GinPills FOR THE KIDNEYS

What They Have Done

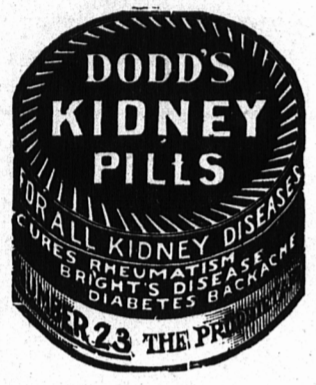

"I suffered a great many years with kidney trouble; tried several remedies, and also doctors' medicine, with no result. Two years ago I read an ad. in a newspaper of 'GIN PILLS FOR THE KIDNEYS,' and sent for two boxes. They did me more good than all the medicine I had ever taken. After I used the first two I sent for two more boxes, and I am satisfied, and also know, that Gin Pills are the best kidney remedy made.

I used to have to rise three or four times in the night; now I can sleep and don't have to get up at all, thanks to GIN PILLS. Am seventy-two years old.

*BANK POSITION.—Miss Amanda McLean, Montague, has accepted a position in the Canadian Bank of Commerce Montague, as junior clerk, taking the place of Mr. Russell McGregor, who enlisted with Captain Dan. *GEORGETOWN TAKEN.—On Wednesday evening last the 8th instant Georgetown was captured by a detachment of sixty men from the 105th Regiment who arrived by train and at once took possession of the strongholds of the town, namely the Town Hall and Court House where they are now comfortably quartered. The "invaders" under the command of Lieutenant Moore met with a warm welcome from the good people of Georgetown who turned out in masses to meet them and presented them with the "freedom of the city." The presence of the soldiers has done much to brighten up times in Georgetown, and the number of men in military costume to be seen on the streets, the sentinels keeping vigilant watch in front of the soldiers quartered on the "pride, pomp and circumstance of glorious war," give to the capital of Kings County a decidedly martial appearance. It is confidently expected that a large addition will soon be made to the number now in training in Georgetown.—&

A Message To Thin Weak Scrawny Folks

An Easy Way to Gain 10 to 30 Pounds of Solid, Healthy, Permanent Flesh.

Thin, nervous, undeveloped men and women everywhere are heard to say, "I can't understand why I do not get fat, I eat plenty of good nourishing food." The reason is just this: You cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fat-making elements of your food instead of passing them out through the body as waste.

What is needed is a means of gently urging the assimilative functions of the stomach and intestines to absorb the oils and fats and hand them over to the blood, where they may reach the starved, shrunken, run-down tissues and build them up. The thin person's body is like a dry sponge—eager and hungry for the fatty materials of which it is being deprived by the failure of the alimentary canal to take them from the food. A splendid way of working to overcome this sinful waste of flesh building elements and to stop the leakage of fats is to try Sargol, the famous flesh building agent that has been so widely sold in America in recent years. Take a little Sargol tablet with every meal and see if your cheeks don't quickly fill out and rolls of firm, healthy flesh form over your body, covering each bony angle and projecting point. All good druggists have Sargol or can get it from their wholesaler, and will refund your money if you are not satisfied with the gain in weight it produces as stated on the guarantee in each large package. It is inexpensive, easy to take and highly efficient.

NOTE—Sargol is recommended only as a flesh builder and while excellent results in cases of nervous indigestion, etc., have been reported, care should be taken about using it unless a gain of weight is desired.

OFFERS HER CASTLE FOR A CANADIAN HOSPITAL

LONDON, March 13.—Another compliment to Canada is the offer made by Premier Asquith's sister-in-law, Mrs. Tennant, of Lympne Castle as a Canadian convalescent hospital. Offers have been made to Mrs. Sandford Flemming to transfer her hospital, now at Selling near Canterbury,

to Lympne (pronounced "Lim") which is near Hythe. The castle is an enormous grey stone structure, two hundred feet above and overlooking the English Channel. The proposal is now receiving the consideration of the director of medical services, Professor Simpson, inventor of the famous Septic Ray, has made an offer to Mrs. Flemming to install a complete "S" Ray apparatus, of the type which is working wonders in cleansing and healing wounds.

CANADIANS IN ACTION ON MARCH 2ND

OTTAWA, March 3.—The mid-night casualty list indicated that part of the Canadian corps was in action on March 2, when the British regained a half mile of trenches from the Germans on the Ypres-Comines front. Several members of the 18th Battalion are reported killed in action or wounded on that date, which bears out the impression in military circles here that the infantry, as well as the artillery, had a share in the victory, as the Canadian corps was known to be operating in that region.
