

**DECIDED TO PAY HIS FINE.**

Mr. L. B. Reed, the Harvard sophomore who was accused of having attempted to blow up one of the cannons on Cambridge Common, paid his \$10 fine rather than contest the case; although he had employed eminent counsel.

**Indigestion and Dyspepsia**

Mr. Henry Moore, Pickering, Ont. states:—"I used three boxes of Dr. Chase's Kidney-Liver Pills for Constipation and Stomach Troubles, and never found anything to compare with them. I had suffered from these complaints for many years and taken many kinds of medicine, but it remained for Dr. Chase's Kidney-Liver Pills to cure me; am now well and strong."

Mr. Patrick J. McLaughlan, Beauharnois, Que., states:—"I was troubled with Kidney Disease and Dyspepsia for 20 years and have been so bad that I could not sleep at nights on account of pains in the back, but would walk the floor all night and suffer terrible agony. Dr. Chase's Kidney-Liver Pills made a new man of me, and the old troubles seem to be driven out of my system."

One pill a dose, 25 cents a box, all dealers, or Edmanson, Bates & Co., Toronto.

**Dr. Chase's Kidney-Liver Pills.**

**THE MORNING GUARDIAN**

WEDNESDAY, JUNE 5, 1901.

**PROHIBITION TODAY.**

Today the prohibitory law will go into effect in Charlottetown. Everybody almost will admit that the merchandising of strong drink is a great evil, and that great good would result to individuals, families and the city at large if it could be wholly suppressed. We commend the Government for giving us the law and it is both the legal and moral duty of all to obey it.

We are sorry to find the Examiner stating that if the liquor men contest the constitutionality of the law "it will be hung up during the time of the contest and we shall have free rum for a time." We do not understand it or so believe. No man and no body of men can make the law invalid or inoperative by themselves declaring it unconstitutional. That is a matter for the Courts to decide. Till the Courts decide that the law was beyond the power of the Legislature to enact—and we do not believe that such a decision can be obtained—the law will be and remain in force and will be enforced, and violators must take the consequences.

Let no man deceive himself with the notion that the law is going to be "hung up." Such a supposition is not according to reason, common sense or justice. As will be seen by an interview with Premier Farquharson, a report of which appears in another column, the Government do not contemplate any "hanging up." As we have said it is the duty of all to obey the law, and we trust it will be obeyed.

The St. John Sun notices that some ministerial journals are objecting to the census of 1891 as if the returns of that year showed the country to be then more populous than it really was. The Sun thinks this objection arises from the present census having disappointed the hopes of those who believed that in the past decade the increase had been very large. It appears that in some rural districts of Ontario and Quebec the present population is found to be less than in 1891. It is yet too soon, however, to proclaim the census of this year a disappointment. It is pretty clear that except in Manitoba, British Columbia and the territories the chief gains will be found in the cities and towns, some of which have undoubtedly made a quite rapid and satisfactory growth. Very little is yet known to the public as to how the census will turn out.

**MUSIC ON THE SQUARE.**

As the summer advances and Queen Square takes on its seasonal bloom and verdure while warmer evenings tempt the people out of doors, there is again a very general desire for the band music which delighted large numbers of old and young last year. The throng that gathered especially on the nights when the excellent Fourth Regiment Band occupied the stand, sufficiently attested the popular appreciation of open air music in the summer evening. Not only our citizens and country visitors but the tourists from the United States and the mainland of Canada enjoy the play of the bands and no doubt in some instances are induced to somewhat prolong their stay, where without this attraction they would hurry on the seashore, or to other resorts. It would be a great mistake to discontinue the music which has afforded so much healthful enjoyment to so many persons in years past.

While on this subject, and as the City Councillors are shortly to meet, when we hope they may make arrangements for the early beginning of "band nights," there is another matter to which we direct their attention. The roof of the band stand is decidedly too low, both for the comfort of the bandsmen and for the best effect of the music. The roof needs to be raised eight or ten feet, or removed altogether. This is a matter that has been frequently remarked upon by bandmasters and others. It is well-known that a number of visiting bands have pre-

ferred to play on the open Square rather than under the low roof of the stand. The roof is really very little needed except perhaps as a sun-shade in the case of an afternoon performance, as the bands very seldom play in rainy weather. If the roof were raised, however, the stand would be all right for all weathers, and it would cost very little to make the change. Give us the music, Gentlemen Councillors, and add so much more to the general enjoyment of life during the coming summer months.

**SURGEONS PARALYZE LEG THEN CUT IT OFF.**

NEW YORK, May 30.—For the second time in the history of surgery the operation of producing temporary paralysis instead of using an anaesthetic was performed at Bellevue hospital yesterday. It consisted of injecting cocaine into the spinal canal, thereby producing paralysis of the lower portion of the body. The first operation was performed only three weeks ago, in Bellevue and, like the first, promises to be entirely successful. The patient yesterday was Hester McLaughlan, sixty years old. Her right leg jut out above the knee by Professor Curtis of the visiting staff, assisted by Drs. Phillips and Mescall. After paralysis had been induced a hood was placed over the patient's face so she could not see. It took no longer than an hour to remove the right leg. The patient was then put in a cot, and she gradually recovered from the cocaine numbness.

Dr. Curtis said the operation was very successful so far as it had gone. He said that it would require at least fifteen years to determine whether it is fully successful because it is not yet known whether cocaine thus used will or will not injure a person permanently.

For this reason the operation has not yet been attempted on a young person. One of its greatest advantages is that it does not affect the heart as do ether and chloroform when used in operations.

A Pill that can be used when requested for Constipation or Costiveness without causing sickness or pain is **BEACH'S, STOMACH & LIVER PILLS.** Send us cents to The Baird Co., Ltd., Woodstock N. B., for trial sample box. Small pills small dos purely vegetable. Regular size 25 cts. a bottle at dealers.

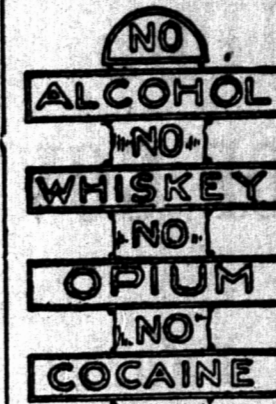

**DECORATED WITH THE ORDER.**

The Rev. Dr. Edmund Waare, head master of Eton College, has just been decorated with the Royal Victorian Order by King Edward VII.

Get the reliable Kendrick's.

**TREMENDOUS LOSS OF INHABITANTS.**

The Lancet's correspondent thinks that Bombay City has so far lost about one hundred thousand of its inhabitants from the plague.

If a medal were awarded for the most perfect temperance medicine prepared for family use it would undoubtedly be given to Doctor Pierce's Golden Medical Discovery. This medicine which is entirely non-alcoholic and non-narcotic, produces actual strength, instead of the simulated strength which results from the use of "whiskey medicines," or nerve numbing narcotics.

The many and remarkable cures resulting from the use of "Golden Medical Discovery" prove the soundness of Dr. Pierce's theory that in these days of haste and hurry the stomach is the common breeding place of disease. These cures also prove the soundness of Dr. Pierce's reasoning that "diseases which originate in the stomach must be cured through the stomach." The "Discovery" is a medicine for the stomach and other organs of digestion and nutrition. When the stomach is healthy the blood made in the stomach is healthy, and sufficient in quantity to nourish the nerves and strengthen the system to resist or throw off disease. Nature develops life, sustains life and preserves life by nourishment. Vital failure comes when the body is starved either from lack of food or the inability of the digestive and nutritive organs to extract the nourishment from the food taken into the stomach. "Golden Medical Discovery" takes the obstacles from Nature's way so that she can sustain life by her own methods. Dr. Pierce's Pleasant Pellets assist the action of "Golden Medical Discovery."

**Nothing Better**

**To Quench Thirst** Than our temperate drinks—Ginger Ale, Lemon Sour, Cream Soda, Champagne Cider, Club Soda and Siphon Soda.

**It Should Be In Every Home.**

Stone Ginger a specialty. Private orders promptly attended to.
