Hanson Charges Millions Wasted At Pennfield, N.B.

OTTAWA, May 26—(CP)—Conservative House Leader Hanson today told the House of Commons today that "millions" had been spent on the airport at Pennfield, N. B., and now it is to be abandoned. He was questioning the Government on war expenditures and possible waste of public money, and complaining that the members were not being told enough of the facts to form a conclusion. "I venture to say that 25 cents out of every dollar—certainly was true in the early stages of the war—paid for war expenditures was absolutely wasted," he declared.

"Speed was the only thing. And why was speed necessary? Because this Government in the first nine months of the war did absolutely nothing to meet the situation. They were going to have a moderate war. A moderate war! ... and he went home with me on they were not promised that Canada's contribution would be a moderate contribution."

Mr. Hanson said that when the Government, early in the war proposed building an airport at Pennfield the engineers sent to survey the site said it was not suitable because of atmospheric conditions. "Notwithstanding the adverse reports, a decision was made that there should be an airport at Pennfield. A contractor was brought here from New Brunswick ... and he went home with me on the train one day and he had a smile like the smile on the face of the tiger, after he got the contract at his own price."

"Many millions have been spent on that airport and now it is to be abandoned. "How many millions?" a member asked. "I do not know. I want to know," Mr. Hanson replied. "I am told that it is now to be abandoned; that remains to be seen. "At any rate, the school that there has been moved out of stock and barrel. I saw them going myself." He said it would cost thousands of dollars to move the school to Rivers, Man. "This is the kind of thing that

the people do not understand and that they want explained. And they want the truth."

(Air Minister Power told the House several weeks ago, in reply to questions, that the school at Pennfield Ridge was being transferred to Rivers, Man. He added that the Pennfield Ridge plant would continue to be used.)

Estimates Showed No Evidence of Economy at Ottawa

OTTAWA, May 26—(CP)—Conservative House Leader Hanson contended in the House of Commons today that the press of Canada had not given a correct report on the figures contained in the main estimates tabled in the House on Feb. 2.

"During a debate on the Interim supply bill Mr. Hanson said after the main estimates were tabled the claim was headlined in the press that there had been a reduction in the peacetime expenditure."

"The faulty statement to which Mr. Hanson apparently referred resulted from a misstatement in one of several Canadian Press stories on the estimates. The error was discovered after publication in morning papers of Feb. 21 and corrected at once. Mr. Hanson said a reduction of \$6,215,457 in non-war expenditures was shown in the estimates. This reduction was blazoned in headlines all across the country and it was suggested that the Government was performing miracles in retrenchment. "As a matter of fact," he continued, "a clear examination of the position reveals the exact opposite. However, that was the impression which went out to the country and hitherto it has not been contradicted or exposed as a most misleading one."

"The main estimates for this year actually showed an increase over the main estimates for the year before. The estimates this year were made to show a reduction by lumping together the main estimates last year and three doses of supplementary estimates which followed. The main estimates and comparing those figures with only the main estimates this year. In summarizing the main estimates the Canadian Press in its

MAKES GRAND RECORD — The Edmonton Bulletin of May 8th reports that F. J. John, John Leslie Arnett, son of Mr. and Mrs. J. Leslie Arnett, 1027, 123 St. who plotted one of the R. C. A. F. "Demon Striker" aircraft that scored hits on several of the enemy ships moving along the Netherlands coast last night, as announced by the Air Ministry in London on Saturday, P. O. Jack Arnett received part of his training in Charlottetown last year and his father is a cousin of Mr. Frank Arnett, Summerside, and brother of Mrs. Jackson Simpson, Belmont.

PRETTY MAY WEDDING — Spring flowers and lighted candles decorated the altar of St. Anthony's Church, Montreal, when Mary Evelyn, daughter of Mr. and Mrs. Elias Paquette, became the bride of Leading-Aircraftman John Gilbert Timmins, R. C. A. F. Toronto, son of Mr. and Mrs. J. D. Timmins. Mr. Stewart, Rev. Father O'Brien performed the ceremony and Miss Mary O'Shea sang Ave Maria, and Just For Today. The bride arrived in marriage by Mr. Joseph Benoit of Cambridge, Mass., and wore a floor-length dress of white sheer over taffeta, with full skirt, having a fitted lace jacket, with high neck and long sleeves, ending in points over her hands. Her finger-tip veil was held in place by a coronet of lilies. She carried a bouquet of Tall man roses. The bride's attendant, Miss Jean Gallant of Restico were a floor-length dress of white sheer over taffeta made on princess lines, with matching flower hat and shoulder veil, carrying a bouquet of sweet peas. Leading Aircraftman J. H. Timmins was best man for his brother. A reception for the friends of the bride couple was held at the Windsor Hotel, there, pink and white carnations formed the decoration. Following the reception, Mr. and Mrs. J. G. Timmins left on a wedding trip to Niagara Falls. The bride travelled in a brown suit, brown hat with nose-veil and yellow accessories. They will reside in Toronto.

Miss Marjory Dwyer leaves this morning for Toronto where she will be attached to the R. C. A. F. Women's Division as clerk stenographer.

Winnipeg, Man., May 26. — Dry cool weather has featured the past week which has permitted rapid advance in spring work. Wheat seeding will be practically completed this week and all seed should be in the ground by the end of May, according to the weekly crop reports of the Department of Agriculture of the Canadian National Railways.

Cool weather has retarded the growth and heavy frosts have set back crops in Saskatchewan and Alberta with some re-seeding of coarse grains forecast. In a vast triangle extending west from Saskatoon to Edmonton and Calgary, immediate need of moisture was comes progressively more urgent to the west and most of central Alberta reports germination of grain affected.

In Manitoba, with the exception of eastern districts, wheat seeding will be completed this week and all seed should be in the ground by the end of May. Weather has remained cool and crops are slow in coming up. There is plenty of moisture in the eastern half of the province but in the west and northwest, the ground is drying fast and rains will be needed soon.

In Saskatchewan, cool, dry weather has prevailed. Spring work is well advanced with wheat seeding practically completed and most of the coarse grains will be in the ground by the end of May. Severe frosts have been recorded at many points which have frozen back wheat and barley. However, in many districts, grain is not yet appearing above the ground which will limit frost damage. Some re-seeding of coarse grains may be necessary. General rains would be beneficial at this time with no urgency existing in the extreme west-central portions.

Many points in Alberta are in urgent need of rain and spotty germination is general in the central sections. A heavy frost on May 14th has set back crops and considerable re-seeding of coarse grains will be necessary. This is not true in the more northern sections, however, as grain was not above ground. Wheat seeding will be completed in Alberta this week and all seed should be in the ground by the end of May. In the Peace River district wheat seeding is practically completed and coarse grains about 70 per cent in the ground under conditions which are dry with some heavy frosts which did only slight damage.

WASHINGTON, May 26 — (AP) — An apparent disagreement between President Roosevelt and war agency heads on the autoneous of the rubber ration in the United States arose today, when the President saying he thought tire substitutes could be developed before the tires now in use wear out. There was no mention in the situation to get excited about. Mr. Roosevelt added, speaking of a situation which was described as "a few days ago in a joint statement" by Donald M. Nelson, head of the war production board; Leonard Henderson, the price administrator; Joseph B. Eastman, transportation director; and Arthur B. Newhall, rubber coordinator. The agencies involved are at work on plans for nation-wide rationing — now confined to the East — and Mr. Roosevelt's statement of today called a round of hurried conferences. The rationing has been projected as a means of saving rubber.

ROOSEVELT Has Hopes of Tire Substitutes

SAME FLAVOUR! SAME FRESHNESS! SAME WHOLE WHEAT GOODNESS!

Only the trade mark has changed!

When we introduced this tasty, whole wheat cereal, we decided to let it make its own friends on its own merits. New Cubes has won its own way in the world. It has become a favourite on Canadian breakfast tables. So now, under its new trade mark, "Shreddies", we receive it as a member of the Shredded Wheat family. It is made in the Shredded Wheat bakeries at Niagara Falls.

Only the trade mark and the package have changed. This ready-to-eat spoon-size cereal has that same tasty flavour of mellow malt blended with the nut-like goodness of whole wheat. Get a package of "Shreddies" from your grocer today.

Contains the precious WHEAT GERM. The need for an adequate supply of Vitamin B1 in the diet is generally recognized. Wheat germ is a proven source of Vitamin B1. "Shreddies" are made from whole wheat in which the wheat germ is retained. "SHREDDIES" is a registered trade mark owned in Canada by the Canadian Shredded Wheat Company Limited.

HOUSE OF HATE

By Isabel Garland

(Continued from page 2) Estelle threw back her head and laughed. "Good work, 3000! You didn't waste any time, did you?" "Just a minute," it was Alan's steady voice. "That will be my last night before I take it to bed," said Advent suddenly. "She made me write my name on it as I found it on her desk," said Paul. "And I would like you to note particularly the wording, 'hourly terror of my life.' Do you know what that means?" He allowed his eyes to pass from one to another around the table. No one spoke. No one moved. "My mother did not die a natural death," he said. "She was murdered!" (To be Continued)

Need Practical Solution To Present Problem

WOLFVILLE, N. S., May 26 — (CP) — An "appalling contradiction in human existence" confronts university graduates, G. W. Spinye today as he was awarded the degree of doctor of Civil Laws at the convocation ceremony of Acadia University.

Graduates were devoting themselves "to ideals of culture, health and reverence of personality," he said, "while our civilization involves us in war and the destruction of lives. How can we construct out of war and peace together?" Mr. Spinye, who is joint general manager of the bank of Montreal and chairman of the National War Finance committee, emphasized the urgency of war demands. "We cannot wait for an intellectual solution," he declared. "We have an immediate practical problem on our hands."

The Montreal business man was the only recipient of an honorary degree at the college closing. In all, 92 degrees and diplomas were conferred by Dr. F. W. Patterson, university president.

110,000 Gallons Of Gas From N.B. OTTAWA, May 26—(CP)—Annual gasoline production of the New Brunswick Gas and Oil Field Ltd. is slightly more than 110,000 gallons, Hon. J. H. King, acting Senate leader, said in a reply given in the upper chamber tonight to a question by Senator C. W. Robinson (Lib. New Brunswick). The firm is primarily engaged in producing natural gas and its gasoline production is sold largely for industrial and tractor use with a surplus of approximately 35,000 gallons a year marketed to motorists through two service stations. These stations were closed because the company did not comply with the grading of gasoline required by oil control regulations. The company was not prohibited from selling surplus gasoline. You own industrial or farm use, Senator King said.

Takes Lower Rank To Go Overseas

AN EAST COAST CANADIAN PORT, May 26 — (CP) — Lieut. H. T. Fowler of Toronto is a little fellow with a lot of what it takes to make a soldier — and he's been one for some 30 years. Sealing with the latest group of Canadians to arrive safely in Britain. The chunky chap was the happiest man in the movement though fellow officers said he had to drop from the ranks of lieutenant Colonel in order to make the trip. Asked about the matter, Fowler said, "Ottawa thought I was too old to go overseas — didn't like the color of my eyes or something — and suggested I be retired. But I fooled them and thanks to a little of this and that managed to get an overseas draft as a lieutenant."

LEGION CONVENTION

WINNIPEG, May 26—(CP)—The Canadian Legion convention here today unanimously demanded that the Federal Government carry out a total war effort by putting its effect "immediately" all necessary compulsory measures, including conscription of manpower for overseas service.

Unanimous approval also was given the rehabilitation report which will guide the Dominion command's committee in making representation to the Federal Government regarding re-establishment of veterans of this war after victory has been won. During the busy session of the ninth biennial convention, delegates heard Maj.-Gen. L. R. Leche, associate deputy minister of the department of national war services, state that "Canada must strip for action."

LONG WAY ROUND

The San Juan River in Utah flows 8 1/2 miles to advance one "linear mile."
