## UP-TO-DATE DENTISTS

### The Enlarged Berlin Dental Parlors.

### AMONG CANADA'S FINEST

### A Description of The Many Modern Instruments and Appliances.

For the past three years Drs. Maloney and Kennedy have been presenting to the public, testimony of their ability to perform all grades of high-class dentistry in a strictly modern fashion. All who have ever experienced the tortures of the dental chair knows what a boon it is to find skilful and thoroughly reliable Dentists who can alleviate their suffering and remove all cause of fear. The Berlin Dental Parlors of Charlottetown are now probably the finest dental parlors in Canada and excellent dental work of the highest character and of every description is performed there They have lately enlarged their premises by the addition of two large rooms over the store of Prowse Bros. giving them a reception room 40x20 ft. which is fitted and furnished in a manner capable of cheering the thoughts of the most nervous patient. The operating room is a revelation, with its different instruments and appliances, with their bright polish telling of absolute cleanliness, and vouched for by the sterilizer, through which each instrument passes before being used a second time. The famous Berlin Method of Painless Dentistry, as well as the also famous Cataphoric outfit for the same purpose by electricity are seen to advantage in this department. Teeth that are aching, or teeth that have abcessed are treated and filled at one sitting; this is something that is much appreciated by the patrons of the parlors, as under the old treatment a patient was compelled to go day after day, often for months to have a tooth saved. In connection with this class of their work,—treatment of abcessed teeth—the proprietors are sole owners of the "Immediate root filling" and are in negotiation with one of the largest dental firms in the world for the sale of their discovery.

The fact that a large percentage of the Commercial Travellers who visit the city make it a point to wait and have their dental work done by Drs. Maloney and Kennedy is due to their ability to immediately and successfully treat and fill any tooth, no matter how badly decayed, and a tribute to the quality of their Crown and Bridge work which has more than a provincial reputation.

The doctors in the Berlin Dental Parlors practice the saving of teeth, not the extracting of them, as one of them said. "We always advise saving a tooth no matter how badly decayed and only extract when patients insist upon it." The operating department is beautifully fitted up with the celebrated Havrard Dental Chair with the New Clark of Chicago Fountain Spittoon attached To realize the magnificence of this Spittoon one should inspect its working. Highly silver polished. it is self-cleansing with a refreshing veiw always before the patient, the inner bowl being revolved by the force of water from a ½ inch jet carrying away all secretions immediately. Perhaps the main point about the outfit is the Saliva ejector. Persons who have had occasion to undergo dental service will remember the discomfort caused by the extra flow of saliva while the operation was being carried on. This is completely done away with by use of one of the attachments of the Clark spitton. Altogether it is a work of art. It is interesting to the patient by its cleaniness and beauty, and is an attractive outlet for the disappearance of the most objectionable feature of a dental office. Passing from the operating department we enter the extracting room, here is performed the last operation in the life of the condemned tooth. When a badly decayed and troublesome tooth or root must be removed every care is taken to make the operation as pleasant as possible; here we find the extracting chair suitable to all positions and in this department the Berlin Method of painless dentistry is practised, and teeth extracted in a painlessly pleasant way. This room is fitted in a way that gives every comfort and privacy to the patient. No more beneficial advancement in dental art can be made than towards the elimination of pain in operations. Every step in this direction has been eagerly followed, and every apparatus or method of merit has been quickly added to the equipment of the Berlin Dental Parlors.

Entering the Mechanical department we gaze in wonderment at the many seemingly intricate and ingenious instruments and pieces of machinery. Here are manufactured all kinds of artificial teeth. Persons who contemplate wearing artificial substitutes desire to know something of their manufacture. Two methods which in the hands of strictly up-to-date dentists have proven their great value and merit and are known as Crown and Bridge work. Crown work, by the adjustment of a cap or crown of aluminum, gold, porcelain, or combination cap of gold and porcelain converts a useless and decayed tooth into an attractive and serviceable tooth. Bridge-work inserts artificial teeth where several are missing without the use of a plate, anchoring the teeth firmly and supplying a most natural, pleasing and comfortable effect. These branches of the dental fine art represent the more difficult work a dentist is called upon to perform and the last that he learns to do well. When the teeth, nature gives are gone, or from any cause have become useless and inefficient, the comfort, health and appearance depend upon dental skill in constructing and properly fitting an artful substitute. The choice of teeth to produce the most natural expression. The determining the most desirable material for the base or plate in each case. The fitting and construction to determine and effect the more thorough efficiency and comfort are work and study for the combined artist, dentist, and mechanic. A few hours spent in the mechanical department of the Berlin Dental Parlors will give an idea of the great advancement being made in the profession, and also show that neither expense nor trouble is any impediment to the proprietors. in the way of giving their patrons the best to be had in their line of work. Every branch of the work has its place. On one bench we see the ordinary or vulcanite plate in construction, on the next bench we are shown the metal plate. a very interesting piece of work, here we see an aluminum plate undergoing its finishing touches, and by its brightness, thinness and finish one would be almost tempted to have one's teeth extracted for the sake of getting an aluminum plate. Aluminum has lately came into prominence for Plates, owing to its lightness, brightness, cheapness and durability. It never tarnishes, is a good conductor of heat and therefore healthy to wear. Now, we arrive at the bench where the crown and bridge-work is manufactured. Here, indeed, we are interested, to explain the fineness of this work is impossible—a visit is necessary. It is a study to look over the many different pieces of work in course of construction and finished, the all gold work and the combination pieces of porcelain or gold To study the different models seen here one can see that nothing is impossible in this line. Here we see the wonderful electric furnace for the generating of the enormous heat, required in baking porcelain in making crowns and odd teeth, as well as for the making of the continuous gum plates, the finest plate work known to dental service. The polishing and grinding machinery in this department is run by motor power. To one not familiar with the business it is a revelation to spend a few hours in such a completely equipped establishment and we became so interested that only lack of time took us away. The Berlin Dental Parlors are commencing their fourth year among us and the fact that they have been compelled to enlarge their premises to such an extent speaks volumes for the success of their work here and the faithfulness in performing it. Progressiveness they believe in.

Few men understand women. When a woman is weak, sickly, nervous, fretful, irritable and despondent, the average husband imagines that she is simply out of temper. An average husband will probably simply go out and leave her alone for awhile, "to have it out with herself." A bad husband is liable to go off and get drunk. The fact is that the poor wife is suffering from illness of a description that breaks a woman down sooner than any thing else. Her back is weak and aches. Her "sides stitch." She has pains and a dragging sensation in the abdomen. Her appetite is touchy and she suffers from nausea. She has sick headaches, giddiness, dizziness, cold chills, flushings of heat, shortness of breath, palpitation. disturbed sleep, frightful dreams, irregularities and nervous and trembling sensations. Her pain-racked nerves are a continual torture.

A woman in this condition is suffering from weakness and disease of the delicate and important organs concerned in wifehood and motherhood. Dr. Pierce's Favorite Prescription makes these organs strong and well. It allays inflammation, heals ulceration and soothes pain. It has transformed thousands of sickly, nervous, petulant, childless and unhappy women into happy, healthy, helpful, amiable wives and mothers. It banishes the discomforts of the period of prospective maternity and makes baby's advent easy and almost painless. Good medicine dealers sell it and an honest druggist does not try to urge upon you an inferior substitute for a little extra profit.

Dr. Pierce's Common Sense Medical Adviser, a 1008-page home doctor-book, paper-covered, sent for 31 one-cent stamps, to cover customs and mailing only, or French cloth binding 50 stamps. Address Dr. R.V. Pierce, Buffalo, N. Y.

## A BRAVE WOMAN.

### How a Drunken Husband Was Made a Sober Man by a Determined Wife.

A PATHETIC LETTER.

She writes:—"I had for a long time been thinking of trying the Samaria Prescription treatment on my husband for his drinking habits, but I was afraid he would discover that I was giving him medicine, and the thought unnerved me. I hesitated for nearly a week, but one day when he came home very much intoxicated and his week's salary nearly all spent, I threw off all fear and determined to make an effort to save our home from the ruin I saw coming, at all hazards. I sent for your Samaria Prescription and put it in his coffee as directed next morning and watched and prayed for the result. At noon I gave him more and also at supper. He never suspected a thing, and I then boldly kept right on giving it regularly, as I had discovered something that set every nerve in my body tingling with hope and happiness, and I could see a bright future spread out before me—a peaceful, happy home, a share in the good things of life, an attentive, loving husband, comforts, and everything else dear to a woman's heart, for my husband had told me that whiskey was vile stuff and he was taking a dislike to it. It was only too true, for before I had given him the full course he had stopped drinking altogether, but I kept giving the medicine till it was gone, and then sent for another lot to have on hand if he should relapse, as he had done from his promises before. He never has, and I am writing you this letter to tell you how thankful I am. I honestly believe it will cure the worst cases."

A pamphlet in plain, sealed envelope, sent free, giving testimonials and full information, with directions how to take or administer Samaria Prescription. Correspondence considered sacredly confidential. Address The Samaria Remedy Co., Jordan street, Toronto, Ont.

## REV. A. B. SIMPSON'S ANNUAL HARVEST.

### This Year's Collection for the Heathen Yields $68,000—Jewelry, Coats and Vests.

NEW YORK, Oct. 16.—Sixty-eight thousand dollars was raised in Carnegie Hall for the heathen yesterday, by Rev. A. B. Simpson.

So spirited was the desire to contribute that women threw in valuable jewelry and men coats and vests.

Mr. Simpson is a Presbyterian and of the Evangelical Alliance. Once a year he holds a series of meetings in New York and by emotional addresses rouses his hearers to a high pitch and they pile money, watches, jewelry, rich clothing and other valuables within the altar. Rev. Mr. Simpson is a Canadian.

## MARRIED.

On 11th Oct John Currie and Barbare Pickering, both of Clifton, were married by Rev. A. Sterling.

## DIED.

At Kinross Oct., 17th inst, Alexander Cameron, aged 3 months and 2 days, beloved child of Alexander J and Christy McLeod.

## MR. JOHN R. SMITH,

### A well known gentleman of Lake Stream, N.B., speaks willingly of the good effects of Laxa-Liver Pills.

Week by week and month by month the demand for Laxa-Liver Pills steadily increases.

The old-fashioned, nauseating, griping purgatives are being rapidly superseded by these easy-acting, non-irritating little fellows.

If you're troubled with biliousness, dyspepsia, sick headache, constipation, liver complaint, muddy complexion, blotches or pimples—just take a Laxa Liver Pill or two before retiring—

They'll work while you sleep without a gripe or pain—make you feel better in the morning.

Mr. John R. Smith, Lake Stream, Kent Co., N.B., says: "From personal experience I willingly testify to the good effects derived from the use of Laxa-Liver Pills for sick headache and constipation."

When you find Laxa-Liver Pills do you good, do not hesitate to recommend them to your friends and neighbors, as a reliable remedy deserves to be widely known. Sold by all druggists at 25c. a bottle or 5 for $1.00.

## P. E. I. RAILWAY

Trains are run by Eastern Standard Time.

D. POTTINGER. Gen. Man. Can. Gov't Rys. Moncton, N.

G. A. SHARP Superintendent. P. E. I. R. Charlottetown Oct. 10 1899.

## Everybody Should Read Something!

And I can supply EVERY BODY with SOMETHING to read.

I keep the latest New York, Boston, Montreal, St. John, Halifax Ch'town Papers and Magazines.

Also the nicest and tastiest Bananas, Oranges, Lemons, Confectionery, Tea, Sugar, etc in the city.

## R. H. MASON,

City Hotel Corner Opposite R. C. Cathedral.

## NOTICE

I hereby give notice that I require all persons indebted to me, whether for book account, judgement, promissory note or otherwise, to make immediate payment of the same to Messrs McLeod, Morson McQuarrie, solicitors, Charlottetown, whom I have authorized to grant receipts therefor.

I hereby offer for sale my premises at Morell, containing 56 acres, about 16 acres of which are under cultivation. The remainder is covered with a second growth of soft wood. The buildings are in fare condition, new sills having been placed thereunder a few years ago.

Dated this 6th day of October, 1899

WILLIAM STERNS.

Oct. 19 1899 [illegible]

## LANCASHIRE Fire Insurance Company OF ENGLAND.

This Company is prepared to take Fire Risks on Property in Prince Edward Island at very moderate Rates of Premium.—Persons having property to insure will find it very much to their advantage to apply to the undersigned for quotations of Rates. Unscrupulous Agents are endeavoring to persuade persons from insuring in the "Lancashire" by circulating a report that the company never pays its Losses.—This gives us the opportunity of stating that during the Twenty-Five Years in which the "Lancashire" has been operating in Maritime Provinces it *has never had a Law Suit therein*, and further more that on the occasion of the Great Fire of 1877 in St. John N.B. the "Lancashire" was the first Company to complete payment of its Losses, having paid, through us, nearly a Half a Million of Dollars in Claims, within 28 days after the fire. (See St. John Daily Telegraph, 19th July, 1877.)

The only outstanding Losses which we have in our books are for Fire occuring within the last few weeks; and which will be all paid before 24th inst.

It is to be regretted that the representative of any Company should consider it necessary to resort to incorrect statements in the hope of being able to retain its business at Rates higher than those which the Lancashire is prepared to charge.

J. M. & C. W. HOPE GRANT. Gen. Agents for Maritime Province.

J. J. JOHNSTON, Barrister at Law, Special Agent Charlottetown P. E. Island

Oct. 20th.
