A RARE OPPORTUNITY

It is the duty of each and all of us to keep thoroughly up-to-date. Especially those who cater to the comforts and the relief of the suffering public.

In all cases we found them using and most heartily recommending and endorsing the "Shadow Test System" or what is sometimes called Retinoscopy or by the use of the retinoscope "Looking into the Eye" thus scientifically measuring and correcting with absolute accuracy all defects of vision.

"As the political leader of the people of Quebec, Sir Wilfrid Laurier is largely responsible for the condition of lawless agitation which prevails throughout that Province. His tactics are similar to those adopted by him when he gained power in 1896.
