No one flour suits everybody alike. It may be that the flour you are now using doesn't altogether please you; in that case you would be wise to make a change. In suggesting

DIAMOND FLOUR

as your next choice, we wish to emphasize that it is a blend of selected Ontario soft wheat and Manitoba hard wheat, and for that reason is very probably the most ideal kind of flour for pastry, biscuits and bread—or, in other words, for general baking use—that can be had.

Your grocer will be glad to supply it.

OLD PORT ELGIN HORSE.

Horsemen throughout the Maritime Provinces will regret to learn of an accident that occurred which necessitated the shooting of Boutelier, one of the gamest horses ever faced a starter, Harry Johnson, who owned and was driving the horse. At the time met a car in a bad corner and in order to avoid a serious accident pulled his horse into the ditch. The horse made a misstep and broke his leg. Mr. Johnson had the horse shot as soon as possible. Boutelier was bred in P. E. I., and came from there to Port Elgin, N. B., where the late Thos. Wood gave him his turf education and was successful in winning many first races. Boutelier had a mark of 2.194.—Post.

A NICE FAKE.

A St. John paper reports that flakes of silver and gold were recently found by a lady in that city in "Acadian soft coal which comes from the mines of Cape Breton." Aside from one or two inaccuracies of some importance the story is probably all right says the Sydney Record. The inaccuracies are these: There is no "Acadian" coal; "Acadia" coal, which, presumably, is meant, is not mined in Cape Breton; gold is never found in coal formations under any circumstances; silver is never found in coal formations. The "gold" in this case is probably the old friend, iron pyrites or "fool's gold."

ISLANDERS IN HONOLULU.

Mr. James Neil McLeod, Orwell, can boast of having two of his stalwart sturdy sons, Mr. Charles W. McLeod and Mr. Theobald MacLeod out in Honolulu, overseers of the Kahuka sugar plantations. Mr. McLeod states as follows Kahuka is 70 miles from Honolulu. The yield of sugar is increasing every year and prices are going up. The Japanese are the only labour that can be depended on as they are active and trustworthy and are very fond of work while the natives are lazy. The Ewa plantation is the most productive in the world with one of the largest plants in existence for the manufacture of sugar. This plantation consists of 5000 acres of cane. It is a corporation of 300,000 stores, twelve locomotives and nine hundred cane cars bring the cane to the mill where it is first weighed and unloaded by machinery 2000 tons every day from which 700 tons of sugar is made. They have on this railroad ten miles of portable track they cut the cane. They have 3000 people on their pay roll, and eight sets of steam plows each set plowing about twelve acres per day. They work 225 head of mules and horses.

WHEN "DESCRIPTION" COMES.

The following incident is true. A wash woman while at work in a Charlottetown home got talking about the war and said: "They want to put Borden out!" "Why is that?" she was asked. "Oh," replied the woman. "They've been paying the soldiers \$1.10 a day and when 'description' comes they will only get thirty-five cents a day!" This thirty-five cents a day yarn is one which certain parties have been spreading.

COMPLAINTS OF SOLDIERS

Sir.—The Military Authorities are very desirous of hearing promptly of complaints of discharged soldiers, and friends or relatives of soldiers, reports of casualties, pay of soldiers, separation allowance, and assigned pay payable to soldiers wives, and kindred subjects, in order that such complaints be inquired into and rectified, if such action is necessary, with the least possible delay. It is, however, impossible to take the necessary steps to rectify errors, unless and until the matter finds its way into official channels, through which only it can be disposed.

The General Officer Commanding, Military District, No. 6, desires to ask your co-operation and would esteem it a courtesy to himself, as well as a public service, if you refer direct to District Headquarters for investigation, any such complaint which may come to your notice. No special form of address is necessary, and any letters addressed "District Headquarters, M. D. No. 5," will invariably find their way into the proper hands. May I bespeak in this matter your sympathetic consideration and action in order that matter affecting soldiers or their relatives or friends may receive in all cases the efficient care which they deserve.

It is not desired by this letter to attempt to limit in any way your discretion in printing complaints which you may deem it in the public interest to publish, but only to point out that by the course indicated, well founded complaints can best and most quickly be remedied, and apparent cases of hardship which are not well founded can be established to be such.

I am, Sir, etc.

ACADIAN TEACHERS' CONVENTION.

The 24th anniversary of the Acadian Teachers' Convention at Tignish on Aug. 23 and 24th was a marked success. Each and every member of the association did their utmost to contribute towards its successful issue.

The programme was as follows: Celebration of High Mass by Rev. F. X. Gallant, Bloomfield. Sermon on the occasion by Rev. Nazaire Poirier, St. Dunstan's College.

Opening speech by the president, Mr. Moses Gallant, Rustico. In a few brief remarks he said that he was proud to have such a large audience, which he thought well ensured success. He invited all teachers to take part in the discussions. Mgr. D. M. MacDonald in a few brief and very appropriate words welcomed each and every member of the association to enjoy the hospitality of his parishioners. The Rev. Pastor wishes them all the success possible.

Reading of the minutes of last convention and report of financial state of the Association.
