The Deutschland Is Still Hiding

(Canadian Press Despatch.) NORFOLK, Va., Aug. 7—British authorities here declare that the German submarine Deutschland has not yet actually gone to sea.

This claim is based on the fact that soundings apparatus on the British warships has not detected these "listeners" would have record the presence of the submarine had she been within ten miles of a warship.

There is a report in marine circles here, that the Deutschland is hiding in the way, after having made as if to start out to sea.
