EXPRESSION OF APPRECIATION

Mrs. Margaret Finlayson, of this city, took this opportunity of expressing their deep sense of appreciation of the many acts of kindness and sincere sympathy extended during their recent bereavement by the death of their daughter and sister, Jessie L. Finlayson, who died in the St. John's Hospital, Haverhill, Mass., on the 5th day of February, 1922. To the members of the Board of Trustees, to the medical staff, the Supt. of Nurses, the assistant Supt. and nurses in charge, they wish to convey a message of gratitude for the services rendered, being conscious of the fact that everything possible was done to save the life of their loved one, and to make the closing hours so comfortable and peaceful when hope was abandoned. Upon all friends and loved ones at home and abroad who ministered so sympathetically to them they wish God's abundant blessing, realizing that it is by such acts of love that a measure of joy is brought to the heart even in the hour of greatest sorrow.

The following letter received by Mrs. Finlayson bears splendid tribute to the late Miss Finlayson: General Stephen Henry Gale, Hospital, Haverhill, Mass., February 14, 1922.

Dear Mrs. Finlayson: On behalf of the Gale Hospital, Alumni, I wish to extend to you the sincere sympathy and sorrow we feel for you upon the loss of your dear daughter.

Miss Finlayson had been with us but a short time, but during that time she won the friendship of everyone, and in her quiet, kind and sympathetic attendance upon her patients she became a favorite and was beloved by them all.

Had God seen fit to leave her with us, we know that she would have fulfilled her mission conscientiously and been a credit to the nursing profession.

Although many miles away, please believe us, Yours in deepest sympathy, Nurses of Gale Hospital.

Pres.—Margaret Nicholson, Vice-Pres.—Geneva Gorrier, Secretary—Gertrude Molson, Treasurer—Caroline Larson.

Happenings Of The Week

(Continued from page 12.)

His many friends regret the disposition of Mr. Percy Pope.

Miss Blanche Pomeroy has returned from a month's visit with friends in Halifax and Truro.

Mrs. Alfred Duff, who spent the winter months with her little daughter in Halifax, stopping at the Halifax Hotel, has returned to her lovely home on the North River Road.

The man who thinks that dancing is beneath him will be interested to learn that the royal family contains many good dancers, of whom the Prince of Wales is probably the best. His Royal Highness learned to dance when he was a small child, and, even if he were not a prince, would be an asset to any ballroom. Prince Henry is trying to emulate him, and has lately taken lessons at an academy near Regent Street, Princess Mary, of course is a very graceful dancer, her two favorite dances being the fox-trot and the waltz. The Queen likes the waltz first of all, probably because she dances it best. Viscount Lascelles is not quite such a devotee of dancing as the Princess herself. And the King? He is not an enthusiast of the modern school of dancing but thoroughly enjoys quadrills, reels and strathspeys. There is one individual dance, however, which he will tell you is his favorite. It is the hornpipe, a dance he learned during his naval days, and he has been known to dance it at Balmoral.

There are several very interesting dances rumored for the next few weeks.

A Record Showing

The Department of Agriculture has just completed one of the best records of production with its herd of Holstein cows that has been kept during the winter at the Agricultural and Technical High School. The first and best record is that made by Sady Keyes Abbeokok a four year old cow. Sady's records are as follows:

1 day 83 1/2 pounds milk and 3.86 lbs. butter; 7 days 600 1/2 pounds milk and 25.18 lbs. butter; 14 days 1118 1/4 lbs. milk and 49.56 lbs. butter; 30 days 2396 1/3 lbs. milk and 103.65 lbs. butter.

Two other records made by heifers are as follows:

Floesie Deste Keyes a senior two-year old has produced:—1 day 62 3/4 lbs. milk and 2.56 lbs. butter; 7 days 428 lbs. milk and 16.84 lbs. butter; 14 days 833 lbs. milk and 32.79 lbs. butter; 30 1661 1/2 lbs. milk and 66.82 lbs. butter.

Bertha Deste Keyes a junior two-year old has produced:—1 day 60 lbs. milk and 2.14 lbs. butter; 7 days 408 1/4 lbs. milk and 15.00 lbs. butter; 30 days 1606 1/2 lbs. milk and 60.5 lbs. butter.

These records are the best that have been recorded for fourteen or thirty days in this province. The herd has been fed and cared for under the direction of W. J. Read of the Department of Agriculture and the testing was conducted and vouchered for by Fraser T. Morrow, Dairy Inspector for the Province, who was assisted at intervals by Charles J. Cook, Kensington and John Pippet, Mt. Herbert.

BOY SWEEP TO DEATH IN SEWER, DESPITE HEROISM

SOC, Ont. April 13.—In spite of the heroic efforts of Lawrence Miron to save him, Walter Anderson, seven years old, son of John Anderson was drowned on Sunday evening in a McGregor avenue storm sewer, though his cries could be heard from the sewer for fully twenty minutes after he was carried to it.

Walter had been playing along the edge of the open ditch which drains C. P. R. property, and losing his balance, fell in, being carried into the storm sewer through a gap which was left by a washout during the day. Gordon Lyman, his young companion, ran and told his mother who summoned the police and fire department, in the meantime Miron had joined the crowd which gathered and having a rope tied around him ventured into the sewer in an effort to save the lad.

Twice he managed to reach the boy, who had been stopped by an obstruction twenty feet down the sewer, and started to bring him out, men at the end pulling on the rope. The first time the accumulated slush carried the boy off his back and second time he himself collapsed and the Anderson boy

had to be taken to the hospital. The body was recovered.
