Charlottetown Summerside

Monthly Meeting S' Side Council

(Special to the Guardian)

SUMMERSIDE, Dec. 8.—The regular monthly meeting of the Summerside Town Council was held in the Council Chamber last night. Mayor Lidstone presiding and all the Councillors present with the exception of Councillor McNeill, who is in the Montreal General Hospital. After the minutes of the previous meeting had been read and adopted, paid bills amounting to \$1231.86 and unpaid bills \$1087.27 were passed. Electric light paid bills amounting to \$1826.75 unpaid bills, \$1087.27 passed. Mayor report was as follows: Seven convictions for drunkenness. One assault case dismissed. One conviction for profane language. One vagrant. Fines and miscellaneous licenses, \$137.50. The Chief of Police Kane reported peace and order good this month. A request was asked for a telephone to be installed in Chief of Police room at the Mawley House. The report of chief engineer of the electric light plant was read and filed. A resolution was unanimously passed that the Mayor and Town Councillors officially express their sympathy with Councillor McNeill in his serious illness and their thankfulness that he has so far recovered from his operation in the Montreal General Hospital and that a telegram be dispatched to him at Montreal conveying their sincere sympathy and joy at his recovery. A discussion regarding the licensing of incorporated companies operating in Summerside with their head office outside the province took place. The matter was laid over. A letter of thanks was read from Miss Zink, Red Cross nurse for the use of the room in the Town Hall during her term of office as nurse for Prince County. A resolution was passed that the water and sewerage committee be authorized to extend the water and sewerage from Central Street down Willow Avenue to Duke Street, the work to commence at once and continue along the street as far as possible until the frost comes. This motion was put by Councillor Phillips, seconded by Councillor Kelly and supported by Councillor Grady. Mr. Barwise was appointed as janitor at \$15 per week. Council adjourned until December 29th.

RULES OF THE GAME

AS ADOPTED BY THE CANADIAN AMATEUR HOCKEY ASSOCIATION AND THE MARITIME AMATEUR HOCKEY ASSOCIATION

(Continued)

FACE-OFF ON 60-FOOT LINE

When an off-side is committed by the defending side from a play within the 60 foot limit at the end of the rink, the puck is to be taken back to the 60 foot line and to one side and there faced off.

KNOCKING-ON

15.—The puck may be stopped with the hand but not carried or held or knocked on by any part of the body. With the exception of the goalkeeper as defined in Rule 8, a player must not throw the puck or shove it along the ice with his hand or kick it intentionally. Any player of the defending team back of the 60' foot line may kick or carry the puck with his skate but must not carry it over his 60 foot line.

CHARGING, TRIPPING, ETC.

16.—No player shall raise his stick above his shoulder or throw it along the ice. Charging, tripping, collaring, kicking, cross-checking, pushing, lying sitting or kneeling on the ice, shall not be allowed. And the referee must rule off the ice, for any time in his discretion, a player who, in the opinion of the referee, has deliberately offended against the above rule. If a player makes any unfair or rough play, or disputes any decision of the referee or other officials, or uses any foul or abusive language or enters into any altercation with a spectator, the referee may rule him off for such time as he may deem expedient, or for the remainder of the game, and no substitute shall be allowed. If, in the opinion of the referee, a defending player has deliberately committed a foul to prevent a score, he shall not stop the play until that play has been completed.

(Continued Tomorrow)

"Twin Beds" At Capitol Theatre

"TWIN BEDS," THE SCREEN ADOPTION OF THE FAMOUS STAGE FARCE OPENED A THREE DAYS' ENGAGEMENT AT THE CAPITOL YESTERDAY.

The story deals with the comical happenings incidental to the separation of the bride and bridegroom on their wedding night, with many involved and side-splitting minglings of husbands, wives, identical apartments and so on. Incidentally, it displays the latest in pulchritude-revealing negligee and lingerie. But it's clean and wholesome, and the love story is appealing.

Further proof, if any is needed, that the movies can present a stage hit as effectively as the stage itself is given at the Capitol Theatre, where "Twin Beds" in cinema garb holds sway.

This screen version of the famous stage comedy forms an ideal vehicle for the First National star, Jack Mulhall. His part is that of a young bridegroom who hates twin beds. The bride is Patsy Ruth Miller, who is also a little riot in her part.

However, it is the great work of Mulhall and his cast that makes of an entertaining stage play one of the most delectable fun-morrels the screen has presented. The cast is really an unusually notable collection of screen artists to be assembled for a single picture.

In the most familiar roles of the stage play are, in addition to Mulhall and Miss Miller, Gertrude Astor, Zasu Pitts, Armand Kalis, Edward Gribbon, Alice Lake, Knute Ericson, Carl Levines, Ben Hendricks, Jr., Edith Chapman, Nita Martin and Bert Roach.

The screen plot of "Twin Beds" follows that of the stage play rather closely, diverging only to take advantage of the screen's greater dramatic and scenic resources.

GREAT

(Continued from page 1)

sive coughing that resulted in unconsciousness in the worst cases. Worry and depression on dark foggy days are responsible for many deaths. Sir William Arbuthnot Lane, the noted authority on London health, told the Daily Mail tonight. I have known a perfectly healthy man to get bad news at breakfast, then go out and get pneumonia straightaway. Worry is far more dangerous than any carbon dioxide or sulphuric acid fumes in the air during fog. The fog turned to rain today and all shipping and rail services were resumed.

LONDON, Dec. 8.—The mysterious "death fog" of the Meuse Valley of Belgium, which last week claimed more than three score human lives was not due to any communicable disease, in the opinion of Belgian health authorities and they so informed the British Ministry of health today. The Belgian statement, which expressed the belief that the fog was clearly a matter of local conditions, was in reply to a communication from the British Ministry of Health.

Inhabitants of Great Britain became uneasy over fears that the intense fog which has shrouded the Isle for the last few days might carry the deadly effects of the Meuse fog. Their anxiety was increased by reports of the death yesterday near Grosmount, Yorkshire of ten cattle from an unknown malady. The fog in the Meuse Valley killed a large number of cattle and livestock.

CATTLE DYING

GROSMOUNT, Yorkshire, England, Dec. 8.—Fear that the mysterious fog borne malady which has taken a toll in men and beasts in the Meuse Valley of Belgium, may be spreading to England, was caused today by the inexplicable death of ten cattle on a farm near here. Neither the veterinary surgeon attending the cattle nor the district veterinary inspector ever encountered a similar outbreak, although they have definitely concluded that the symptoms are not those of any notifiable disease. A certain amount of fog has prevailed over the Yorkshire region the past few days, but none of the other farms has been similarly affected.

SUMMERSIDE SUPREME COURT

At the resumption of the court at Summerside yesterday morning the case of E. J. Hallett vs. Central Creameries was heard, being an action for damages for wrongful dismissal and assault. The evidence of the plaintiff, E. J. Hallett, and another witness was heard. The examination and cross-examination of these two witnesses occupied the attention of the court all day. The lawyers are Mr. Thane Campbell, K. C. and Mr. J. J. Johnston, K. C. for the plaintiff and Mr. Heath Strong, K. C. and Mr. R. N. McNeill, K. C. for defendant. The case will be resumed at the opening of the court this morning.

CITY

(Continued from page 1)

not suitably furnished for a rest-room. It was thought by some councillors that a basement should not be used as a rest room.

The matter was left to the public property committee.

A petition from the owners of the new fertilizer mixing plant asking for freedom from civic taxation for a period of five years, was read. It was decided that the matter should be given publication through the press once a week for a month, and afterwards brought up for discussion.

Dr. W. J. P. McMillan, City Health Officer, reported one death during the month. He stated that frequently the Children's Aid Society is called upon to look after children, whose parents have been sentenced to jail for breaches of the Prohibition Act. This state of affairs has inspired the passing of the resolution previously read at the meeting. He instanced the plight of two families, the heads of whom had been sent to jail for a prohibition offense. The children have been thrown on the charity of a certain citizen. The responsibility does not rest on the City, but on the Government. Dr. McMillan thought. His Worship reported that one of the women of the families in question had come to him and had been directed to go to the Premier. He thought that the Government should provide for such families.

Councillor Holman remarked that the time is approaching when the Government and the City must do something toward making provision for juvenile delinquents. He thought that when the old P. E. I. Hospital has been vacated, the building might be used as a reformatory.

Dr. I. E. Croken, Meat and Milk Inspector, reported that eighteen samples of milk on the first test contained sediment; on the second test all were clear.

Some discussion followed, and it was decided that the offending producers should be prosecuted.

Councillor Foster for the Finance Committee reported everything satisfactory.

Councillor Kennedy, for the Streets Committee, reported that shelter for the city horses and vehicles had been provided after the tearing down of the old barn.

Councillor McDougall for the Public Property Committee reported that the work of construction on the new annex is ready to go forward.

Councillor Dougan thought that the material used in building the annex should be bought by tender.

Councillor Reardon, for the Fire Committee, reported that the new pumper had been tested on Pownall Wharf on Nov. 24th, and had proven satisfactory. Reports of Mr. H. A. Messervey, City Surveyor and Mr. C. A. Beer, of the Board of Fire Underwriters, in this connection were also read. The committee proposes to insure the machine against public liability, property damage and collision, Councillor Reardon stated.

Councillor Burke reported that six lights were reported out last month, but all were replaced. The electric light company feel confident of dealing with the usual light situation during the next three or four weeks. During Halloween night, fifty-four lights were broken. It will cost the company in excess of \$200 in replacing those.

Councillor Holman thought that there should be some system of inspecting the wiring in the houses of the city.

Councillor Burke stated that it was

Irish Pluck

(Canadian Press)

MONTREAL, Que., Dec. 8.—Patrick O'Shaughnessy won through cold, rain and snow on the long hike from Winnipeg to Montreal yesterday only to find that he must struggle on to St. John, N. B., where his fiancée lies critically ill.

O'Shaughnessy, broke and out of work, was in Winnipeg when he received a cablegram telling him of his sweetheart's illness. With true Irish pluck, he set out from Winnipeg on November 18, to hike to Montreal where he hoped to get a job on a cattle boat to take him to Ireland. Yesterday he trudged up to a harbor policeman and asked where he could rent a cattle boat. The officer told him that the last cattle boat of the season had sailed from Montreal, so O'Shaughnessy turned about and headed east towards Saint John.

Lindsey Pleads Not Guilty

NEW YORK, Dec. 8.—Former Judge Ben B. Lindsey of Denver, who was ejected from the Cathedral of St. John the Divine yesterday after he had interrupted Bishop William T. Manning, appeared in west side court today and obtained a continuance until December 12 of a charge of disorderly conduct. He pleaded not guilty and told Magistrate Dreyer he had several speaking engagements which would take him out of the city between now and December 12. Counsel for Lindsey, who was arrested after he tried to reply to the Bishop's attack on his companionate marriage theories, said he would raise the question whether a man has a right to speak out in church under sufficient provocation.

May Act On Butter Imports

OTTAWA DISCUSSES REPORT THAT AUSTRALIAN PRODUCT TO FLOOD CANADIAN MARKET

OTTAWA, Dec. 8.—Cabinet Council discussed today a report from Vancouver that Canada would be flooded with Australian butter. With complete data before them, members of the Cabinet gave consideration to the whole matter; and while there was no official declaration made at the conclusion of the sitting, the feeling in political circles is that such a condition will not be permitted to arise. Previous to the meeting, L. R. McGregor, trade commissioner for Australia, in a statement issued, stated there was "absolutely no danger" of the Canadian market being flooded with Australian butter.

Decision was made by Cabinet to pay to those civil servants who receive their monthly salaries at the end of each month their December stipends on December 22. This step is being taken in view of the Christmas season.

POLICE REPORT

The following report, compiled by Chief of Police Birtwistle, was presented by Councillor Holman for the Police Committee:

Fifty seven (57) arrests were made within the City limits during November for the following classified offences:

Offence	Arrests	Convictions	Dismissed	Total	Remarks
Breaking and Entering	3	3		3	Juveniles
Drunk and Disorderly	4	4		4	
Drunk and Incapable	31	30	1	31	
Disorderly Conduct	2	1	1	2	
Insanity	4	4		4	Falconwood
Keeper of Disorderly House	1	1		1	6 months imp.
Operating M. Vehicle while Intoxicated	4	4		4	
Obtaining money by False pretences	1	1		1	2 years Dor. Penitentiary
Theft (Shop-lifting)	1	1		1	2 month imp.
Unlawful possession of Intoxicating Liquor	3	3		3	
Vagrancy	3	2	1	3	
Totals	57	54	3	57	
Costs				\$447.67	

In addition to the above mentioned arrests there were five prosecutions under the Traffic By-Law for "speeding"; one for reckless driving; three for Common Assault; one under the Customs Act, and four under the Sanitary By-Law.

We assisted the Prohibition Officers in fourteen searches of premises suspected of the unlawful sale or possession of Intoxicating Liquors. Six prosecutions were entered, a conviction being registered in every case.

On November 14th and 29th the Force collected twenty nine samples of milk and eight of cream from Licensed Milk Vendors and delivered same to the City Analyst for test. The amounts collected in Fines and Costs during November are as follows:—

Under the Prohibition Act \$300.00

Miscellaneous Fines and
