**AUTUMN EXCURSIONS TO MONTREAL**  
Montreal is always a city of interest, and especially so in early autumn, when its citizens have returned from the summer resorts to their town homes, the many stores crowded with fashionable shoppers, and the places of amusement in full swing. The annual fall excursions via Intercolonial Railway will be run this year, Sept. 16, 17 and 18, tickets being good for return October 4th. The rate from Halifax to Montreal, and return on these dates will be reduced to \$19.45. From Moncton and St. John \$15.30, and proportionately low fares will prevail from all points in the Maritime Provinces. Travellers from the Maritime Provinces have the choice of two excellent routes, the "Ocean Limited" and the "Maritime Express," both noted for the high standard of their sleeping and dining car service. A good piece of advice is to reserve your berth early. 2975-9-15ME41.

..\*TIN SHOWER.—Miss Ida McDonald who is to be a participant in a very interesting event which takes place in the near future was waited upon on Saturday evening by a large number of the young people of West St. Peters and presented with a tin shower. A few very enjoyable hours were spent, music being furnished by Miss Hattie Gillis and Nellie McDonald, accompanied on the violin by Messrs W. Mackay and Eneas McEachern. After singing Auld Lang Syne all repaired to their homes.

..\*TOWN COUNCIL.—The monthly meeting of the Souris Town Council was held in the Council Chambers on Monday, Sept. 13th. In the absence of his worship Mayor Brennan, whose resignation is in the hands of the council, it was moved by Councillor D. MacDonald, seconded by Councillor D. F. MacDonald, that the Council be appointed a committee to inquire into the resignation of the Mayor. The minutes of the last meeting were then read and were approved on the motion of Councillor Matthew, seconded by Councillor D. F. MacDonald. The following bills were then approved and passed: C. Ferguson, for sundries received, moved by Councillor D. MacDonald, seconded by Councillor D. F. MacDonald; B. Plannigan, S. Williams and others for work done, moved by Councillor D. F. MacDonald, seconded by Councillor MacKinnon. Salary of Chief of Police, moved by Councillor D. MacDonald, seconded by Councillor D. F. MacDonald; R. Maitland, for labour, moved by Councillor D. MacDonald, seconded by Councillor Matthew. Imperial Oil Co. gasoline, moved by Councillor D. MacDonald, seconded by Councillor J. F. Sterns. The resignation of Councillor J. F. Sterns was then laid on the table and accepted on the motion of Councillor D. F. MacDonald, seconded by Councillor MacKinnon. The resignation of his worship the mayor was tabled and on the motion of Councillor D. F. MacDonald, seconded by Councillor MacKinnon was laid on the table for a week. Councillor D. MacDonald was appointed to act as mayor for the time being in the absence of his worship Mr. Brennan, and this was approved on the motion of Councillor MacKinnon seconded by Councillor D. F. MacDonald. The meeting then adjourned until Monday, September 30th.

**A WOMAN V. C. Heroine of Russian Army**  
Some time ago travelling on the same train to Warsaw were a man and the woman—the man a young undergraduate who had joined the Russian army as a volunteer, and the woman, the daughter of a princely landowner in the Caucasus, who bore one of the noblest names in the history of Russia. The man, who was an officer, was going to join his regiment, and during the two days' railway journey the two young people, who had fallen in love at first sight, became engaged. On the train they saw they went to the nearest Orthodox Greek Church where a kindly priest married them.  
The girl then refused to leave her husband, and, managing to obtain a soldier's kit and assuming the name of Laurenty, followed him to the firing line. She soon obtained her baptism of fire, for the position where she and her husband were stationed was one of the most critical on the River Raska and subjected to continuous German attacks. During one encounter, her husband, who was only a lieutenant, found himself the only officer in a condition to command four companies, and his wife acted as lieutenant. The Germans were mowing the Russians down, and the young officer sent one of his men to the front line of trenches to give the order to retire. But the front line men, excited beyond control, refused, owing to an order given by their late commander. Twice the husband sent, but the men refused to move. Then the husband, as a last resort, sent his wife. She tried to persuade them but without success. Every moment the Germans were getting nearer and their fire became hotter, when their coming meant instant death for every man; so the girl lifted the butt end of the rifle and brought it down on the shoulders of one man and then another. Her angry voice and forceful action had the desired effect and the men evacuated the trenches and ran towards the back line. Laurenty staying till every man had reached a safe place. As she stood there a shrapnel shell hit her right arm. In another ten minutes not a single man would have been alive in that trench.  
When Laurenty returned she found her husband wounded in the leg; husband and wife were sent to the same hospital, and the soldier princess was soon presented to the Commander in Chief, and received the Cross of St. George, the V. C. of Russia for her valor.

**BOY SCOUTS AT THE EXHIBITION**  
The Provincial Council of the Boy Scouts, of which ex-Governor D. A. McKinnon is the President, has been endeavouring during the past year to develop the Boy Scout movement throughout the Province. One of the first difficulties the Council has had to contend with, however, has been a lack of knowledge of what real scouting is. Our big Provincial Exhibition brings people from all over the Island to this city and the Committee felt that this might be their opportunity to get into touch with all classes of the community and so they intend to carry out a short campaign of enlightenment, which it is hoped will receive sympathetic encouragement and support. Permission has been kindly granted by the Exhibition authorities to allow the Y.M.C.A. Boy Scouts to put on a Demonstration of Scout work on the grounds at such hours as will give the vast numbers of visitors expected some understanding of the aims and objects of the Scout movement and an opportunity to see for themselves the immense value of its training and discipline. It is expected the Exhibition authorities will grant a small section of the spacious grounds for the use of the boys as a camping ground during the three days on which they will give their demonstration. This will consist of the boys who have not yet enjoyed the experience, a real taste of camp life. Some idea of the variety and scope of the movement may be gained when it is mentioned that on the list of features for the Exhibition week are demonstrations of the following: First aid, signalling, bridge building, physical drill and pyramids, knot-tying and splicing, cyclists' patrol drill, trek cart drill, cooking, tub-tilting, producing fire without matches, water-balling competitions, camp games and stunts, etc. A most comprehensive programme surely. These demonstrations will be put on by the local Y.M.C.A. Troop, who are now practising hard for the show. Representatives are expected to attend the camp from Summerside, Carleton Place, Charlottetown and Harrington. The boys will be given a short course of training in various departments of school work, so that when the boys return to their homes they will be able to do their bit in the way of promoting troops in their own districts. Some difficulty has been experienced in securing the loan of tents for the boys, but it is hoped that some one in sympathy with the movement will render the service necessary and that suitable tents for their accommodation in the grounds may be secured. As regards the starting of the movement on the Island, there are doubtless many young men who have not been able to serve their country by volunteering for active service, who might find this a splendid opportunity for them to "do their bit" at home, by taking an active part in this most estimable patriotic work. As scoutmasters, young men who can organise and direct as well as control and stimulate the boys in this work will find this a splendid outlet for their energies. There is no lack of raw material on the Island. In fact few places are blessed with such a plenitude of lusty, husky boys. The greatest need is for capable directing influence and control to bring and hold the boys together. Much might be told of the great work of the Scouts of all the warring nations of Europe, of the tens of thousands who are doing scout duty—signalling, reconnoitring, carrying despatches, etc.—from Land's End to John o' Groat's, but the newspapers have already told of many examples of the great services that have been rendered by this fine organisation. Tales of their fearless daring, ingenuity, and kill on the battle line also have borne testimony to the immense value of the training in intelligent resourcefulness which tens of thousands of boys have received in the Scout Movement. It is anticipated that this new effort will be productive of largely increased interest and sympathetic support from all who will visit the Exhibition, as well as all who recognise the best welfare of the boyhood of our Island.

**SAVED THE DOG.**  
(From Tit-Bits.)  
Lord Rosebery is a great lover of animals, and on one occasion he actually went so far as to risk his life for a favorite dog. His lordship was on board a steamer when suddenly his dog fell overboard. Much distressed, Lord Rosebery asked the captain to stop the ship—a request which was refused.  
"If it were a man overboard," said the captain, "why then of course?"  
"Oh," said Lord Rosebery, "that can be easily managed," and to the captain's astonishment, he leapt overboard after the dog himself.  
Naturally, the steamer was promptly stopped, a boat was lowered with all speed, and both dog and master were rescued, none the worse for their experience.

**ACKNOWLEDGEMENT**

The following letters speak for themselves:—  
August 31st, 1915.  
The Honorable the Deputy Minister of Militia and Defence, Ottawa, Ontario.

Dear Sir—I have pleasure in enclosing herewith our draft for the sum of five thousand dollars for the purchase of machine guns, to be placed, if possible, at the disposal of the 55th Battalion and 6th Mounted Rifles, or any other P.E. Island units. This sum represents contributions received from the people of this province, in addition to the amounts already forwarded.

Yours very truly,  
A. W. HYNDMAN,  
Treasurer Machine Gun Fund.

Ottawa, Ontario,  
Sept. 8th, 1915.

Dear Sir—I beg to acknowledge and thank you for your favour of the 31st ultimo, enclosing cheque for \$5,000, the contribution of the people of Prince Edward Island, for the purchase of Machine Guns to be placed at the disposal of the 55th Battalion and 6th Mounted Rifles. Upon delivery of the Lewis Machine Guns which have been ordered to provide the generous gifts the public are making, five will be purchased in the name of the people of Prince Edward Island, forwarded as their gifts to the 55th Battalion and 6th Mounted Rifles. Please convey to the contributors to this fund, and accept for yourself, the deep appreciation of the Government for this very generous and patriotic contribution.

Believe me,  
Yours faithfully,  
SAMS HUGHES,  
Minister of Militia.

**WORKING BOY FINDS REAL MOTHER**  
And Also a \$60,000 Legacy—Secret of His Birth Hidden.

Fairy tales of prince and pauper are almost equalled by the unexpected fortune which has made Ralph Elrose, twenty, a grocer's boy and laundry worker, heir to \$60,000.

Two years ago Ralph left his home, No. 239 Skillman Street, Brooklyn, because he wanted to keep all his small salary. He thought when he moved to the Bronx he had said goodbye to his mother, five sisters and two brothers.

Now he learns the woman who reared him since he was a few months old is not his mother and that he is no brother to the children he called kin.

Through litigation after the recent death of Dr. Charles F. Myers, an aged recluses who left \$60,000, it became known that the boy's mother was Alice E. Ehler, a niece of Dr. Myers. Roswell S. Nichols of Rollins and Rollins, attorneys at No. 32 Nassau street, found Ralph working in a laundry and persuaded him the tale of the \$60,000 was not a trap to entice him home.

He returned to the Elrose home Friday night to meet the wonder of his so-called sisters and brothers, and the congratulations of the neighbors, who are much wrought up over the romance of the unknowing heir. Early yesterday morning he left again, saying he would return after seeing Mr. Nichols. Late last night he had not returned. Mr. Nichols was not at all surprised.

"He may not come back at all for a few days," Mr. Elrose said. "He is able to care for himself, and he doesn't ask our advice. But I suppose he will be back before long."

**KEEPS SECRET OF FAMILY.**  
Mrs. Elrose was more communicative. She smiled frequently, although she was reticent concerning the boy's parentage. She implied that Sheler was not the mother's true name.

Ralph is a boy who doesn't say much," she said. "There have been no hard feelings between us, even if he did leave home. I took him when he was little, like any good woman ought to do, because his mother wouldn't keep him, and I thought he ought to be kept just as well as any other children of his father."

"I don't know what he will do with all the money. But it isn't any surprise to me. Mr. Elrose and I knew for a long time about the rich doctor. We knew about the money waiting for Ralph two months ago."

The children couldn't guess what Ralph would do with the money, either. All the girls except the youngest, who is seven months' old, were in gala attire of extra ribbons in honor of their brother's fairy book fortune.

**KOHL RABI.**  
The Plant Should Be Cooked Much the Same as Turnips.  
This not very well known vegetable should be cooked when about the size of a large apple, that is, before it is fully grown, as age makes it too tough and fibrous for table use. Kohl rabi is like a cabbage, in that it has a head, also leaves, that somewhat resembles those of a degenerate cabbage, but in flavor it is more delicate. Plants set out in May should be ready for use by the middle of August.
