All-Wool and a yard wide

is an expression you often hear nowadays.

This may be true of the goods when you buy them; but very seldom after they have been once or twice washed.

If they are then three-quarters of a yard wide, you can count yourself lucky.

WOOL OAP

washes woolen goods without causing them to shrink.

If you don't believe this, ask us for a free sample cake, use according to directions, and join the thousands of believers.
