ST. PETERS ANNUAL MEETING—The annual meeting of the congregation of Saint Peter's Cathedral was held on Monday evening with a representative number present. The report of the priest incumbent showed a slight increase in the membership but otherwise the Church is flourishing. The total amount raised was over \$7000. Mr. G. F. Fuller was re-elected treasurer; A. B. Cosh and H. S. Stewart, wardens; W. G. Hogg and Geo. V. Moore, delegates to diocesan synod and Mr. Walter Hyndman and H. M. Simpson, substitutes. A vote of thanks was tendered to the officers for their work during the past year, and to the ladies of the congregation for their great efforts for the good of the Church. Mrs. E. A. Foster thanked the meeting on behalf of the ladies. Canon Malone then paid a tribute to the memory of the late W. L. Coffin who for many years was a most earnest and willing worker in the Church holding during his lifetime a great many of the most important lay appointments, and also to the late Rev. W. B. King (Basil King) who by his generosity greatly assisted the Church in its various undertakings. Mr. E. A. Foster then moved that the congregation express its appreciation of the excellent work of the priest incumbent, this was seconded by Geo. V. Moore and carried by a standing vote. No further business offering the meeting adjourned.

STEAMSHIP AND AIRCRAFT MOVEMENTS

The car-ferry left Borden yesterday at 9.05 a. m., arriving at Tormentine at 12.26 p. m. Here she awaited the arrival of train no. 42, from St. John, which should have arrived at Tormentine at 4.35, permitting the car-ferry to sail at 2.50. The delay was on account of the derailment of freight train north of Moncton. This delayed the Maritime express.

The car-ferry left Tormentine at 5.13 p. m. and arrived at Borden at 7.05 p. m. The mail train connecting with her reached the city at 9.35 p. m. Thus she made only one round trip yesterday, compared with two the day before, on which occasion she left Tormentine on her second trip at 9.47 and did not dock at Borden until 7.45 a. m. yesterday.

The freight embargo is lifted, and the car-ferry will carry on until her trip with the Stanley or other ship. When this will take place it is not possible, at this writing, to say.

The ice conditions are reported very heavy for three or four miles off Borden, and have been so for the last four days. Passengers and others state that she is greatly hampered by the loss of her propeller in the Strait. Last Saturday evening, for instance, after she had arrived at a point sixty yards off the end of the pier it took nearly an hour and a half to dock.

Information received from post office officials is to the effect that the second plane, which arrived at Moncton on Monday was slightly damaged by the high wind after landing on glare ice, and as a consequence would not be able to fly until today at the earliest.

The mail was not held over at Moncton, but was forwarded by the usual train (no. 42) and arrived here last night at 9.35.

Bulky mail will not be carried, air mail service being confined to first class mail, and daily papers to subscribers only.

As to the Stanley, at 3.30 p. m. Monday she was reported as going South through the Strait of Canso. Later advice is to the effect that she was reported yesterday afternoon off Habitant Bay, N. S., not far from the Strait of Canso. Her exact position seems to be indefinite.

The plane which made the flight here on Sunday, and which returned to Moncton on Monday at 1 p. m., will leave Moncton at 10 a. m. today for Charlottetown, with mail. On her return she will call at Summerside to put down and take up mail matter.

The Fairchild Cabin Monoplane, which has a capacity for 800 lbs., of cargo, is according to latest advice, "leave Moncton for Charlottetown about noon today. She will follow the same route as the first plane. It is understood, however, that as to the service the Stanley will maintain at the Cape, opinions differ. Some feel that if it was true that the car-ferry were only to be off a week, it would be better to have S. S. Stanley operate between Borden and Tormentine. But if the car-ferry is to be delayed for any considerable period of time, it is doubtful if she would be able to carry on.

Mr. S. A. Macdonald was of the opinion that as the apes is the log-rope for the Stanley to operate. This situation only went to confirm the predictions made by successive Boards of Trade in the last few years. A great many people have been led to believe that an accident to the Winter steamers was so remote as to be beyond the realm of possibility. It also had the effect of cancelling the double service—such as it was—which had been placed in operation. Having the Stanley placed between Borden and Tormentine would have less tendency to distract attention from the Stanley service depended largely on weather conditions. If these were severe, her trips would be much interrupted. In any event the whole freight traffic between the Island and the Mainland was tied up.

FUNERAL TODAY—The funeral of the late Mr. James Simpson, who died on January 21st, will take place from his home, Bayview, on Wednesday the 23rd inst., at 2 p. m.

S. P. C. A. ANNUAL MEETING TONIGHT—Much interest is being manifested in the annual meeting of The Society for the Prevention of Cruelty to Animals which takes place in the City Hall at eight o'clock. Reports of the President, Secretary, Inspector will be heard after which much discussion will take place.

NOW IN PARIS—Lieutenant Governor Heartz has received a cable stating that Mrs. Heartz and Miss Ruth had arrived in Paris on Sunday night. They had a most enjoyable fifteen day personally conducted auto and rail trip through the Riviera, Genoa, Milan, Venice, where they spent three days, the Italian lakes and Switzerland. They will be three weeks in Paris before going to the British Isles. They are expected home early in April.

Crystals Defeat Victorias 5 to 4

BY "TEC"

Crystals, 5; Victorias, 4.

Working smoothly on a fast sheet of ice, which by the way seemed to be to their liking the Crystals of Summerside demonstrated to a large crowd of fans at the Arena last night that they have a sextette that's going to take a lot of licking before being tossed out in the race for the Island hockey championship.

Working well within themselves in every period, and being expertly handled by coach Roy Prowse they breezed through on the top side of a 5 to 4 score.

Only once did the Victorias seriously threaten the Summerside string of unbroken victories, this being in the opening moments of the second period when they jumped into a 3 to 2 lead, to be turned back ten seconds later to a tying count. From then on Crystals were never headed.

Crystals were without the services of shilly-hockey champion and Colings, the former being confined to his home with flu; the latter was replaced by Phillips in the nets who stopped an excellent game, turning aside 31 shots to his opponent goalies' 13.

The style of hockey played by the Victorias last night was in fair comparison with the game turned in by them against the Abegweits in the opening game of the league. The entire team seemed in a daze throughout the first two sessions, and could not get going. Their attempts at "check" hockey were frustrated by fast back checking and poke checking by their opponents. Again as in the case of the game mentioned above, they lost the jump at the start to lag behind a two to nil count. Only at intervals did the Vics show flashes of snappy hockey.

On the other hand, the aggression from the west were playing wide, high and handsome. Not once was their well planned attack and defence broken, and combination seemed to be their middle name, notwithstanding that five of their twelve efforts were realized on individual effort.

Jackie Schurman and "Chick" Gallant were the shining lights on the visiting lineup last night, while Montgomery and Grady showed good on the defence; their stickhandling, fast skating and back checking were as easy to glimpse. Cloyve Perry, McIntyre and Mountain were also working in close co-ordination with their team-mates.

Diamond in the Vic net was off last night and failed to stop with the same ease and class which marked the last Summerside-Victoria game. McDonald and Campbell in front of him worked hard and consistent, McEachern and Williams were again marked by the black and white puck men and their quick and shifty moves they made. Nicholson, Gillis and Doiron showed up splendidly, especially in the last two periods. "Dempsey" Diamond relieving on the Vic defence was hook-

ed on every advance he started. He was off in stickhandling and appeared anything but his former self. Taken as a whole the locals were outclassed and outplayed in the proverbial edge of the issue.

The Vics woke from their apparent stupor and opened a fast attack and realized when Roddie McDonald rang the bell half minute from the second count. Five minutes later E. Doiron tied the score on a perfect shot from right wing well inside the red line.

The Vics did eight minutes in the "bull pen" in this period—4 penalties.

Second Period
Fifty seconds from the face-off Campbell gave the local fans a chance to cheer by beating Phillips for the third and leading goal. The lead was short lived however, Schurman again scoring ten seconds later after drawing Diamond from the net.

The Crystals made the board read 4 to 3 thirteen minutes later when Grady and Gallan broke clear to sweep through, the latter scoring.

The Victorias drew three more penalties in this period.

Third Period
Eleven minutes from the opening whistle "Chick" Gallant netted number five. With but three minutes to go Gillis wormed his way through the Crystal defence for a shot, McEachern getting the rebound scoring their fourth and final goal.

Appointment to Be Made Shortly

OTTAWA, Jan. 22—Appointment of a lieutenant governor of Manitoba in succession to the late Hon. T. A. Burrows is to be made shortly, as there is no provision for the payment of an acting governor, the name of J. D. McCreagh, prominent live stock breeder of Brandon, was mentioned today in connection with the vacancy. There seems to be a scarcity of suitable men on the list of names of possible candidates available.

OTTAWA, Jan. 22—Premier J. G. Gardiner, Minister of Education, and Dr. J. T. M. Anderson, leader of the Conservative party in the Legislature, each gave notice that on Wednesday they would move for leave to introduce a bill to amend the school act. The text of these bills will not be available until they are printed but it is understood that Premier Gardiner will introduce permissive legislation providing for the formation of larger units of administration where this may be desired.

Dr. Anderson's bill comes as the result of a resolution adopted unanimously at the meeting of the Conservative candidates and provincial executive here Saturday. It is designed to make it an offence for religious emblems to be used in public schools or for religious garb to be worn by teachers in public schools during school hours.

OTTAWA, Jan. 22—A series of air-dromes 50 miles apart between Montreal and St. John, N. B., is seen by officials of the civil aviation branch of the national defence department as a future development in the progress of flying in eastern Canada. The matter has been under consideration for some time and added attention to it has resulted from the institution of the new air mail service between Ottawa and Halifax which goes into effect on January 22.

The service will be experimental in character, but there is a strong possibility that it will become permanent. The lack of air-dromes along
