

WILLIE WESTINGHOUSE INVENTS A NEW MOTOR AND IS SHIPWRECKED

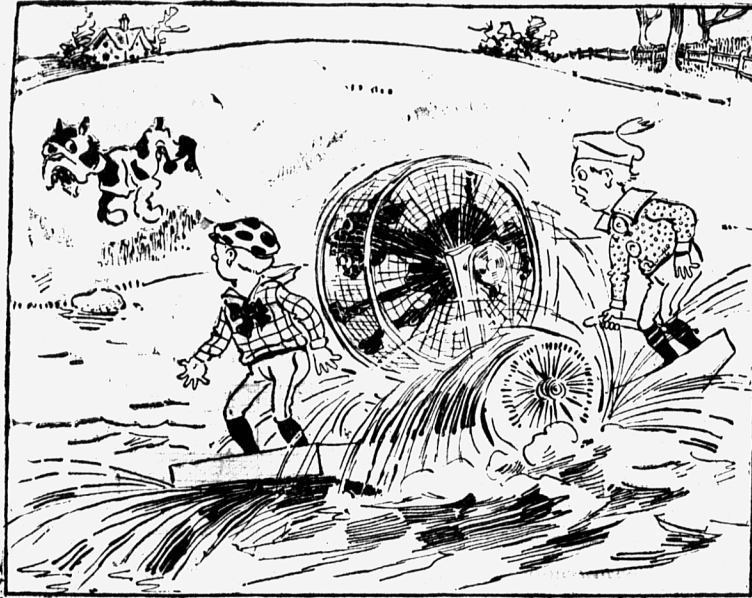

Dear Mama: This is a diagram of a new kind of boat I invented.

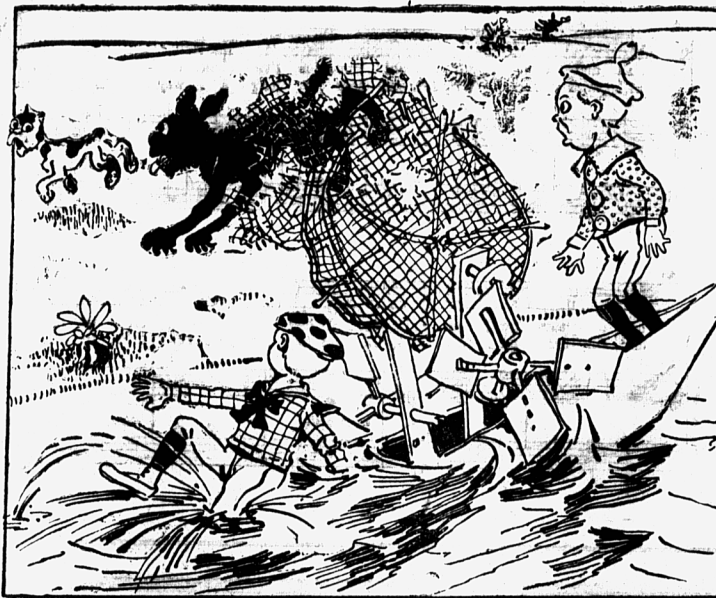

We put Hector in the cage and started down the stream.

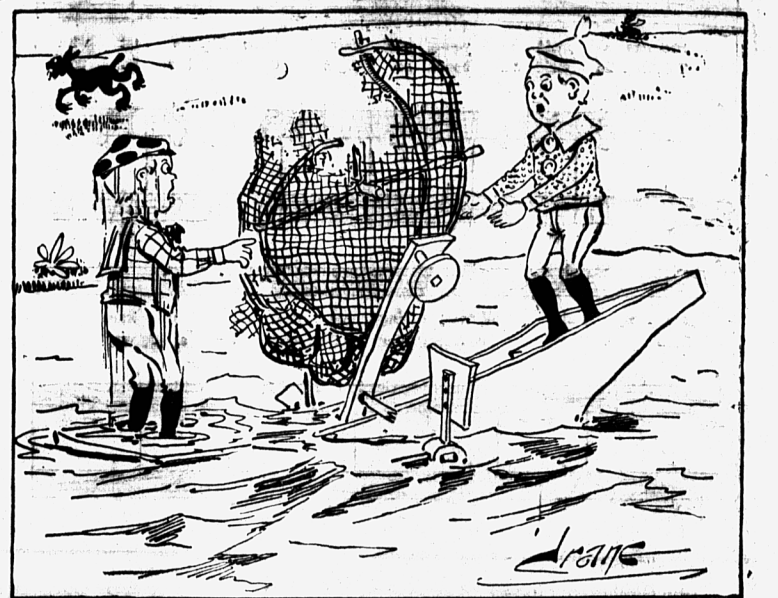

We were going along nicely, when another dog came running along the bank.

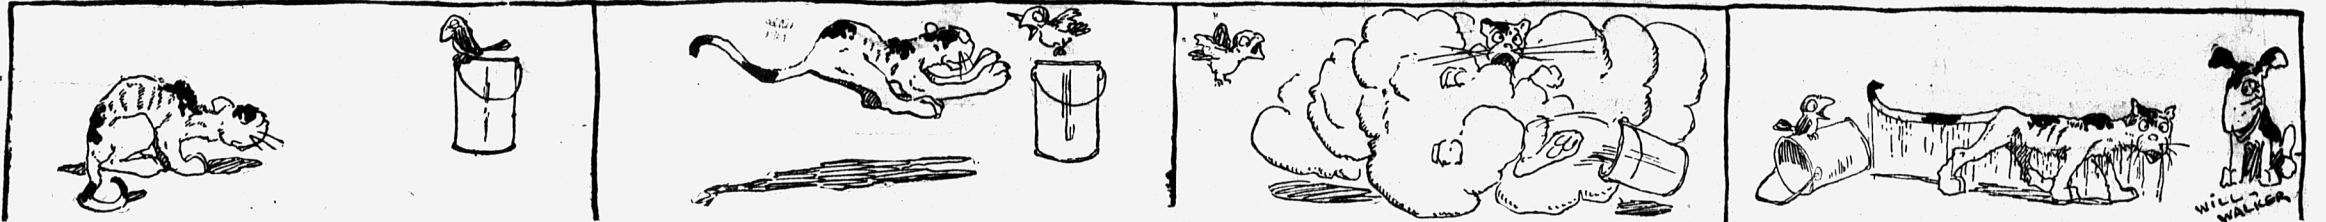

Hector got so excited that he made the paddle-wheels whizz.

Then he jumped out of the cage and wrecked the boat.

Tommy got awfully angry because he got wet and I didn't. Yours lovingly, Willie.
