The Premiers of the three Maritime Provinces in conference here yesterday discussed preliminary plans for the presentation to the Federal Government early in August of definite proposals re Maritime claims.

In an announcement issued by Honourable L. P. D. Tilley, Premier of New Brunswick; Honourable A. E. MacDonald, Premier of Nova Scotia, and Honourable W. J. P. MacMillan, Premier of Prince Edward Island, following the conference yesterday, it was said that the Dominion Government has expressed its willingness to receive the Maritime Premiers at Ottawa at an early convenient date. The Premiers accordingly telegraphed suggesting August 1st as a suitable date.

The Conference yesterday was held in the Confederation Chamber around the table at which the Fathers of Confederation sat three score and ten years ago on September 1st, 1864. The historic associations of the scene of the Charlottetown Conference which led to the union of the Provinces was considered by the Prime Ministers as a most appropriate place of meeting on the present occasion.

STATUS OF COMMITEE IS CHANGED

Mass Buying Committee Is Now Royal Commission — Will Continue to Hold Meetings In Ottawa.

(C. P. By Guardian's Special Wire)

OTTAWA, July 9—The Parliamentary mass buying committee, which was turned into a Royal Commission today by order-in-council, will hold all meetings in Ottawa and will not travel about the country as originally intended, it was announced by the chairman, Hon. H. H. Stevens, Minister of Trade and Commerce. The 11 members will be sworn as commissioners tomorrow or Wednesday.

Under the order-in-council, the commission will continue the work of the committee which sat four months while Parliament was in session. Parliamentary committees cannot function while the House is not sitting and this led to the decision to change the committee into a commission.

It was intended to travel to the Maritimes and possibly through to the Pacific coast but this has been abandoned. Witnesses will be brought to Ottawa to testify on the topics already touched by the committee—the effect of mass buying by department stores, general wage and labor laws, unfair business practices and many others.

Sends Protest To Finance Minister

BASEL, Switzerland, July 9—The Bank for international settlements (world bank), in the midst of momentous Anglo-American conversations on the pound-dollar ratio, sent a protest to Germany today seeking to protect United States and other holders of Dawes and Young bonds.

Directors of the bank instructed Leon Fraser, its president, to write to the German finance minister protesting the recent moratorium Fraser did so.

Using as a lever the recent Anglo-German argument under which Germany will service bonds held in Great Britain, Fraser emphasized that the bonds themselves provide all holders shall be treated alike.

He expressed delight that Germany had agreed to pay Britons because, he said, it indicated that the Reich could pay the other too. Fifty percent of the Dawes loan and 30 percent of the Young loan are held by Americans.

George L. Harrison, Governor of the New York Federal Reserve Bank, will leave for Paris tomorrow after his conversations with Montague Norman, Governor of the Bank of England, on the question of eventual stabilization of the pound in its relation to the dollar.

Forest Fire Rages Near Antigonish

(C. P. By Guardian's Special Wire)

ANTIGONISH, N. S., July 9. — A forest fire raging three miles from here in the South River district was gathering momentum tonight as it raced through underbrush parched by two weeks' drought. Forest rangers and volunteers working under a sweltering sun, faced an almost impossible situation today for wells, riverlets and brooks were dried up. Only a heavy downpour from the skies would place the fire in check, rangers stated.

The town of Antigonish was not in danger but a sparcely settled farm district was directly in the path of the unchecked flames which had raced through 700 acres of timberland in the last 36 hours.

Fire apparatus from the town has been working steadily to combat the flames but without sufficient water supply firemen were helpless. Heavy clouds of smoke hung over the town and the fire could be clearly seen as it crackled through the woods on the outskirts.

Volunteer workers returning to Antigonish tonight tired and worn out after striving against odds under a blistering sun, stated that the blaze was running away from them and was far worse than early this morning. Fire warden George McChesney and a band of workers will continue on duty during the night.

Premier Bennett Has Busy Day

(C. P. By Guardian's Special Wire)

CALGARY, July 9—Prime Minister R. B. Bennett was the dinner guest tonight at the Sarcee Camp of Lt. Col. Norman D. Dingle and officers of the Calgary Highlanders of which the government leader is honorary colonel.

The dinner brought to a close a strenuous day for the Prime Minister who rode in the official automobile at the head of the stampede parade today and officially opened the Calgary Exhibition and Stampede.

"It is a good thing for people of all classes to be able to meet in a manner such as this each year," Mr. Bennett said in his stampede address, "it leads to a better understanding."

Referring to an interveiw to generally improved conditions, the Prime Minister cited decreased unemployment and said revenues were advancing in a way that promised a balanced budget. Mr. Bennett refused to discuss the possibility of a general election in the near future.

START ACTION AGAINST EX-MINISTER

Rene Renault, Former Minister of Justice, Charged With Being Implicated In Late Stavisky Scandal.

(A.P. by Guardian's Special Wire)

PARIS, July 9—Scandal struck at two former high government ministers today with the opening of criminal action against Senator Rene Renault, former Minister of Justice, and the beginning of possible action against Albert Dalimer, former Minister of Colonies.

The procureur of the Republic, the highest prosecuting official in France, ordered the opening of the examination of Renault on a charge of selling his influence.

Evidence has been presented to the Chamber of Deputies committee investigating the Stavisky scandal that Renault accepted 50,000 francs as a retainer to intervene on the behalf of the late Serge Stavisky.

Judge Ordonneau, who conducted most of the investigations in connection with the collapse of Stavisky's Bayonne Muncipal Pawnshop, was directed to determine whether the charges warrant holding the former minister for trial.

The article under which the investigation is being made calls for the loss of civic rights and a fine double the amount accepted if he is found guilty.

The Chamber of Dputies committee at the same time ordered that the evidence with regard to Dalimier and two of his subordinates be sent to the Minister of Justice for action.

Dalmier resigned from the Daladier cabinet last January as a result of the effect of the scandal on the public, and the cabinet later fell.

Police had disclosed at that time that the Minister of Colonies was quoted in a circular put out by the late Serge Stavisky as advising insurance companies they could legally invest in such concerns as the Bayonne institution. Dalimier denied any guilt.

End Quarrel Over Fishing Rights

(C. P. by Guardian's Special Wire)

VICTORIA, July 9—The fuss that arose some days ago at Bull Harbor between white and Japanese fishermen over rights to waters has blown over and an agreement is said tonight to have been reached whereby all concerned are satisfied.

James Lyons and Edgar Landsdowne, two fishermen who were arrested following the dispute for having allegedly pointed firearms at the Orientals, were dismissed by the Alert Bay magistrate on account of lack of evidence. The prosecution had no witnesses.

Although some commentators feared the affair might lead to international diplomatic correspondence and belabored discussion, it is understood here 30 Japanese will begin fishing in Blackfish Sound August 1 in conformity with an agreement recently reached. The Japanese will not fish north of this point, it is said.

Hitler Will Take Baltic Cruise

(A. P. By Guardian's Special Wire)

BERLIN, July 9—Chancellor Hitler will take his summer holiday this year cruising on the Baltic Sea, it was learned on good authority today.

He found the salt air so bracing when he cruised up and down the coast or Norway last spring, his friends said, that it was decided that an extended cruise would be more restful than a sojourn in his summer home in the Bavarian Alps.

The time of the Chancellor's departure has not yet been announced, but as most members of the cabinet expect to be on vacation during the second half of July it was predicted he would go at that time.

The Chancellor was expected to return to Berlin late tonight after a week-end in his mountain home.

STREET PAVING PROJECT IS AUTHORIZED

City Council In Monthly Session Vote For Work to Relieve Unemployment.

Resolutions authorizing the paving of portions of several streets, in order to provide work for the unemployed were passed at the monthly meeting of the City Council last evening. His Worship Mayor Kennedy was in the chair.

Routine reports were presented and routine business was transacted.

After the reading of the Health report by Dr. B. C Keeping, Councillor Hennessey called attention to the condition of a tenement on Water Street opposite the railway station.

Dr. Keeping inquired as to what power he had to close condemned houses. He had a large list in his office.

Councillor Hennessey thought that the doctor should notify the building inspector. He believed the landlord should be notified that the place was no habitable.

His Worship stated that a meeting of the Board of Health would be called in order to give the officials the necessary power.

Finances

Councillor Holman for the Finance Committee stated that taxes in arrears were coming in slowly, but collections were in advance of the same time last year. Up till June 30, more than $30,000 had been collected. A list of those in arrears would be published immediately.

Councillor Reardon reported for the street committee that the contract with the Warren Paving Company had been completed. Four resolutions would be brought in, as it was planned to provide a little work for the unemployed.

Since the last meeting the schools had been visited by a committee. It was thought that the buildings should be thoroughly cleaned. There

SEE CHANGE IN NAZI ATTITUDE

Hess Speech Believed To Be An Apology For Actions of Propaganda Ministry.

(By Louis P. Lochner)

(Copyright, 1934, By The Associated Press)

(A. P. By Guardian's Special Wire)

BERLIN, July 9—An apparent softening of the Nazi attitude toward her neighbors and the great powers brought a siege of callers today to foreign diplomatic missions in Berlin, seeking to know the meaning behind the address of Cabinet Minister Rudolf Hess.

The official German version that this was the greatest peace speech of modern times did not seem to satisfy foreign observers, and significance was sought behind Hess' flattery of Louis Barthou, the French Foreign Minister, and his lavish compliments to the French nation, especially to her war veterans.

The fact that Hess, recently mentioned as possible successor to Franz Von Papen as Vice-Chancellor instead of Hermann Wilhelm Goering, was chosen as spokesman for Nazi foreign policies also was commented upon as having possible internal political significance.

(A scheduled address by Paul Joseph Goebbels, Minister of Propaganda, which was to have been made at 3 p.m. today was cancelled by German officials, according to advices reaching New York. He will speak tomorrow night).

The consensus among the chief foreign missions seemed to be that Hess in a way was trying to apologize for the actions of the Propaganda Ministry when it "suggested" to the entire German press to splurge in large headlines the details of an alleged plot between some of the Germans who were executed June 30, and France.

Another interpretation was that Foreign Minister Konstantin Von Neurath and General Joaquim Von Ribbentrop, the Foreign Ministry's envoy on disarmament, have been warning Hitler of an isolation in which Germany finds herself and told him that his expressed approval of the June 30 executions had fallen with somewhat unwelcome effect on foreign ears.

A third interpretation was that the Reichswehr (regular army) had left no doubt but that the belligerent attitude fostered by the storm troops must be abandoned.

It was believed the necessity had been made plain of bending every [illegible] standing between France and Germany, especially in view of the conversations in London today between British officials and Foreign Minister Barthou.

Chancellor Hitler was still in seclusion at his summer home in the Bavarian Alps near the Italian border. All unofficial activities have been sharply curtailed for a month during an announced vacation period to be devoted ostensibly to basic social reconstruction in Germany.

The Hess address, made to 12,000 Nazi chieftains at Koenigsberg yesterday, stressed the belief that a defenseless country endangers world peace and said that Germany would be satisfied with armaments sufficiently strong to maintain security.

Triple Drowning Near Ottawa

(C. P. By Guardian's Special Wire)

OTTAWA, July 9. — The inquest into the triple drowning which followed collision of a car containing four Ottawa people and a heavy wood truck on the Hull-Manlwaki highway early this morning, will take place on Monday night, July 16. It will be held in Hull.

Tonight funeral arrangements are being made for the three victims, Charles Warwicker, Ottawa Department store executive, Mrs. Charles Warwicker, and Helen White, 21-year-old friend of the Warwickers. Douglas Warwicker, 19, adopted son of Mr. and Mrs. Warwicker, managed to escape from the car which toppled over the bank of the Gatineau River into 20 feet of water.

Traffic officer, Arthur Chenier, went to the scene of the accident about 20 miles north of Ottawa at noon today to conduct the police investigation.

DROWNING TRAGEDY AT NORTH RUSTICO

Fidele Blacquiere Drowned When Boat Capsized.

North Rustico was the scene of a very sad accident yesterday morning when Mr. Fidele Blacquiere, age 36, was drowned at the bar in the harbor. The deceased and his brother, Joseph were coming in from the fishing grounds when the accident occurred. There was a north-west wind and a heavy sea. As they were crossing the bar the unfortunate man was swept overboard. Joseph Blacquiere saved himself by grasping the canvas on the engine house.

Jerome D. Gallant, who happened to be near at hand when the accident occurred went ashore for help. Beecher Court in his large motorboat at once went out to the bar, accompanied by Francis Doucette and George Stubbart. They rescued Joseph Blacquiere from the boat, brought him ashore, and summoned medical help.

No trace of the body of Fidele Blacquiere had been found according to latest reports received.

The deceased was the son of Mr. Peter Blacquiere. He was married, but had no family.

INFIRMARY RECEIVING REPAIRS

General repairs have been begun on the old infirmary, from which the insane patients have been recently removed to their new quarters. The sewerage system and lavatories in particular are receiving much attention. The old fixtures in the lavatories are being replaced with those used at the Newsome Block, where the infirm were formerly quartered. Tile floors will replace the wooden floors in the bathroom, and metal divisions are being installed.

The gutters and rainspouts are also being repaired, and much other miscellaneous repair work will be done throughout the building.

Mr. Albert Baker is in charge of the work.

BARTHOU'S MISSION IS SUCCESSFUL

Friendly Undertaking Reached Between Great Britain And France — Germany Concerned Over Conversations.

(A. P. by Guardian's Special Wire)

LONDON, July 9—A friendly "understanding" between Great Britain and France, fortifying and bringing up to date provisions of the Locarno pact, was believed to have been reached between Sir John Simon, British Foreign Secretary and the French Foreign Minister, Louis Barthou.

While the actual results of the important sessions were bound up tight in official secrecy, it was understood France was warmly assured Great Britain has every intention of fulfilling all her obligations under the Locarno treaty.

Under that agreement, now nearly nine years old, Great Britain undertook to aid France if Germany attacked France, and to aid Germany if France attacked Germany.

At the same time a shadow was cast over Anglo-French naval conversations by Italy's refusal to modify her announced naval construction plans. It was understood that Barthou brought this strongly to the attention of British officials.

The French, it was reported, may fell unable to pursue extensively their pre-conference discussions in preparation for the 1935 naval parley until the full extent of Mussolini's plans is revealed.

"All the French want to know is whether Italy means business," said an informant. "If so, France has no alternative but to follow suit. If not, then there is a good chance for a Franco-Italian understanding."

Unofficial sources interpreted reports concerning the "understanding" between France and Britain to mean technical collaboration of British armed forces is assured the French, in case Belgium ever is invaded.

All quarters were agreed, however, that Barthou had not suggested any sort of political pact and that none will be discussed.

Barthou was understood to have outlined elaborately France's needs for eastern European security pacts. He assured the British there was no ulterior motive in forming such pacts and that they were for peace enforcement purposes only.

The British hold that such pacts are purely continental and outside their sphere but they were pleased
