DEATHS

GILLIS.—At Indian River on April 29th, John Gillis. Funeral Wednesday morning at nine o'clock.

BELL.—In Lawrence, Mass., April 26 Charles H. Bell, aged 61 years, formerly of Charlottetown.

DELANEY.—At City Hospital April 30, 1918, Miss Catherine Delaney, aged 76. Funeral on Thursday afternoon from 31 Grafton Street to Railway Station, Interment at Hope River.

Miller's Worm Powders do not need the after-help of castor oil or any other purgative to complete their thoroughness, because they are thorough in themselves. One dose of them and they will be found palatable by all children, will end the worm trouble by making the stomach and bowels untenable to the parasites. And not only this but the powders, will be certain to exert most beneficial influences in the digestive organs.

CASCO

A Record 2.22 2001
48108

As each year brings out a new crop of colts, all must admit that "breeding will tell." Bingara while not credited with a fast mark, has established himself as a premier sire of Speed, and the answer is breeding. It is an established fact that if a sire has colt trotting propensities on both sides, he will beget colt trotters.

Casco A, himself a natural trotting bred pacer, has the great gift to bestow his get, viz. pronounced trotting propensities inherited through generations, through both his sire and dam.

His sire, Bing-n 2.06 1/2 is too well known to require words. Now consider this dam, Pearly Allendorf by Allendorf with a three year old mark of 2.20 son of Onward the "Bul' Dog" race horse. Then George Wilkes and Hambeltonia 10. So we could find the two greatest family funders of all time to be blended in Casco A.

Breeders do not bank on a horse who has an extremely fast record unless he can back it up with the bloodlines. When we study this phase and act, we will bring the status of our horse business to a front rank in a few generations.

While a sincere admirer of the trotting horse, the owner does not campaign, and this is probably unfortunate for racing interests, as Casco would undoubtedly be a feature, but any one is invited to call and have a drive behind him, and be shown that all statements made, can be made good.

Casco A will make the season of 1918 at the owners stables Clifton New London. Breeders from a distance can be met by arranging by telephone, but will be at home morning and evening. Terms at home \$5 and \$8.

Synopsis of Canadian Northwest Land Regulations

THE sole head of a family or any male over eighteen years of age, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency but not Sub-Agency on certain conditions.

Qualifications—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$100 per acre.

Duties—Six months residence in each of three years earning homestead patent; also to clear extra cultivation, pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$100 per acre. Duties—Must reside six months in each of three years, cultivate 20 acres and erect a house worth \$500.

The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

NO MORE KIDNEY TROUBLE

Since He Commenced to Take "Fruit-a-lives"

78 LEES AVENUE, OTTAWA, ONT.
"Three years ago, I began to feel run-down and tired, and suffered very much from Liver and Kidney Trouble. Having read of 'Fruit-a-lives', I thought I would try them. The result was surprising. I have not had an hour's sickness since I commenced using 'Fruit-a-lives', and I know now what I have not known for a good many years—that is, the blessing of a healthy body and clear thinking brain!"

War Garden Bulletin

Practical Daily Guide for Vacant Lot and Backyard Gardeners Enlisted in Greater Production Campaign

Issued by the Canada Food Board in collaboration with experts on the staff of the Dominion Experimental Farm

TOOLS

The spade, hoe, garden rake, trowel and digging fork are the chief tools needed in gardening. The Dutch hoe, or what is called in the United States the scumler hoe, is also useful but is not absolutely necessary. Narrow hoes and rakes are best for small gardens. In stiff clays use the hoe after digging. In soft soils use the spade to break the lumps. Then the rake can be used advantageously. Every tool should be ready to use at a moment's notice. Have a place to keep them and when you are through with them see that you put them away in the proper place. Provide a box of soft grease like axle grease for rubbing over the blades of the spade and the hoe, and the working parts of the tools most frequently used. Rust wears out more tools than use and makes work more laborious. Either a hose or watering can is an essential part of the gardening equipment.

The Food Board, in conjunction with officials of the Experimental Farm, Ottawa, proposes to give the amateur gardeners of Canada a daily garden bulletin which will contain some useful hints for them to follow. It must be remembered that in some districts the season is ahead of others and this must be taken into account in following the daily bulletins.

As a vermicide there is no preparation that equals Mother Graves' Worm Exterminator. It has saved the lives of countless children.

IN MEMORIAM

MRS. JAME HEGARTY

On the 18th of April, 1918, after a protracted illness of several months borne with resignation to God's Holy Will, Mrs. James Hegarty (nee Mary Wood) of Fort Augustus, passed to her eternal reward. Of a loving, kind disposition, she endeared herself to all who enjoyed her acquaintance. There was no exception to the esteem in which she was held by every one in the community. During her trying sickness, she had the consolation of frequent visits from her pastor, who administered to her the last sacraments a short time before her spirit returned to Him Who gave her life, and the grace of a happy death. On Saturday her funeral was largely attended by relatives and friends. Service in the church and at the grave was performed by her pastor, the Rev. A. J. McDonald. She is survived by a husband and an adopted son, and a brother and sister in Vernon River. May her soul rest in peace.

ARGENTINE TALKING FOOD EMBARGO

BUENOS AIRES, April 29.—The Argentinian cabinet held a special meeting last night to consider curtailing and probably prohibiting the export of all foodstuffs in consequence of the increased cost of living in Argentina. It was decided to make no final decision in the matter until Finance Minister Salaberry has submitted a report which he was requested to make.

IN THE LAND OF COMMON SENSE

Says it is suicide to cut corn, and tells how they lift right out

You simply say to the drug store man, "Give me a quarter of an ounce of freezone." This will cost very little but is sufficient to remove every hard or soft corn from one's feet.

A few drops applied directly upon a tender, aching corn should relieve the soreness instantly, and soon the entire corn, root and all, can be lifted out with the fingers without pain.

This new way to rid one's feet of corns was introduced by a Cincinnati man, who says that while freezone is sticky it dries in a moment, and seems to simply shrivel up the corn without inflaming or even irritating the surrounding tissue or skin.

Don't let father die from infection of lockjaw from whittling at his corns, but cut this out and make him try it.

There is no poisonous ingredient in Holloway's Corn Cure, and it can be used without danger of injury.
