The Union Commercial College reopens on Sept 1st. New instructors have been engaged and arrangements made to accommodate the large number of students who have made application. The Commercial department will be under the charge of an experienced Ontario man—who is right up to date. Nothing but the most practical will be introduced. Students who attend here will not be disappointed. They will find everything as represented. The shorthand and typewriting department will have at its head the only verbatim reporter teaching in a business college in P. E. Island. Students will have the advantage of a regular training office—the first and only one ever established here where they will be prepared to do actual work. The work done in this department has been ahead of anything ever done here before. It is intended to make next year's work even better. All know that it is easy to put things in writing and we do not ask the public to accept our statement alone, but would ask them to examine carefully the work done by this institution last year and compare it with that done by others. That's all we ask. We know the result. Write or call for new prospectus. It's worth having.—U. C. COLLEGE.
