The Charlottetown Gun Club held its weekly shoot yesterday evening and some high scores were made. The most interesting part of the match was when V. C. Gay and Dr Smallwood tied for first position with a score of fourteen, out of a possible fifteen birds. It was agreed that the tie would be settled by shooting at targets until one or the other missed. This resulted in twelve straight breaks by each party, but on the thirteenth bird being thrown, it proved unlucky for the Dr and Mr Gay was the winner with a score of twenty-six out of twenty-seven.

In connection with those in attendance at the recent Presbyterian General Assembly at Halifax the Rev. —— of that city, speaking of Rev. Geo. E. Ross, says:—Rev. George E Ross Charlottetown, is unique in the Canadian church. May the "order of recruits for the ministry," that last-born of the modern organization, be annointed and given orders to march from its "island" hearthstone throughout all the gates of the west. He has a winning face and cheerie manner. Probably the best thing the commission on supply of students for the ministry, could do would be to send this young shepherd out into the wide fields of the church and find young men, not by scores, but hundreds.

The executive committee of the M. P. A. A. A. will meet at the Victoria Hotel, Charlottetown, on Monday night, June 13th, at 9 o'clock. This is probably the first meeting of the executive ever held in Prince Edward Island. The president and honorary secretary are now there and it will doubtless not be the last meeting to be held there, as both officers have won the confidence of the sport loving public and the members of the clubs in particular. The awarding of the annual track and field championships will take place at this meeting. For many years it has been the practice to hold these in Halifax. Now that traditional practices have been departed from in other respects, it is not improbable that the M. P. A. A. A. championship sports may be held elsewhere this year. Charlottetown may be given the event. St. John, which on account of its population would stand a good chance for the event, will not likely make an offer, as the sporting interests are not united enough to make M. P. A. A. A. sports a success. Amherst may make a bid, and Truro may do likewise. Sydney, New Glasgow and Moncton are other places which would stand a fair chance of getting the sports if they went after them. The ten mile Canadian championship, which the M. P. A. A. A. this year has the privilege of awarding, may or may not be held at the same time and place as the M. P. A. A. A. sports. Amherst is said to be after the event as well as Halifax and Charlottetown. Amherst, on account of having a probable champion, in the person of Fred Cameron, will, if the M. P. A. A. A. decide to award the event by tender, doubtless offer an amount which will satisfy the executive that it is justified in giving that town the big event. Possibly, however, the M. P. A. A. A. may hold the event under its own auspices. General business will be transacted and an interesting session is anticipated.

The schooners Fanny Young, Champion, Olive J., Flora T. and Maple Leaf sailed Thursday from Rexton, N. B., for Charlottetown.

The injured husband appeared as complainant and Magistrate O'Keefe handed out the sentence as a warning to Ottawa wives.

SPRAYING ORCHARDS.

Orchards should be sprayed for the Coddling moth as soon as the apple blossoms have fallen. In about ten days after the Ben Davis blossoms have fallen, the calyx cup closes and spraying then is not nearly so effective. The most common spray to use at this time of year is the poisoned Bordeau mixture, the best formula for which is as follows:

Copper Sulphate (Bluestone) 4 lbs.
Unslacked lime 5 lbs.
Paris Green 6 to 8 oz.
Water 40 gallons.

The copper sulphate should be dissolved by suspending it in a thin cotton bag in warm water. If it is thrown into the warm water, it will sink to the bottom and not readily dissolve. The unslaked lime should be slaked in just enough water to do it well. If too much is used, the lime will not slake as fine. Both soultions should be well diluted before they are mixed together. They should be strained through a fine strainer or much trouble will be experienced in spraying.

The Paris Green can be added at any time. It is well to turn the nozzle into the barrel and do considerable pumping before spraying is begun in order to mix the ingredients thoroughly.

Many people are now using Arsenate of Lead in place of the Paris Green. The advantages claimed are (1) That it does not russet any apples (2) that there is no danger of it injuring the foliage (3) that it whitens the trees so that one can tell exactly what has been sprayed and (4) that it spreads more evenly and adheres to the trees better than Paris Green. The use of Commercial Lime Sulphur is also being advocated, but the people have had little experience with it as yet. Arsenate of Lead however, must be used with Commercial Lime-Sulphur as Paris Green with it burns the foliage.

The Paying Bicycle

The Bicycle that "dosen't eat its head off" in repair bills is the one for you

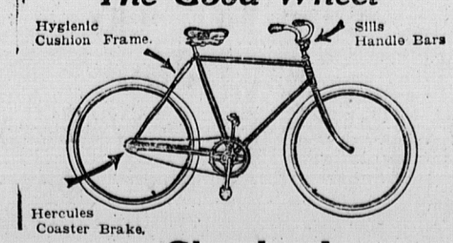
"The return of the bicycle to favor is a healthy sign. Its early popularity was largely a fashion or a fad, but to-day it is used because it combines invigorating excerise, outdoor pleasure, and practical utility.

HARRISON GREY FISKE, Editor, "The New York Dramatic Mirror," New York City.

You can buy a Bicycle at almost any price you care to pay, but what's the use? Half the time a cheap wheel is in the repair shop, and when you come to figure it out it's a pretty expensive investment after all. Nor have you enjoyed the comfort of wheeling as it is possible to do to-day with a good wheel.

CLEVELAND BICYCLE

The Good Wheel



Cleveland

The Cleveland sells at a price that covers the making of a thoroughly honest wheel. It is fully guaranteed. The Cleveland is equipped with the very latest of the new inventions that have done so much to make wheeling comfortably pleasant. The Cleveland is greater to-day than it was years ago and then it was considered the best.

THE HYGIENIC CUSHION FRAME.—If there is one invention more than another in the bicycle line that has helped to popularize wheeling it's the Hygienic Cushion Frame, "Makes all roads smooth," is the slogan that carried it to popularity, and it has lived up to the advance notice. The Cushion Frame gives "Pullman Comfort" to bicycling.
