pasteurized, fresh and storage No. 1 35-1-4; No. 2 34 1-2-34 5-8. Cheese, Current receipt, white western and Que. No. 2 F.O.B. whole sale for export. Potatoes: 75 lb. bag No. 1 Que. 1.60-1.70; N.B. 1.65-1.75; P.E.I. 1.70-1.75.

Weekly Live Stock

SUMMARY
OTTAWA, Canada — Nov. 11.—The feature of the live stock market week was the record making of hogs. For the past couple of weeks, packing plants have been heavily burdened with a record slaughter and the Meat Board has advised all packing plants that no hogs should be slaughtered until regular classes of finished hogs have been cleared through the plants. Most plants, however, have now been provided with sufficient labour to operate at capacity and last week a slaughter record of approximately 122,000 hogs was accomplished. For the current week the slaughter is expected to be at least equal to, if not greater than that figure. Despite this heavy offering, however, the market held firm, with Winnipeg advancing 15c, although Toronto was a shade easier and other markets were steady. Other classes of live stock, although in heavy volume held firm to stronger. Cattle moved upward in price, especially on the better grades, although at most centres the lower qualities were very good sellers. Calves held steady to firm and lambs made advances, notably at Toronto where the price was 50c higher.

Eastern Cattle Markets
Stocks of good beef in packers' coolers in Toronto were considerably lower, and any cattle offered on the Toronto market grading anywhere from medium upwards were taken at an advance of 25c per cwt. despite a liberal run of cattle. The best of the week's offerings sold up to \$11.50, and butchers steers and heifers ranged from \$10 to \$11.25, and some made high at \$11.50. Trade was brisk at Montreal and strong to 25c higher, with good steers at \$11.75 to \$12.25 and good butcher cows at \$11.50. Hens were lighter in the Maritimes, but quality extremely common. Choice steers and heifers were quoted at \$10.25 f.o.b. country points.

Western Cattle Markets
Receipts of all classes of live stock were heavy in Western Canada, but the Winnipeg market held up very well. The price declines occurred and these were on the more common grades of cattle. Better kinds of slaughter steers were cleared at \$11.50 and the best grades of stockers and feeders at \$9 to \$10. Calgary remained at \$9, and heavier offerings, with a good demand for all butcher classes, and some choice steers made \$11.75 with the best \$11.50 downward. Edmonton had a rather slow trade but sold good steers up to \$11 high at \$11.50, and Prince Albert paid up to \$10 for good steers; Moose Jaw \$10; Saskatoon \$10 to \$10.50; and Vancouver at \$11.75, with a few grain-fed at \$12.

Exports to United States
Exports of live cattle to the United States during the week consisted of 734 head, compared with 495 in the same week last year. This shows a marked movement of dairy cattle since January 1st of this year at 36,955 as against 52,100 in the corresponding period of last year. Strong Sale for Calves
Veal calves were in good demand throughout and price levels advanced as good as, or even better than last week. Toronto sold choice veals at \$15.50, Montreal up to \$16, Winnipeg \$12 to \$13.50, Calgary \$10 to \$10.50, Edmonton \$11 to \$12, Prince Albert \$11.50, Moose Jaw \$11, Saskatoon \$12, \$12.50, and Vancouver up to \$11.50.

Change in Hog Prices
Hog gradings for the Dominion in the week ending November 6th totaled 191,921 as compared with 146,540 in the same week last year. Gradings since the 1st of January now total 5,482,610, compared with 5,019,109 in the same period of last year. Despite the heavy run of hogs during the last couple of weeks, the price level was very little disturbed. Toronto showed a slightly easier tendency, with the basic grade at \$15.75, and other grades unchanged at \$16.60, and Winnipeg, on the other hand, in the face of a record run, advanced 15c to \$15.75 for B-1 hogs. Calgary continued to pay \$15.25 for the basic grade, Edmonton \$15.25, Prince Albert \$15.35, Moose Jaw \$15.15 to \$15.45, Saskatoon \$15.50, Vancouver \$16.25, and Moncton \$15.60.

Lambs Again Strong Sellers
There was again a strong market for lambs, and Toronto moved up 50c, with the best of the offering at \$12.50 to \$12.75, while Montreal paid \$12.25, Winnipeg \$10.25 to \$10.50, Calgary up to \$10.25 and \$10.35, Edmonton \$10, Prince Albert \$9.50, Moose Jaw \$9.75, Saskatoon \$9.50 to \$9.75 and Vancouver \$11.25.

FIGHTING CELT READY FOR MORE
LONDONDERRY, Northern Ireland, Nov. 19.—(CP)—"If you are Irish why are you fighting for Britain?" was the taunt frequently flung at Sgt. Michael O'Hara of Londonderry by his German captors. O'Hara repatriated with British, Canadian and American servicemen. He gave his answer when he was met at Londonderry Station: "All I want now is a good sleep in my own house. Then I am ready to go anywhere they want me."

LONDON.—(CP)—Ships built of concrete have been launched from a British shipyard and joined the Allied convoys in the Battle of the Atlantic.

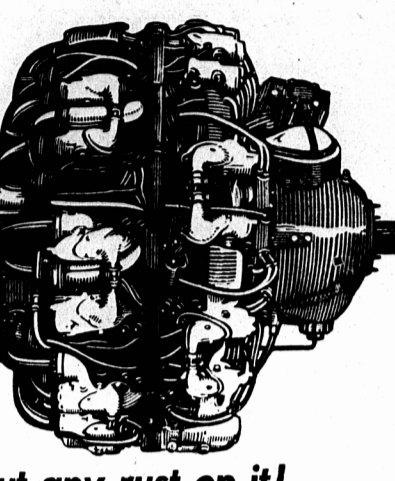

When you are using cauliflower as a vegetable, save some of the flowers to use raw in a mixed salad, suggests Marion Harlow of nutrition services. The stalks and tender green leaves should not be discarded but rather cooked with the rest of the cauliflower. The stalks take slightly longer to cook, and should be sliced and simmered a few minutes before the "flowers" are added.

During the coming months, "storables" will be the answer to the household's winter needs. Canned vegetables, stocks of which were "frozen" last July, shortly will move to retail outlets. Using the storables and canned products will mean adequate supplies for Canadian tables during the winter months.

We speak of "trapping up against the cold", and when food is put in a refrigerator wrapped in paper or paper bags, it is literally being trapped up. The paper acts as an insulator, preventing the cold from reaching the food.

CHEMISTRY HELPS TO WIN THE WAR

ONE AIRCRAFT MOTOR

delivered without any rust on it!

From the time they leave the production line, the tools of war—guns, tanks, planes—are threatened by a devastating enemy: corrosion, commonly called rust. Silica Gel protects vital war equipment by removing moisture from the air before corrosion can begin its deadly work. Formerly, equipment bound for overseas was heavily coated with grease and waxes to protect metal surfaces. Such treatment was slow and messy, and delayed final assembly overseas. Some things, like radio equipment, could not be treated with grease—and had to risk overseas shipment unprotected. Now, Silica Gel provides positive protection from rust and corrosion for all types of equipment. For instance, an aircraft engine is packaged for overseas by sealing it in a moisture-proof envelope. Silica Gel to protect overseas shipments is another example of how Industrial Chemistry helps Canada's war effort.

A NEW SIGN OVER GERMANY

The name of a Nova Scotia town will be flown over Germany shortly by the crew of a big Lancaster bomber. The aircraft above has been named New Glasgow in honor of responsible citizens of that maritime municipality who won the highest award in the contest for campaign promotion ideas conducted during the Fourth Victory Loan. Below is a picture of the insignia painted on the bomber.

LONDON.—(CP)—Britain has recovered the moral leadership of the world which can be upheld by responsible citizens of that maritime municipality who won the highest award in the contest for campaign promotion ideas conducted during the Fourth Victory Loan. Below is a picture of the insignia painted on the bomber.

LONDON, Nov. (CP)—If you don't think current bread supplies catch the pre-war brand in taste and color, then give a thought to the Norwegians and Danes when you butter a slice. They're getting "seaweed" bread nowadays. According to the German economic weekly "Deutsche Volkswirtschaft", sea weed, hitherto chiefly used for fodder, is being mixed into the bread in German occupied Norway and Denmark.

MALDON, Essex, England.—(CP)—Eight-year-old Ann Whybrow, raised the equivalent of \$4.50 for the Red Cross with a banana peel box. She charged a nickel to look at two bananas sent from the Middle East by her father.
