—PUNISH PEEPERS In Nudist Camp

LONDON, Dec. 1.—(CP)—Dr. Norman Haire, director of the St. Edmund Society, has a new cure for Peeping Toms and persons given to exhibitionism—send them to nudist camps.

Dr. Haire declared: "Since there are quite a lot of people far more than you hear of in the papers, who have these desires, why are we not doing a very good thing to impose sentences of regular attendance at nudist camps. I would have a very good effect on their abnormality."

However, at the conference Dr. Haire headed, Hugh Shaylor who answered the question "Why are we not doing this?" The initial impulse toward nudism is very largely sexual curiosity, or, in a lesser degree, sexual exhibitionism.

Mrs. Denise Bedfield, who spoke of "nudism in practice" told the conference: "In the light of my own experience, it is a very good thing to have a nudist camp where the sexual side of nudism is really of the least importance."

"Real nudists do not go for sexual excitement because they know it does not achieve that purpose. We have a membership of 500 people and it is very difficult to maintain that at over seven years."

William Welby said many who knew nothing of the nudist movement appeared to be impressed by the purpose of observing sexual characteristics of others, which is particularly desirable that children should be brought up without false shame.

TRAGEDY

(Continued from page 1)

Lake City. Witnesses Tragedy June Wynn, 16, who was standing in the doorway of her home 300 yards from a hospital building, said she saw the bus and the train coming and wondered whether the bus was going to stop. It did stop, and then pulled on to the track directly in front of the train.

"I heard the crash, then screams. When the front of the train got opposite me, I could see the frame of the bus still on the engine."

"It was foggy and snowing. I wouldn't have been able to see the train or the bus either if they both hadn't had their lights on. I did not hear the train whistle."

Late today the death list stood at 21 with, said a hospital physician, "possibly four or five more bodies to be assembled from the torn remains gathered in boxes and canvas sacks."

Of the survivors admitted at the hospital, one died, five were sent home after first aid treatment and 14 remained at the hospital.

Governor Henry H. Blood issued a proclamation of sympathy for the grief-stricken families. Separate state and county investigations were ordered.

In announcing the new price schedules for milk, the announcement of the commission states that the plan followed is in accordance with that which has been in effect for some years in the cities in all parts of Canada with the exception of Prince Edward Island. The plan of milk control now being standard here has been in operation in the western provinces for the past six or seven years, and in Ontario and Quebec, for the past four or five years.

Milk shipped into Halifax area will be paid for on a buterfat basis, and in accordance with its weight.

This price set by the commission is \$2.00 per cwt. for milk testing 3.7 per cent buterfat, and each tenth per cent above that three cents per cwt. will be added to the price. For milk testing below the standard measure, a corresponding reduction in price will be made.

The standard thus set for Halifax is one of the highest now in effect anywhere in the United Kingdom. In Quebec, the standard used is 3.25 per cent in one city and 3.50 per cent in another. In Ontario it is 3.4 per cent.

Experience has shown that the general test of milk shipped to markets runs from three to five-tenths above the standard of measurement used.

This price represents an increase in the price to producers of milk. The prices which have been prevailing in the past few years here have been variable and not set according to any recognized standards.

The prices to farmers under the new regulations will now be set on one-quarter to three-quarters of a cent per quart more than those which have been prevailing for the past five or six years, with the possible exception of 1932.

It was predicted new defence measures would include building important factories in the "distressed areas" as an aid in wiping them out.

Libya and its financial autonomy, and granted Italo-Libyan citizens the labor organization and contract privileges enjoyed by Italian workers.

By making the Libyan Moslems limited citizens of the Italian Kingdom, Il Duce will be able to recruit them for the Italian Army and still insist he has not resorted to mobilization of overseas native populations.

Referring to "Italy's claims," the newspaper Lavoro Fascista today said it was not bound by the discretion restricting Count Ciano and could therefore speak out against the new "justice" of French control over Tunisia. If France wants to be the friend of Italy, this wrong must be righted, it said.

In the Tribune, Maurizio Maraviglia asked whether the struggle had been terminated between "international privileges and the aspirations toward international equality; between legality and international justice."

Ciano, the Tribune said, did not answer this question in the chamber of agriculture but sought to give assurances that, come what may, the Fascist Government will defend with firmness the "inflexible interests and aspirations of the Italian people."

Rumanian Nazis Stage Demonstration

BUDAPEST, Dec. 1.—(AP)—Police used the butts of their rifles tonight to scatter a demonstration of followers of Ferenc Szalasi, imprisoned Hungarian Nazi leader, before the National Theatre.

Order was restored after several hundred persons were arrested. A few were injured in the demonstration and several pistol shots were fired wildly.

Szalasi, a major in the Great War, last July 6 began a three-year term in prison for "incitement."

Meanwhile there was growing evidence that, though Rumania was explaining yesterday's killing of Corneliu Zelea Codreanu, Iron Guard Chief, and 13 followers as a domestic affair, other nations were taking more than a casual interest in it.

The Italian press was aroused over the killing of an avowed Fascist. It featured headlines saying Codreanu and his followers were "barbarously massacred by Rumanian gendarmes."

In Germany, the Westfaelische Nachrichten hailed the Iron Guard leader as a martyr and hero.

Shortly after he was taken in custody, Buckner, 31, was permitted to talk with Miss Young in Hollywood by long distance telephone.

Commission Hearings Concluded

OTTAWA, Dec. 1.—(CP)—The Dominion went to administer all relief and social services, the growing pain of losses to investors and creditors of Western Canada could be avoided—and no great increase in federal taxation would be necessary. Hon. Stuart G. Garson, Manitoba provincial treasurer, submitted today as the public sitting of the Royal Commission on Dominion-Provincial Relations ended.

Ontario taxpayers were contributing substantially now to federal taxes from which western relief was being financed, he said. If relief administration were nationalized, they would also contribute even more than they had in the past by increased "indirect taxes" as bondholders, shareholders, insurance policy holders.

Equally important to an effective adjustment of Western Provincial finances, Mr. Garson said, was prompt dominion assistance in a general refunding of provincial debt. Manitoba proposed refunding of its debt by the government at 3 1/4 per cent, emulating the dominion's success in obtaining lower interest rates.

To do nothing about this provincial debt situation is the most unsound policy that Canada can follow at this time," he told the Commission.

The supplementary sittings of the Commission concluded today one year and two days after its first public sittings opened at Winnipeg.
