Today's Probabilities.

TORONTO, Feb. 2.—(Special)—Easterly and southerly winds; light sleet, rain in western portions.

All Humors

Are impure matters which the skin, liver, kidneys and other organs can not take care of without help, there is such an accumulation of them.

They litter the whole system.

Pimples, boils, eczema and other eruptions, loss of appetite, that tired feeling, bilious turns, fits of indigestion, dull headaches and many other troubles are due to them.

Hood's Sarsaparilla and Pills

Remove all humors, overcome all their effects, strengthen, tone and invigorate the whole system.

"My health was poor and I suffered much from hives and kidney trouble. After taking two bottles of Hood's Sarsaparilla I was cured. I regard this medicine as superior to all others." MRS. JOSEPH HOLLINSHEAD, Harrison, Ontario.

Hood's Sarsaparilla promises to cure and keeps the promise.

THE MORNING GUARDIAN

TUESDAY, Feb. 3, 1903.

WIRELESS PRESS MESSAGES.

As will be seen by the interview of the Montreal Herald with Signor Marconi which is reproduced in another column of today's Guardian, there is good prospect that within two months, that is on or before first of April next, the transatlantic system of wireless telegraphy will be conducting commercial and press business on an extensive scale. Signor Marconi promises press messages at less than half the present rates across the Atlantic, and what is of almost equal importance to all patriotic Canadians, he promises that we shall have a direct service between Britain and Canada in which the news of the two countries will be given especial prominence, and without being specially prepared for the United States news market or filtered through foreign channels as at present.

While this is a matter of prime importance to all patriotic Canadians it is of equally great consequence to all readers of the daily newspapers of the Island as well as to our commercial and business interests, that we shall share in the reduction and receive corresponding advantages with those enjoyed by the press and people of the mainland Provinces. We are unfortunately at present under the dominance of the Anglo-American Telegraph Company's monopoly, so far fostered and supported by the Government of Canada. The Government, by the terms of union is specially charged with "the maintenance of telegraphic communication between the Island and the Mainland of the Dominion." The Government is responsible for the past and present condition of that service and has so far shockingly neglected Island interests in this matter. It is to the Government we must look, through our representatives, for redress for past neglect and for improvement in the future, especially at this new era in the cheapening and multiplication of telegraph facilities.

As is well known the Anglo-American Telegraph Company was the first to attempt to block Marconi's way. Their monopoly in Newfoundland was used as the lever to drive the great inventor out of Newfoundland when he attempted to establish a station there. This attitude of the Anglo-American toward the new telegraphic enterprise shows what we may expect, if we are left by the Government in the future as we have been in the past, wholly at the mercy of the cable company referred to. It is therefore more than probable that the Anglo-American will not work in connection with the Marconi system, which is its rival in transatlantic transmission. The Government of Canada on its part has handsomely encouraged Marconi and deserves great credit for so doing. It remains for the Government to see that all the Provinces shall share alike in the benefits of the wireless system. This can be done in one of three ways: (a) by the establishing of a wireless sending and receiving station on the Island, say at Charlottetown; (b) by the Government taking over and operating the cable service between the Island and the mainland; or (c) by the Government compelling the Anglo-American Company to give us a prompt and continuous service day and night at reasonable rates to connect with the station at Glace Bay.

DYING BY SLOW DEGREES.

Although not always aware of it yet thousands die by slow degrees of Catarrh. It first attacks the nose or throat, they the lungs and finally spreads all through the system. Catarrhozone is the only remedy that will immediately prevent the spread of this awful disease. Every breath from the Inhaler kills thousands of germs, clears the throat and nose, expectoration and relieves the pain across the eyes. Catarrhozone erradicates every vestage of catarrh from the system, and is highly recommended also for Bronchitis, Asthma, Deafness and Lung Trouble. Price $1 00; trial size 25c, all druggists. Polson & Co., Kingston, Ont.

DR. HAMILTON'S PILLS CURE BILLIOUSNESS.

Many Conservatives and Liberals alike, including almost every one who has given any study to the subject, favor the municipal system and we are sorry to find The Examiner obstructing it in every way. It argues that it is an increase of governmental machinery of which it alleges we have too much already. The same argument could have been used against the incorporation of Charlottetown or Summerside. The people of those towns thought differently and preferred to get the power to control their local affairs, tax themselves for what they wanted and refuse to be taxed for what they did not want, collect and expend the money required for streets, lights, police and fire protection, for water supply, sewerage, parks and wharves, appoint their own officials and manage their own local affairs, instead of entrusting all these duties to the Provincial Government. Surely the counties have the same rights, and can also transact their local affairs better, more satisfactorily and cheaper than the Government can. At least such is the opinion throughout the United States and all the the Canadian Provinces except Prince Edward Island. The key note of the entire system is local government of the people, by the people and for the people, with the money expended where it is raised and among the people who pay it. Better give over your opposition, Brother. The municipal system has got to come.

THE SKIN ON FIRE.

So dreadful are the sensations of burning, itching eczema that victims frequently describe their sufferings by saying that the skin is all on fire. The stinging, biting fires of eczema are quinched by the use of Dr. Chase's Ointment. The first few applications may cause a little uneasiness but cure is sure to result and the skin is healed without scar or blemish.

The Pitiful Helplessness

Of Brain tried, Nerve Experience have seen Persons, who for Lack of Nerve Force Have Lost Control of Mind and Body.

Dr. Chase's Nerve Food

The Greatest of Nerve Restoratives.

Nervous diseases are most dreaded because they lead to mental and physical helplessness. Among the very first indications of the approach of nervous exhaustion and prostration are weakness of the will and inability to concentrate the thoughts.

The victim of nervous exhaustion may be healthy in appearance. But realizing that his disease will likely lead to paralysis, epilepsy or insanity, he becomes despondent and discouraged. Men frequently become keen sufferers from dyspepsia, while in women the weakeness is most likely to develop irregularities and disorders of the feminine organism.

You feel like neglecting the duties of the day and lack the nerve force required to set the machinery of the body in action, appetite is impaired, there is weakness of the back and spine, neuralgic pains here and there through the body, severe and weakening attacks of sick headache, sparks before the eyes, dizziness, noises in the ears, distressing periods of wakefulness during the night, followed by tired, exhausted feeling in the morning.

Doctors fail to cure nervous exhaustion and prostration because they use the wrong kind of treatment. Dr. Chase's Nerve Food succeeds marvelously in all nervous diseases because it makes blood and creates new nerve cells.

Gradually and certainly the food cure increases the supply of nerve force, and so restores to the patient control of mind and body. It makes the appetite good, and strengthens the digestive organs, so that they extract from the food the nourishing elements which go to form new blood, new tissue and new vigor.

Dr. Chase's Nerve Food has the highest endorsement of Canada's best people. It's restorative power cannot be overestimated. 50 cents a box at all dealers, or Edmanson, Bates & Co., Toronto.

DIED

In Boston Hospital of inflammation of the brain on Saturday, January 31st, George L., son of William and Annie Scott, Clyde River, P. E. Island, aged thirty-five years.

(Patriot please copy.)

AN ACHING BACK

Is the first indication of kidney disease, and should be taken as a signal of danger—a warning to use Dr. Chase's Kidney Liver Pills while yet there is time to avoid the dreadful pains and certain fatality of this terrible disease. There is no guess work, no experimenting when you use the prescription. It brings relief in a remarkable short time, and because of its combined action of liver and kidneys, cures complicated cases which cannot be reached by any ordinary treatment.

SAXONY'S ROYAL DIVORCE.

DRESDEN, Jan. 30,—The special court assembled to try the suit for divorce brought by the Crown Prince of Saxony against his wife, who eloped with Prof. Giron, met in camera today and adjourned until Feb. 11.

WANTED—A case of headache that KUMFORT Powders will not cure from ten to twenty minutes.

FOUL PLAY SUSPECTED.

SHAPLEIGH, Me., Jan, 30.—The discovery of the body of Luther Hodgdon, in a pung, with a cut over the head and eye gouged out, has caused the authorities of York county to commence an investigation, in the supposition that he was a victim of foul play.
