NO. 2 AMERICAN WHOLE corn will be unloading at Kensington 29th and 30th, John A. Douglas.

FOR SALE STALLION BRAZILIAN JR. perfectly sound, good shape, and a good stock producer. Will exchange for driver or draft horse. This horse is in excellent condition for season's work. Signed, Bert Kelley, Kensington.

The Markets

The offering of live stock on the two markets for the week ending March 23rd amounted to 659 calves, 3839 calves, 125 sheep and 2465 hogs. In addition there were 369 cattle on through billing for export.

The light run of cattle met with a fair demand and prices held steady at last week's prices. Receipts of calves were about 50 per cent heavier than last week, but all offerings were taken care of at prices about twenty-five cents lower than last week. Sheep and lambs were scarce but steady. A few spring lambs are coming forward and are bringing from \$8.00 to \$10.00. Hogs were the strong feature of the market advancing from \$13.50 last week close to \$14.25 at the close of this week.

With the exception of a few Western cattle the quality of cattle offered was very plain, probably the worst of the season. There was a large proportion of plain bulls and cows with very few good handy butcher cattle or cows. A few small lots of good heavy steers brought from \$7.50 to \$7.90. One small lot of Western steers averaging over 1,000 lbs. brought \$7.50 while two other loads of Western steers brought \$7.00 and \$6.25 respectively. Fairly good butcher steers and heifers brought from \$6.50 to \$7.25 while the plain steers and heifers brought from \$5.00 to \$5.40.

There were practically no good cows offered. A couple of good ones brought \$6.25, but few were good enough to bring over \$5.00. Cows of medium quality brought from \$4.00 to \$5.00. Plain cows sold from \$3.00 to \$4.00. Canners were weaker, some very plain ones selling as low as \$1.00.

Bulls were also lacking in quality. A few of the better ones sold from \$5.50 to \$7.75, but \$5.00 took the bulk of the best ones offered. Common bulls sold from \$4.00 to \$4.75.

The receipts of calves were over 50 per cent heavier than last week. On Monday the supply was short and prices were strong. A few of the better lots selling for \$8.00, or a little more in a few cases. On Tuesday with a heavy run of poor quality calves prices weakened and most of the sales were made around \$7.00 for the fairly good lots down to \$5.50 for the light common lots.

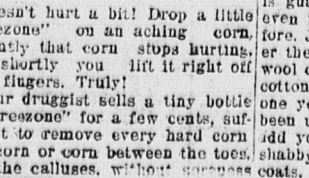

Sheep and lambs were unchanged. Lambs brought from \$10.00 to \$11.00, and sheep brought from \$6.00 to \$7.00. A few spring lambs are coming forward but the most of these are too light and plain to be really desirable. The market calls for a fat lamb weighing around 40 lbs. Spring lambs brought from \$8.00 to \$10.00.

Hogs were the strong feature of the market advancing from \$13.50 last week's close to \$14.00 on Monday and to \$14.25 on Tuesday, which was the closing price at the close of the week. Some were weighed out at \$3.00 less than the price for select.

Indications point to a steady market for hogs for next week.

TRULY A MEEK INDIVIDUAL.—The meekest little man on Broadway has been found. He stood in the Times square crowds waiting to cross the street. An Amazonian woman parked herself at his side waiting for the policeman's signal to cross. A look of pain crossed the man's face and grew with the long wait. Finally he coughed apologetically behind a trembling hand and said, "I beg your pardon, madam, but I'm and or your foot."—New York Sun.

CORNS
Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an itching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn or corn between the toes, and the calluses, without pain or irritation.

A beauty secret 3,000 years old

The use of palm and olive oils to keep the skin fresh and smooth is nothing new, but a secret known to pretty girls as far back as Cleopatra. Her Palmolive came in skins and jars, and she had to do her own mixing. But the beautifying cleanser she achieved was the inspiration of the mild, soothing blend science produces today.

Take a lesson from Cleopatra, who kept her youthful beauty long after girlhood's days had passed. She used cosmetics to embellish and enhance her charm, just as women do today. But the foundation was a skin thoroughly and healthfully cleansed from all clogging and dangerous accumulations.

Soothes and beautifies
Palmolive is blended from the same palm and olive oils Cleopatra used—they are the mildest, most

Made in Canada

soothing ingredients science has been able to discover. The scientific combination of these rare oils produces a smooth, creamy, lather-like lather. Palmolive soothes and beautifies while it cleanses. It keeps the skin of the face and body beautifully soft and smooth.

The importance of thorough cleansing
It is absolutely essential to complexion beauty to wash your face thoroughly once a day. Palmolive makes this cleansing doubly beneficial by its mildness.

The profuse, creamy lather penetrates each tiny pore, removing the deposits of dirt, oil and perspiration which cause clogging and enlargement.

Such cleansing is the secret of fresh, smooth skins, as results prove. It stimulates circulation, keeps the texture fine, smooth and youthful.

The woman who fears that washing will age her skin has used the wrong soap. She will change her mind once she tries Palmolive.

Don't neglect the body

Care of the complexion only begins with the face. Your neck is just as noticeable for beauty or the lack of it, arms and shoulders should be kept white and smooth.

Use Palmolive for bathing and these results are accomplished. It does for your body what it does for the face.

If this seems extravagance, remember the modest price. The firm, long wearing cake of generous size costs but ten cents.

Our price secret

If Palmolive were made in small quantities it would be a very expensive soap. Palm and Olive oils are most costly soap ingredients, and come from overseas.

But the popularity which requires enormous production has reduced the price to that of ordinary soaps. The Palmolive factories work day and night, the rare oils are imported in such vast volume that the manufacturing cost is reduced.

Thus Palmolive, priced according to quality, would cost at least 25 cents, is yours for a modest price. You can afford this greatest of all luxuries for every toilet purpose.

What every mother should know—

THE one subject nearest a mother's heart is the welfare of her children. It is during childhood that their health is most important.

Weak, under-nourished children seldom develop into vigorous, healthy men and women. Malnutrition produces anemic constitutions, liable to many diseases. Food is the most important factor in the development of children.

An interesting fact to every mother in Canada is this: Grape-Nuts, served with milk or cream, is a complete food. Grape-Nuts is

the wholesome, delicious cereal made of whole wheat flour and malted barley. It is rich in nutritive mineral salts that supply strength and nourishment to the growing body tissues. Your children will thrive on it.

Begin today to make Grape-Nuts, with milk or cream, the regular breakfast dish—not only for the children, but for you and the others as well.

Your grocer sells Grape-Nuts, the same delicious Grape-Nuts that is served in the leading hotels and restaurants of Canada.

The cost of Grape-Nuts is little—because of the large number of dishes you can serve from one package.
