MUSICAL AT MALPEQUE PRESBYTERIAN CHURCH MUCH ENJOYED

The choir of St. James church motored up to Malpeque on Monday evening and, under the direction of their organist, Mr. George Methven,

gave a much enjoyed musicale in the lovely new Presbyterian church there. The church, which is very artistically finished and ideally situated, is in every way suited to the needs of this flourishing section of the province, and was completely filled with an appreciative audience from the surrounding districts, who thoroughly enjoyed the nicely varied program, which was as follows:

- Chorus, "Viking Song," Coleridge Taylor.
Reading, "From Anne of Green Gables," Miss Edna Gordon.
Solo, "Go to Sea," Mr. P. Barlow.
Duet, "The Sweetest Story," Stolz. Mrs. J. Lawson, Miss Jacqueline Macdonald.

RESTFUL PICTURES
Quiet pictures, like water or country scenes, are restful to sick folks when hung by their beds for them to look at. Action pictures may tire them.

Eastern Guardian

"LEST YOU FORGET." - Sturgeon Tea, July 2.

"WILLIAM LEMON'S FARM at Montague, offered for sale at auction on June 28th, at 2 p. m. H. Nelson & Son. 6-19-22-26

"EASTERN AGENT - Mr. J. W. Murdock is Guardian Agent in Reading, from Anne of Green Gables, Miss Edna Gordon.

"SEE offering of William Lemon's fine farm and buildings all in excellent condition, no better farm on P. E. I. for sale June 28 at 2 p. m. H. Nelson & Son, Montague. 6-20-23-27

"HARVARD GRADUATE - Horace MacKenzie Nelson, son of Mr. and Mrs. Horatio Nelson, formerly of Montague, received the degree of Bachelor of Arts from Harvard University on Thursday, June 21. He completed the course in three years. The Nelsons have been residing at 64 Pickney Street, Boston, since their removal from Montague five years ago. He will be remembered, until his entrance into Harvard, lived in Montague all his life, where he attended the schools. He, later Prince of Wales College, where he was one of the star football players. He also taught school in New Glasgow. He will probably return to Harvard for his master's degree next year.

SUMMER CHORES
Give the children simple tasks to do regularly during vacation. It is a good plan to allow them a little money for keeping them done.

PERSONALS

-Among those that have returned from Prince of Wales College to Kensington are: Gwen Spriggs, Arthur Ready, Marion Millman, Bertha Thompson, Marguerite Higgins, Kathleen Ready, Kelf Duggan, Daniel Gorman. The first two qualified for first class teachers, and the other six for second. Patricia Cullen, Sherwood, and Angus Bernard, Free-town, who matriculated from Kensington High School, also qualified for second class teachers. Roscoe Walker has returned from Mt. Allison; Orville Darrach from Acadia College, and Doris McPherson. The pronounced success of these students emphasizes the superior work that the present staff of Kensington High School has performed, and the good goes, and will go on. The teachers, trustees and other officials of the school work in perfect harmony and implicit confidence is placed and held by all. Honest dealing must assert itself. Y

-The use of Miller's Worm Powders insures healthy children so far as the ailments attributable to worms are concerned. A high mortality among children is traceable to worms. These sap the strength of infants so that they are unable to maintain the battle for life and succumb to weakness. This preparation gives promise of health and keeps it.

BOARD OF TRADE

(Continued From Page 1)

on the conditions of loading. Last year they were greatly hampered for space. From Charlottetown they shipped 681,043 bushels. From Georgetown, 210,736 bus. From Summerside, 140,941 bus. He went into details of the loading of potatoes from Oct. 18th to Dec. 5th. On Nov. 1st there were 110 standard gauge cars on tracks, 33 narrow gauge, and 35,392 bushels in the shed, even though 88 "Corronpark" had sailed the day before with 84,951 bushels. Mr. Grady then presented the following statements for the consideration of those present:

CANADIAN NATIONAL RAILWAYS
ATLANTIC REGION ISLAND DIVISION
Statement showing bushels potato-

es shipped by water from Charlottetown, Summerside and Georgetown, 1927-1928.

Table with columns: FROM CHARLOTTETOWN, Date, Name, No. Bushels. Includes entries for "Lund", "Corronpark", "Fredmes", "Senorgsund", "Dago", "Burr", "Hillcroft", "Nidarnes", "Bueland", "Olaf", "Frednes".

FROM SUMMERSIDE

Table with columns: Date, Name, No. Bushels. Includes entries for "Elma", "Esthonia", "Margery Herringer", "James Williams", "Burr".

FROM GEORGETOWN

Table with columns: Date, Name, No. Bushels. Includes entries for "Betty", "Terje", "Olaf", "Italy".

Statement showing carloads potatoes in Charlottetown Yard, also number bushels potatoes in shed on railway wharf, October 18th, 1927, to Dec. 5th, 1927.

CARS

Table with columns: Date, Stan., Nar., Bus. in Shed. Lists dates from Oct 18 to Dec 5 with corresponding statistics.

Mr. Grady went on to say that even with the warehouse accommodations and yard room available they had to park many cars at Royal Junction to await a chance to unload.

From October 18th to 1st of June, the railway moved out 4,840,000 bushels of potatoes from all outlets, from the three ports Charlottetown, Summerside and Georgetown, 1,027,720 bushels were sent by ships. He did not see how the railway could handle this season's movement of potatoes without having greater warehouse accommodation on the Railway Wharf than there is now. This new shed that was now going up was meant to give added accommodation.

He did not think the facilities would be at all adequate, especially in view of the fact that an increase of potato acreage of 25 to 30 per cent was anticipated. This was all the more so, in view of the fact that the acreage along the Murray Harbor line was especially increased, and the number of narrow gauge cars available was fixed and could not be added to.

In answer to a question, Mr. Grady stated that 681,043 bus. were shipped from Charlottetown, 140,941 from Summerside, and 210,736 from Georgetown. Also, he said, many of the large outside shippers were asking for warehouse space. We should consider the giving of shipping facilities to all who wished them. It is desirable to have a rapid movement of potatoes, so as to take advantage of the best market prices.

Mr. J. O. Hyndman suggested that a careful watch should be kept on the warehouses at Summerside and Georgetown to avoid danger of fire in these.

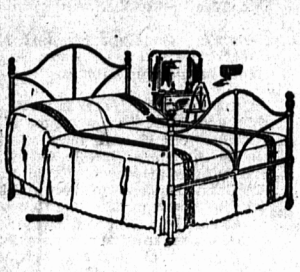

Mr. Jenkins said an investigator was arriving to-night or tomorrow morning to look into the causes of the fire. Mr. W. E. Hyndman enquired if it would not be possible to increase the shipments from Georgetown, since no shipments left there last year before November 14th.

Mr. Grady, however, felt that the capacity of the yard was limited. Neither Summerside or Georgetown could handle any more potatoes this year than they did last. With the increase in acreage grown, and the diminished facilities he did not know where the railway would be at.

With no shed, or one of only limited capacity, the congestion in the yard would be very great. Mr. W. E. Hyndman in reply to a question, said the floor area of the new shed would be about one half that of the old shed. But the capacity would be only half as great.

COMPARE THESE VALUES Beds-Springs-Mattresses

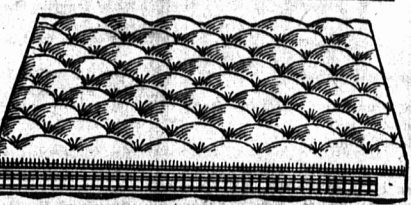

Freight Paid to Your Nearest Station

Bed, Spring, Mattress Complete \$12.50
Bed, Spring and Mattress complete. Compare this price with any outfit being offered anywhere. White enamel bed as picture, brass capped posts, steel frame spring, copper link fabric which will not rust. Fibre filled mattress with heavy layer of felt, fancy art ticking. PATONS

Mr. Grady said it looked as though they would be tied up, if no further storage facilities could be supplied. Mr. Sinclair in reply to a question, said there was no rest or sinking fund to replace Government buildings destroyed by fire. Mr. Grady stated, that given sufficient cars and locomotives it might be possible to speed up shipments 50 per cent. Mr. S. A. MacDonald said that in view of the situation outlined by Mr. Grady there was only thing to be done - that is, push the new warehouse to completion, and at once begin the construction of a warehouse to replace the old one. Mr. W. E. Hyndman in reply to a question expressed his doubt if they could put up a building even if ten times were not called for, in time. It might be done as a war measure without regard to cost, but he did not think the department would do about it that way. Mr. Mutch asked if it would be possible to fill in the railway wharf, and make a dirt foundation. Mr. Grady did not think this could be done, as the outer walls were not strong enough. Two years ago they had to put in iron cross-pieces to strengthen them. There was further discussion, but the general opinion of the meeting was that the present contract to build the new warehouse should not be interfered with. A committee, consisting of Messrs Sinclair, Jenkins and Mutch, were appointed to draw up a resolution urging the immediate construction of a warehouse. They retired, and drafted a resolution which was wired to the Minister of Public Works at Ottawa. It reads as follows: TO HON. J. C. ELLIOTT, Minister of Public Works, Ottawa, Ont. WHEREAS the large frost-proof warehouse situate on the Railway Wharf at Charlottetown was completely destroyed by fire on the evening of June 23, 1923. AND WHEREAS the total shipping facilities available last season were inadequate to make possible the free movement of the potato crop of the Province although the yield for said season was below the average. AND WHEREAS a contract has been let for the construction of a small auxiliary warehouse to assist in providing additional shipping facilities. AND WHEREAS this year's potato planting shows a considerably increased acreage and with a normal yield this year's crop may reasonably be expected to exceed last year's by at least thirty per cent. AND WHEREAS there is grave doubt on the part of the railway management and shippers that the facilities available last season with the proposed addition would make possible the handling of the prospective crop for 1923. AND WHEREAS only the replacement of the warehouse so destroyed by fire in time to permit shipments through it by October 20th will prevent incalculable and ruinous loss to the people of this province. BE IT THEREFORE RESOLVED by the Charlottetown Board of Trade at an emergency meeting assembled: 1. That the minister of Public Works be urged to take immediate steps as an emergency measure for the construction of a suitable potato warehouse to replace the warehouse which has been destroyed. 2. That the present contract for the construction of the auxiliary warehouse be proceeded with so as to be completed within the contract time. S. A. McLEOD, President Ch'town Board of Trade. For rheumatism use mineral treatment.
