

MASS OF SORES

Awful Suffering of a Boy from an Itching Humour.

CURED BY CUTICURA

Not One Square Inch of Skin on His Whole Body Was Unaffected.

My little son, a boy of five, broke out with an itching rash. Three doctors prescribed for him, but he kept getting worse until we could not dress him any more. They finally advised me to try a certain medical college, but its treatment did not do any good. At the time I was induced to try Cuticura Remedies he was so bad that I had to cut his hair off and put the Cuticura Ointment on him on bandages, as it was impossible to touch him with the bare hand. There was not one square inch of skin on his whole body that was not affected. He was one mass of sores. The bandages used to stick to his skin and in removing them it used to take the skin off with them, and the screams from the poor child were heart-breaking. I began to think that he would never get well, but after the second application of Cuticura Ointment I began to see signs of improvement, and with the third and fourth applications the sores commenced to dry up. His skin peeled off twenty times, but it finally yielded to the treatment. I used the Cuticura Resolvent for his blood, and now I can say that he is entirely cured, and a stronger and healthier boy you never saw than he is to-day.

Speeches of Men. You may search through the annals of all time, and the speeches of men will tell the passions of the periods during which they flourished. The speeches of the ancients that have been preserved through the ages present to our strongest and most important history of the past. They constitute the living sentiment of the literature of fame. In all the mighty tumults of war, the tranquil periods of peace and the convulsive shocks of revolution the orator stands in clear relief as impressive and enduring as the soldier. The great speeches of the great men of antiquity are in the mouth of the schoolboy. He cannot know Greece without Demosthenes. He cannot know Rome without Cicero. Still the stenographers of these centuries were unlike the stenographers of this, and so it will always remain a lasting regret that many of the most brilliant utterances of ancient oratory and wit have never been recorded.

Ecuador Marriages. In Ecuador a marriage must be made by the civil authority before it is made by a clergyman.

Treason in England. The ancient English law of treason was very stringent. Thus in Shakespeare's time the proprietor of a tavern calling the crown was put to death for making the secular remark that his son was heir to the crown.

John Milton. John Milton loved to play on the organ. He made his second wife sing and said she had some voice, but not the slightest idea of tone.

Sad State of Poetry. For some time the use of poetry has for some time been abandoned, and words, any sort of words, have been employed instead. With patriotic songs any suggestion of poetry is held to be fatal to success. It is probable that in another ten years some member of parliament will introduce a short bill making the production of any other sort of poem a criminal offense, and it is not impossible that the member of parliament will be a publisher.

Men Repeat, but Do Not Copy. Grant - It is easier to say a good thing than to do a good thing.

Advantages of Position. "Hold on!" exclaimed the boy who was under. "Let's arbitrate this thing!" "There ain't nothing to arbitrate," panted the boy on top, punning him vigorously.

Not Quite. A fisherman who has been dead and in his grave for two years has been summoned for salmon poaching at Berwick-on-Tweed.

DOES CHILDREN GOOD. Mrs. Joseph Langtry, Brockville, Ont. "I have used Dr. Lee's Worm Syrup in my family, and it has always been effective, and has done the children good. I can highly recommend it."

No Common Tickling. "You mustn't touch so much, Willie," his mother said. "I can't help it, mamma," replied the little boy with the long golden curls. "Something amuses me in my throat."

That Dodo's Kidney Pills will Cure Diabetes because they cured him.

St. Margaret's Hospital, Quebec, July 18 - (Specialist) Dr. J. Lafontaine of this place has proved to his own satisfaction that Dodo's Kidney Pills will cure Diabetes. Mr. Lafontaine says:

"For two years I suffered from Diabetes, as it was attended by the doctor, but all his medicines did me no good. Then I tried Dodo's Kidney Pills and two boxes cured me completely."

This wonderful Dodo's Pills will cure any form of Kidney Disease in an old saying, and it is a fact that Dodo's Kidney Pills will cure Diabetes.

The Little One's Outlook - Flossie six years old. "Mamma," she called one day, "if I get married will I have to have a husband like pa?"

"Yes," replied the mother, with an amused smile. "And if I do, get married will I have to be an old maid like Aunt Kate?"

"Mamma," after a pause - "it's a rough world for us women, ain't it?"

How both the best Japanese improve each walkie minute by holding up the little gun and handling out what is it.

Mrs. Uppmann - I must tell you, Della, that I was displeased at your entertaining that pious man in the kitchen last night.

Della - Faith, O did ax him into the parlor ma'am, but he wouldn't go.

INSTANT RELIEF. Mr. Robt. Jennings, Mansfield, Ont. writes: "I have used one bottle of Dr. Lee's Toothache Gum for years to relieve and received instant relief. Best of this is acted as a splendid temporary filler. Price 10c."

"I wonder why people always speak of Earth as 'she'?" "It's natural enough. Nobody knows exactly what her sex is."

EARACHE CURED. Miss J. J. Johnson, Inisfail, Alta., says she was troubled with Earache for a long time and nothing helped me until I used Dr. Lee's Yellow Oil, which cured me completely.

Mistress - "Do you love babies? Maid - "Not at three dollars a week, mum."

Minard's Linctum Relieves Neuralgia. "You must come and see us, my dear," said a lady to a little girl of her acquaintance. "Do you know the number?" "Oh yes," responded the innocent child. "Papa says we always live at sixes or sevens."

Minard's Linctum Cures Dandruff. It is not true that Kipling is now writing another poem about Adam-Zab, the best that this like a deer.

As someone Russia gets the Japanese tired to St. Petersburg she'll proceed to how the what's what.

As in nearly everything else, fashions in horses are frequently changing, and it is interesting to note how these have varied. Years ago nothing was considered more stylish, in tandem, for instance, than a smart dapple-grey leader and a good, upstanding chestnut in the shafts.

Then came the period of rigid uniformity when the animals had to be carefully matched - it made no matter what the color. This has lasted pretty well until the present day, with varying limitations. At one time well-groomed, satin-coated blacks were the rage, at another chestnuts were essential. Just now "liver-colored" chestnuts and browns are declared to have Dame Fashion's smile, and there is also considerable request for the good, hard, serviceable blue roan, nowadays somewhat scarce. In this, as in other matters, however, the good lady's favor is fickle. A prominent fancier decides for a certain color, and drives in a smart "turnout." He promptly has the flattery of imitation. A demand is created and the fashion set. Just as in clothes, so in selection for the stable. What was yesterday's "correct thing" may be to-morrow's "bad form"; but for the riding man the highest recommendation of a mount will always be quality rather than shade.

A Deceiver of Novels. The Hon. Alfred Deakin, the Prime Minister of the Commonwealth, whose recent illness caused so much concern, was a few weeks ago entertained by the "Melburnians" - in other words, his brother old boys of the Melbourne Church of England Grammar School, says The London Daily Chronicle.

He opened his speech with the remark that when it fell to the lot of a man to win any of the prizes of life he always thought first of his mother and next of his old school. Like a number of other men who became famous in after life, Mr. Deakin did not shine splendidly at school. In his own words, his progress had been by slow and easy stages, and his position in class was invariably nearer the bottom than the top. He was, indeed, once imprisoned in the school lock-up, but as he had managed to smuggle in a sensational novel under his waistcoat the agonies of incarceration were appreciably mitigated.

The Prime Minister is still an insatiable devourer of novels, and never enters the legislative chamber without one or two. He settles down comfortably into a corner of the Treasury bench and reads away when business is dull.

A Smart Arrangement. A gentleman was on a holiday at one of the Scottish county towns recently. Seeing a line of houses laid along the street, he asked the man in charge if there had been a fire.

"No," replied the man; "we've only been practicing."

Then the visitor began to quiz the brigand man.

"How do you call out your men when there's a fire?" "We just drop them a post card!" - Pearson's Weekly.

The Language of Criminals. "Shooting the crow," it was explained in a police court, was the criminal term for ordering drinks without having the money to pay for them.

British, but Not English. There are 500,000 people in Wales who do not know a word of the English language. Ireland has 80,000 people who speak only Irish, and Scotland has just over 40,000 who speak only Gaelic.

The Clock Plant. Purdue university is the proud owner of a clock plant. The plant is very rare and is found only in Borneo. The changing position up for one minute and down for another, while the larger leaves change their position each hour.

The letters of Miss Merklely, whose picture is printed above, and Miss Claussen, prove beyond question that thousands of cases of inflammation of the ovaries and womb are annually cured by the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:— Gradual loss of strength and nerve force told me something was radically wrong with me. I had severe shooting pains through the pelvic organs, cramps and extreme irritation compelled me to seek medical advice. The doctor said that I had ovarian trouble and ulceration, and advised an operation. I strongly objected to this and decided to try Lydia E. Pinkham's Vegetable Compound. I soon found that my judgment was correct, and that all the good things said about this medicine were true, and day by day I felt less pain and increased appetite. The ulceration soon healed, and the other complications disappeared and in eleven weeks I was once more strong and vigorous and perfectly well. "My heartiest thanks are sent to you for the great good you have done me."—Sincerely yours, MISS MARGARET MERKLEY, 275 Third St., Milwaukee, Wis.

Miss Claussen Saved from a Surgical Operation.

"DEAR MRS. PINKHAM:— It seems to me that all the endorsements that I have read of the value of Lydia E. Pinkham's Compound do not express one-half of the virtue the great medicine really possesses. I know that it saved my life and I want to give the credit where it belongs. I suffered with ovarian trouble for five years, had three operations and spent hundreds of dollars on doctors and medicines but this did not cure me after all. "However, what doctors and medicines failed to do, Lydia E. Pinkham's Vegetable Compound did. Twenty bottles restored me to perfect health and I feel sure that had I known of its value before, and let the doctors alone, I would have been spared all the pain and expense that fruitless operations cost me. If the women who are suffering and the doctors do not help them, will try Lydia E. Pinkham's Vegetable Compound, they will not be disappointed with the results."—MISS CLARA M. CLAUSSEN, 1307 Penn St., Kansas City, Mo.
