Saving Teeth is Dentistry

Everyone has seen the sunken cheeks and haggard appearance of the faces of those who have lost their teeth. Beauty, a thing so much desired is often destroyed by the ruthless use of the forceps; and health a priceless treasure, is often lost from the extraction or decay of the teeth. Everyone knows of, if they have not experienced, the tortures of indigestion arising from the improper mastication of food dependent on the loss of the teeth.

SAVE YOUR TEETH!

Because a tooth is decayed or aching is no reason why it should be extracted. By proper treatment it can be restored to health to do the work nature intended it for. Give your teeth attention before it is too late. Remember

SAVING TEETH IS OUR SPECIALTY.

All work done in the most durable and most up-to-date manner. A Ten Year Written Guarantee with all work.
