PROMINENT ISLANDERS IN MEXICO

Winning Success in Far-Distant Land
ARE PROMINENT BANKERS
Sons of Theophilus D. Crosby of West River, One Formerly With J. D. McLeod & Co.

The Mexican Herald has the following regarding two well known Islanders:
The International Bank and Trust Company of America, San Luis Potosi, Mexico have completed the equipment of their offices, and are now at home to commercial callers. The handsome furniture and fixtures of this well arranged banking house together with conveniences for its customers, make it a pleasure to do business there. The officers of this branch are A. E. Crosby, manager, and E. W. Crosby, cashier. These gentlemen are not strangers in San Luis, but have been active in business circles in that city for nearly ten years, and are well known for their commercial integrity, and capacity for trade. This institution will not only transact a banking business in all its branches but is equipped and empowered to handle all kinds of commercial transactions on a conservative basis as well as act as trustee for matters pertaining to any business or estate where the intervention of a third and responsible party is necessary. The people of San Luis Potosi, town and country, will appreciate such an institution, and give it unqualified support.
The Messrs Crosby above referred to are the sons of Theophilus D. Crosby of West River and well known in this City. A. E. Crosby was four years bookkeeper with J. D. McLeod & Co in the eighties. The Guardian with many other friends will be pleased to hear of their success in the Southern States.

We dont want George A. Slater's Invictus Shoes confounded with the Slater Shoe Co.

George A. Slater is the practical leather and shoe man—he understands the qualities of leathers, this is most important in making shoes—Hence his shoes according to customers and our own opinion are the best wearers and fitters produced in Canada.

LONDON DELEGATES HEAR ELOQUENT SPEECHES ON CANADA'S PROSPERITY.

OTTAWA, Nov. 19.—At the banquet to the delegates of the London Chamber of Commerce to-night, Hon. R. W. Scott and Hon. William Peterson spoke to the toast of "Canada and Its Capital."

Mr. Scott dwelt on the great development of the country and the fertility of the soil. The further north the soil was the more fertile.

He said that an industrious and intelligent people were building up Canada to be the strongest portion of the British Empire, and loyal to British institutions. He pointed to the large number of arrivals from the United States who were buying up lands in the west, and aiding

in the development of the country.

The trade of Canada was increasing at the rate of \$33,000,000 a year for five years, and the money deposited in the banks showed \$80 per head to the population. This was good indication of the industry and prosperity of the people.

Mr. Peterson spoke briefly. He corroborated all that Mr. Scott said and he would be glad to give each of the delegates a copy of the report of the trade returns which would show for itself the rapid growth of the country.

The delegates leave for Toronto tomorrow morning. General Laurier, who sat for Shelburne (N. S.), in the House of Commons at one time, is one of the delegates.

GERMANY IS TO COLLECT CLAIMS FROM VENEZUELA BY WAR THREATS

WILLEMSTAD, Curacao, Nov. 19.—The Germans are preparing to collect their claims against Venezuela and Germany has four warships in Venezuelan waters.

President Castro, of Venezuela, is energetically pushing operations to prevent the revolutionists in that Republic from recovering from the effects of their dissensions and the flight of General Matos.

One of the objects of Matos' departure, it is reported, is to make an attempt to induce the Colombian government, which is notoriously unfriendly to President Castro, to send arms and ammunition to his men.

Matos also relies on his wealthy friends on this Island, with whom he is conferr-

ing. These persons have already contributed money in support of the Venezuelan revolution, but under the belief that President Castro would flee from the country. Consequently inadequate preparations were made and hence the present condition of the revolutionists. Matos' future plans are kept secret. The general opinion in well informed circles is that Matos' aspirations to the Presidency of Venezuela are absolutely ended. President Castro is quoted as saying "I have the situation well in hand and shall vigorously pursue my advantage." Since the battle of La Victoria, the government troops have occupied Coro and Cumana and they are preparing immediately to attack Barcelona.
