Mr. Donald Burns has a trust sailing yacht here last week, leaving the boat at Summerside for Cape Tormentine, where from his yacht on the 11th, his leg went through a rotten plank, tearing the ligaments of his knee. **LOOK ALL KINDS OF PILLS, THEN CEREAL BROUGHT RELIEF**—Participation, Due to Insufficient "Bulk," Relieved by Kellogg's ALL-BRAN.

The letter from Mrs. Snyder: "I have had trouble with my bowels for years, taking all kinds of pills and drugs, with no relief. The year ago, I saw Kellogg's ALL-BRAN and bought a package. After a few movements every day, I was free. I am telling my friends what bran has done for me. Sallie Snyder. Address upon request."

Constipation due to insufficient "bulk" in meals. Research shows that Kellogg's ALL-BRAN furnishes "bulk" to expand the intestines. ALL-BRAN supplies vitamin B, as well as an element of the blood. Tablets are useful for constipation. With each meal, if not relieved this week, see your doctor. The "bulk" in ALL-BRAN resists digestion better than the "bulk" in cereals. How much better is this food in place of patent pills. All grocers in the red-and-white package. Made by Kellogg in Battle Creek, Michigan.

**SADLY BEHEAVED**—The sympathy of friends is extended to Mr. and Mrs. John Gaudet of Borden in the death on Monday of their son, John Roy, at the tender age of 18 years. Roy, as he was affectionately called by his family and school chums, was taken ill last fall and had been a patient in the Provincial Sanatorium for some time. A few weeks ago he was brought home and tenderly nursed by his mother and sister. The young lad was a general favourite, fond of athletics and all outdoor sports. He will be very much missed in the little town of Borden where he had lived all his young life. He had the unique honour of being the first baby to be born in Borden after it received that name and became an incorporated town. He leaves to mourn, besides his grief-stricken parents, a married sister, Mrs. Thomas Paquet of Borden, two brothers, Ivan and Lloyd and one little sister, Gloria, to whom the Guardian extends sincere sympathy. The funeral is taking place this morning from the residence of Mr. and Mrs. Gaudet to Seven Mile Bay Church, S.

Burke, municipal clerk for Richmond County, was arrested today following the disclosure of alleged shortages totalling \$2,179.61 in his accounts. Arraigned before a magistrate, he was committed for trial on a charge of misappropriation of funds.  
He was still in jail tonight but it was understood that arrangements for his release on bail would be completed tomorrow.  
The purported shortages, revealed to a special meeting of the county council last night, were part of a total of \$10,800 shown in a report of the Halifax auditing firm of Lloyd, Egan and Company covering 10 years. Burke had been in office for only three years.  
His alleged shortages covered only three of the 15 districts over which his work extended. Accounts of the other 12 have not been audited yet.  
The council last night refused a request that the 52-year-old clerk be given six months to straighten up the accounts, and a warrant for his arrest was issued, and a Royal Canadian Mounted Police constable served it on him today at his home in River Bourgeois.

**PROBE DEATH OF MOTHER AND FOUR CHILDREN**  
(C. P. Cable)  
(By Guardian's Special Wire) CORNER BROOK, N.S., May 28.—The bodies of a mother and four of her children, who died in hospital here over the week-end, have been exhumed on instructions from the Department of Justice following a medical report that their deaths were due to toxic poisoning believed to have been caused by a "home-made" spring tonic.  
Two other children of the same family are still critically ill in the hospital. All seven were in a serious condition when they were rushed to Corner Brook from their home in the small village of Howley.  
Medical authorities here said tonight they understood the family, named Roberts, had been suffering from influenza and the tonic had been administered all around.  
The father and one son had escaped the effects of impurities which had poisoned the mother and six children.  
Portions of the intestines and stomachs of the victims have been sent to St. John's to be forwarded to Halifax for examination by the provincial pathologist, Dr. Ralph Smith.

**Appointment To Dalhousie Faculty Made**  
(C. P. By Guardian's Special Wire) HALIFAX, May 28.—Two appointments to the faculty of Dalhousie University were announced tonight by President Carleton W. Stanley.

Recognized as an authority in his subject, Dr. Woodbury is a graduate of Dalhousie and the Philadelphia Dental School. He succeeds the late Dr. J. P. Thomson as Dean.  
B. A. Fletcher, B.Sc. M.A., a graduate of London and Cambridge Universities, has been appointed head of the Department of Education to succeed the late Professor Wilson Smith.  
Mr. Fletcher, whose revolutionary methods of teaching science at Gresham's School in Norfolk, Eng., formed the subject of a book published by the Oxford Press, has studied methods of teaching in 18 countries including Canada.

**Youthful Professor Honoured**  
(C. P. Havas)  
(By Guardian's Special Wire) PARIS, May 28.—Twenty-nine-year-old Edward K. Brown, Professor of English at the University of Manitoba and formerly of the University of Toronto, was signally honored by the Sorbonne today, being awarded the state doctorate of letters for his works in English on Matthew Arnold and in French on Edith Wharton.  
The youthful professor, one of the few English-speaking Canadians ever to receive the coveted distinction, was awarded the degree given the award after a jury had listened to a three-hour "defense" of his works. The degree is the highest the Sorbonne can bestow.

**OVERTHROW OF FRENCH CABINET PREDICTED**  
Stormy Session In Chamber of Deputies on Franc.  
(By Alexander H. Uhl, Associated Press Staff Writer)  
(Copyright 1935 By The Associated Press)  
(A. P. By Guardian's Special Wire) PARIS, May 28.—Devaluation became an open issue in France tonight as Premier Pierre-Etienne Flandin's government, its political life in the balance, asked Parliament to grant it sweeping emergency powers to defend the franc.  
A grim, almost silent Chamber of Deputies listened coolly while Finance Minister Louis Germain-Martin revealed the full frightening extent of the flight from the franc, scathingly assailed "speculators," declared "devaluation would cause general impoverishment and ruin in France" and pleaded for near-dictatorship in economic matters.  
Overthrow Predicted  
With the cabinet's overthrow on the issues freely predicted in the chamber lobbies, the deputies adjourned until Thursday despite the government's request that it begin discussion immediately.  
Strong hostility to the government's demand quickly developed in the powerful Radical Socialist party, which counts 100 deputies in the chamber.  
So strong was the sentiment that, although no vote was taken at the party caucus, some members urged Edouard Herriot to resign his portfolio as Minister of State.

**Drop Noted In Call Loans**  
(C. P. By Guardian's Special Wire) OTTAWA, May 28.—A drop of more than \$17,000,000 in call loans outside Canada featured the return of assets and liabilities of Canadian chartered banks as at last April 30.  
The return made public today by the Department of Finance shows that call loans abroad at that date at \$76,999,128 as compared with \$94,118,143 on March 31, 1935, and \$119,536,926 on April 30 last year. Falling of the call money rate on the New York market is understood to have brought about the reduction in these loans.  
Demand deposits increased more than \$69,000,000 and savings deposits at \$1,451,711,330, were up about \$5,000,000 as compared with March 31. Both call and current loans were up slightly in Canada and current loans outside increased more than \$6,000,000.  
There were fewer Bank of Canada notes in circulation by about \$5,000,000. Government and other securities held by banks increased by \$30,000,000 to \$1,000,408,760.

**Amendment To Insurance Act Defeated**  
(C. P. By Guardian's Special Wire) OTTAWA, May 28.—By a vote of 28 to 20 the Senate today defeated a Liberal amendment that the Unemployment Insurance Act would only come into effect by proclamation "after the Supreme Court of Canada on reference has pronounced a favorable decision as to its constitutionality."  
There were several party switches. Hon. James Murdock (Lib. Ottawa) and Senator A. C. Hardy (Lib. Leeds) voted with Conservatives against the amendment; but Senator George Gordon (Cons. Nipissing), Senator Smeaton White (Cons. Montreal) and Senator George Hamilton (Cons. Hamilton) lined up with the Liberals in support.  
Moved by Senator Raoul Dandurand, Liberal leader, the amendment would have altered the provision in the bill that the act come into force on a day named by the Royal Assent, a short but spirited debate between Senator Dandurand and Rt. Hon. Arthur Meighen in which the Senate leader charged intent of the amendment was "indefinite delay."

The Accuracy was seized May 2, in Buzzard's Bay as it was alleged, she was leaving New Bedford Harbor without reporting entry and after unlawfully landing a cargo of 2,500 cases of spirits.  
According to Charles A. Rome, Assistant U. S. Attorney, the Catharine N. Sailing Company of Yarmouth, N. S., owners of the vessel, made the offer, which was refused by Attorney General Homer Cummings at Washington. The ship was found liable to a \$5,000 fine and possible forfeiture. **Alleged Confessions Read At Trial**  
(C. P. Cable)  
(By Guardian's Special Wire) LONDON, May 28.—The condition of Mrs. Alma Rattenbury after her husband had received fatal wounds in their home on the night of March 24, was a central point of testimony today in the Bournemouth murder trial.  
The 38-year-old woman, on trial with 18-year-old George Stoner for the murder of the elderly architect who lived in Canada for many years, according to a doctor who was summoned to the Villa in Bournemouth, was in no condition to realize what she was saying, because of alcohol and excitement.  
A police inspector however introduced alleged confessions by Mrs. Rattenbury and asserted that she appeared to be fully aware of what she was saying. The alleged statements by the accused woman were followed by a reputed confession in the police station next day, when she was quoted as saying that she "did it deliberately, and I would do it again."  
Rattenbury was wounded in the head by blows from a mallet.

(C. P. By Guardian's Special Wire) OTTAWA, May 28.—A storm of considerable violence swept the House of Commons railway committee today, and when it had subsided its wake was strewn with charges and countercharges involving the Canadian National system, the Board of Trustees and particularly Prime Minister R. **Lumber Milling Industries Seek Exemption Under Act**  
(C. P. By Guardian's Special Wire) OTTAWA, May 28.—Exemption of lumber operations in the Maritime Provinces and Eastern Quebec from the eight-hour day provisions was asked today before the Senate banking and commerce committee.  
Transportation of logs by water did not come under the bill, Rt. Hon. Arthur Meighen considered. The Senate leader doubted if operations in woods were under the provisions, but even if they were the governor-in-council had power to deal with the question of granting their exemption.  
With regard to milling operations, representations for exemptions could also be considered by the governor-in-council, he added. Senator Meighen promised to place views expressed by John Sayre, Saint John, W. H. Golding, Saint John, and R. G. McFarlane, Edmundston, N. B., supporting the exemptions before the proper authority for fuller consideration. Operations in the lumber industry were subject to delays owing to weather and seasonal conditions, Mr. Sayre said. Provincial legislation fixed a monthly rate for payment of these employees. "It would add 25 per cent to our cost to carry out the eight-hour day provisions," he said.

**PARENTS SEEK CONTACT WITH ABDUCTORS**  
One Day Left For Payment of \$200,000 For Return of Child.  
By E. Q. Anderson, Associated Press Staff Writer  
(By Guardian's Special Wire) TACOMA, Wash., May 28.—Somewhere outside the law, the kidnapers of little George Weyerhaeuser, who believed laying final plans tonight to attempt collection of \$200,000 ransom for their curly-haired captive—and deliver him to his parents.  
It was indicated the parents, Mr. and Mrs. J. P. Weyerhaeuser, awaited only directions from the abductors to begin negotiating over the ransom demand.  
Tomorrow is the "deadline" set by the kidnapers for payment of the \$200,000.  
INSERT AD  
Fearing for the nine-year-old victim's life, if the ransom is not paid on time, the parents inserted an ad in the personal column of a Seattle newspaper today announcing they were ready to deal.  
"We are ready, Percy Minnie," the notice said.  
Publication of the ad was in accordance with instructions from the kidnapers who advised the boy shortly before noon Friday some home between school and his home. In line with the remote possibility the kidnapers were able to speak across the international border, police in Vancouver and other British Columbia points were on the alert.  
The report of a woman that she had seen a boy resembling young Weyerhaeuser and four men in a dusty car in Vancouver last Saturday led to rumors that two United States detectives had hurried to this city. Vancouver police denied this, but stressed all officers were on the lookout.  
How, when or where the ransom money would be paid or negotiations started was one of many angles shrouded in obscurity.

The Consolidated Patent Act, sponsored by Secretary of State C. H. Cahane passed second reading with the former Minister demanding safeguards against exploitation when it was discussed in committee stage.

He charged four Canadian companies, Canadian General Electric, Canadian Westinghouse, Canadian A.C. and Service Lamp Company, formed an association which prevented dealers from importing electric bulbs.  
The electrical bulb territory to its members, Canada among the rest of the countries. The four companies, he added, prevented dealers from importing bulbs from Holland and the United States which they could sell from 26 to 35 cents each while the price from the Canadian companies was maintained at 60 cents.  
It was done through the Patent Act, by threatening suits against dealers for infringement of patents. The Act, he said, was used as an extra tariff, 150 to 200 per cent, in addition to the 30 per cent set by the customs.
