

AFTER SUFFERING TEN YEARS

Cured by Lydia E. Pinkham's Vegetable Compound

MARLTON, N. J.—I feel that Lydia E. Pinkham's Vegetable Compound has given me new life. I suffered for ten years with serious female troubles, inflammation, ulceration, indigestion, nervousness, and could not sleep. Doctors gave me up, as they said my troubles were chronic. I was in despair, and did not care whether I lived or died, when I read about Lydia E. Pinkham's Vegetable Compound; so I began to take it, and am well again and relieved of all my suffering. —Mrs. G. Jones, Joppy, Box 40, Marlton, N. J.

Lydia E. Pinkham's Vegetable Compound, a native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases we know of, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaint, inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

What one user says---

My patented pressure valve is giving perfect satisfaction to every user. It is easier installed gives better results and is more economical than any other system.

Read what Mr. Prowse says:— Answering your inquiry regarding the performance of the Hot Water pressure system lately installed by you in the Avonia Park may say that it is giving every satisfaction, replacing five valves, and as nearly as we can calculate using no more coal than was used by two of them, besides giving us very much less trouble and much less risk of bringing the building. (Sgd) W.B. Prowse.

Exercising Horses in Winter.

No animal on the farm needs exercise as much as the horse to keep in sound health. The horse was never intended to be kept in the stable during the winter months, fed night and morning, oftentimes too liberally. The farmer needs and must have one team to do the winter work, and should be fed, stables cleaned and groomed, but the idle horses are better off if allowed freedom for exercise.

Give them plenty of shelter, and don't let them run out in blizzards or extremely cold weather. A healthy mature horse when not at work needs only enough food to keep in condition, or, in other words, enough to keep warm, and ample opportunity for exercise. The care of weanlings is another matter. They, too, need exercise and feed, including grain "to grow on."

Hog Pointers.

Fully developed breeding stock brings the strongest offspring. The character of the feed determines the character of the meat. At present prices hogs offer a mighty good market for corn.

The hog appreciates a clean, dry bed. Change the litter frequently. Do not sell half fattened hogs. Stunting the brood sow often results in stunting the pigs. "Pigs is pigs" at present prices. Hogs that are of uniform size and weight will fatten best. Many a farmer wishes now that he had not sold his stock hogs off so close. Field peas have been made to take the place of corn in the cornless sections.

DAIRY NOTES

Feeding Cows While Milking.

If cows are fed any kind of dusty feed while being milked it is a good plan to sprinkle it. This helps to keep the milk clean.

Keeping Milk Pans Clean.

The sticky substance in milk known as albumen can be rinsed off the milk pans with cold water, which should always be used first. Boiling water will cook it on.

Watering the Cows.

In many cases it is considerable trouble to provide tempered water for the cows, but it is well worth while from the financial standpoint, to say nothing of the humane side of the matter.

Use the Currycomb Freely.

A regular currycomb, such as you use on the horses, and a brush are just what you need for the cow stables. But don't put them on the shelf and leave them there. Use them every day.

What the Dairy Cow Needs.

It is better to allow dairy cows to have a short run in the sunshine rather than to stay shut up all day in a dark stable. What they especially need are plenty of pure air and a little exercise.

Making Good Butter.

To make the best country butter one must not let the cream get too sour nor skim sweet cream and put with the sour. Let it all ripen at once and the butter will be much better and keep better.

TENDERS

DARRACH'S BRIDGE

St. Catherine's, Lot 65.
Department of Public Works,
Charlottetown, P. E. I.,
Oct. 18, 1910.

HUMANE LAMB DOCKER.

This Useful Implement Can Also Be Used For Removing Blood Warts.

Many really useful inventions that would benefit the breeder are never brought into common use because of the inability or indisposition of the inventor to acquaint the breeders with their merits. One of the implements that are prized very highly on farms and that comparatively few shepherds seem to be acquainted with is the lamb docker. The illustration gives a fair idea of it. The jaws have

No doubt about an enamelled bed's hygienic merit; none about its beauty. Nor any about its being worth its price—if it bears the "Ideal" Guarantee on the footfall.

That Guarantee assures you of more than mere surface excellence; warrants real satisfaction to the buyer. Its snowy enamel will stay white; its parts will not work loose.

Know why "Ideal" Metal Beds are better. Ask for "The Philosophy of Sleep"—worth reading, though it is free. Write for Booklet No. 136.

Dominion of Canada Province of Prince Edward Island In Chancery Before the Vice-Chancellor

No. B. 931.
Susan M. Dockendorff & ors Complainants
and
Harold Stewart Dockendorff & ors Defendants

Pursuant to, and by virtue of, a decretal order made in the above cause on the third day of October, A. D., 1910, by the Honorable the Vice-Chancellor, and to me entrusted for execution, I will set up and sell at public auction on the premises, on Wednesday, the 16th day of November next (1910), at the hour of twelve o'clock noon, all that tract, piece or parcel of land situate, lying and being on Lot 32 in Queen's County bounded as follows, that is to say:

Commencing on the west bank or shore of the North River at the north boundary of land in possession of Benjamin Dockendorff, thence running south 88 degrees and 31 minutes west by the magnet of the year 1764 along the said north boundary of Benjamin Dockendorff's land for the distance of 108 chains and 30 links, or to the east boundary of land in the possession of James Drake, thence north 3 degrees and 50 minutes west along the same a sufficient distance to give a rectangular width of 7 chains and 50 links, thence north 88 degrees and 35 minutes east to the east side of the North River Road, thence northwardly along the same 5 chains and 75 links or to the south side of the old Ferry Road, thence eastwardly along the said road to the shore of the North River, thence southwardly along the said shore to the place of commencement, containing by estimation one hundred acres of land a little more or less.

Also all that land on said Lot 32 being the strip of land on the north side of the Ferry Road at the rear of the farms of the late Clement G. White, the late Joseph McKenzie, Hugh McEwen's and Donald McDonald's farms containing about four acres.

The said lands will be sold free of dower and free of all incumbrances. The sale will be conducted by the Court of Chancery without expense to the purchaser.

A deposit of ten per cent. of the purchase money will be required from the purchaser on the premises being knocked down to him at the sale and the balance on the delivery of the deed.

Dated this 17th day of October, A. D., 1910.

W. A. O. MORSON,
Master in Chancery.

THE HUMANE DOCKER.

a three inch face, the length from edge to rivet is about six inches, and the handles are eighteen inches long. These dockers can be purchased from houses that handle shepherds' supplies, but the local blacksmith can make one just as good and better. Those that are purchased are cast, and some day they will break, but these are made of half inch soft iron and ought to last forever. They must be used red hot, the hotter the better. An old timer's firepot is a good thing to heat them in; but, lacking that, a corncob fire is all right. The two great advantages in their use are, first, no loss of blood, and second, the wound is left antiseptic and heals very rapidly. They have been used very successfully in removing large blood warts. The lamb hardly seems conscious of the loss of his tail when it is removed with these self-healing pinchers and will go off to the rack and begin eating as if nothing had happened. All lambs should be docked, even those that go to market early, but only about half the tail should be removed. They look better, the quarters show up better, and the long tail is only in the way.

Sir:

If the "nappy-go-lucky-slap-it-on-a press-and-let'er-go" kind of advertising you are using is doing you some good doesn't it seem reasonable to suppose that "something different"—bright, convincing, thought-out and mailed regularly "direct" to your list will prove of much greater values (This is intended only for the man who feels the bullet strike him).

I study Printing! I make a feature of preparing printing that is profitable. That is, I make it profitable to my patrons. I study types and effects to insure attractive arrangement, and I believe you'll appreciate how I handle your work. From a card to a catalogue I want to figure on your work.

Archibald Irwin,
Richmond Street Telephone 291

The Royal Grand is the Cook's Favorite

The Royal Grand is the pride of all who own it. For beauty of design and finish, for fuel economy and durability it has no superior. It burns coal or wood, is thoroughly constructed of best materials in the most careful manner. Fitted with removable trimmings and oven thermometer, gives steady heat and has ventilated oven and drafts. We are sole agents for this peerless kitchen range.
