

CHARLOTTETOWN and QUEEN'S COUNTY

It pays to buy in this Province. The Victoria's hockey special to Summerside leaves this afternoon at 3.30. One hour's skating after the game.

Last night at the Arena the Fourth Regiment team, in the eighth game in the Arena Bowling League defeated the newspapermen by 21 pins.

The funeral of the late Mrs. John N. McLean, city, takes place this afternoon at 3.30 from her late residence, Weymouth St., to the People's Cemetery.

A special meeting of the Board of Management of the Children's Aid Society will be held this afternoon at four o'clock in the Board of Trade Rooms, Market Building.

J. A. Elliott, Elliott's Mills, was in the city yesterday attending the Dairyman's Association. Mr. Elliott informs The Guardian that he intends moving to the Pacific Coast and in the near future will conduct a sale of valuable registered stock, farm, etc.

Secretary Riely of the Y. M. C. A., is instituting something new in the line of Sunday afternoon services in the Y. M. C. A. The idea is to make these meetings specially attractive to young men and the plan is to have an interesting meeting of an informal and social nature and popular topics will be informally and freely discussed. These meetings will start at 4.00 and will doubtless be of particular interest and benefit to young men. One of the features of the meetings will be the Y. M. C. A. orchestra which will be in attendance. The first of these meetings will be held Sunday afternoon at four o'clock.

Two very interesting games of basketball were played in the Y.M.C.A. last night when the Abergwits and Prince of Wales Colleges senior and intermediate teams met in the Y.M.C.A. League series. The result was a double header for the P.W.C. boys, their senior team winning by a score of 14-12 and the intermediate team by 12-10. Both games were very hotly contested and the scores are good indications of the evenness of the play. C. J. Riely, Y.M.C.A. Secretary, refereed the games, and Fred Howatt acted as umpire. This now leaves the P.W.C.'s and the Abergwits in the senior league while the Abergwits are leading in the intermediate league. Several more league games are yet to be played and the schedule is being rearranged as to dates.

"Buy Moir's" chocolates here. We handle "Moir's" chocolates almost exclusively for the reason that we believe them to be far better than any other make. We get a fresh stock every week. Our patrons like our splendid variety of bulk and packages. The McKinnon Drug Co., Cor. St. Geo. & Kent Streets.

BORN. McDONALD—At Brush wharf, Orwell, Feb. 7, to Hector and Mrs. McDonald a daughter.

DIED. McRAE—At Pt. Prim, on Feb. 20, 1911, Mrs. Archibald McRae, aged 84 years.

McAULAY—At Belfast, Feb. 20th, after a lingering illness Angus A. McAulay, in the 29th year of his age.

SUTHERLAND—At Montague Mills on Feb. 15th of pneumonia, Mrs. Mary A. Sutherland, relict of the late James Sutherland, New London. The deceased was 78 years of age.

SUNLIGHT SOAP

HOUSE CLEANING

Instead of being a monotonous drudge, it becomes a pleasure when Sunlight helps you. Remember—Sunlight does all the work, at half the cost and in half the time of other soaps.

Follow directions.

MAY PRECIPITATE ANOTHER RATE WAR

NEW YORK, N. Y., Feb. 21.—A special cable to the Herald from London says:— It is reported that the Canadian Pacific Steamship Line is dissatisfied with the amount of immigrant business allotted to it by the North Atlantic stevedore pool and is making arrangements to transport immigrants to United States ports. This probably will lead to another rate cutting war.

CANADIENS BEAT RENFREW FOUR-TWO.

MONTREAL, Feb. 21.—Canadiens beat Renfrew at the Arena here tonight, in a hard fought game, by four goals to two. The Canadiens will leave Montreal tomorrow for Halifax and will arrive in that City on Thursday afternoon. On Thursday evening they will play the Halifax team at the Arena.

BOARDS OF TRADE ORGANIZING

TORONTO, Feb. 21.—The Ontario Associated Boards of Trade, comprising 168 delegates and representing fifty-four municipalities throughout the province, will meet for the first time today at the City Hall for purposes of organization.

CONSERVATIVE LADIES OPPOSE RECIPROCITY

TORONTO, Ont., Feb. 22.—The ladies' branch of the Centre and South Toronto Conservative Club completed its organization last night and at once gave an earnest report of its intention to become an active force in politics by a strong protest against the reciprocity agreement.

ANNOUNCEMENTS.

- Regular meeting of Boyne L. O. this evening at 8 o'clock.
- Wildey Lodge meets tonight. The first degree will be conferred.
- Prince Edward Council Royal Arcanum, will meet this evening at 8 o'clock.

- Over two hundred and fifty skaters took advantage of the special ten cent skate in the Arena on Tuesday evening. There will be another this evening. Come up and enjoy it. Fourth Regiment Band.
- All patriotic sons of Prince Edward Island who can take advantage of it should not fail to hear Rev. H. E. Thomas lecture on Building a Nation in the First Methodist school-room on Feb. 28th. Don't forget the date. 2-21d41.

ANNUAL MEETING OF PRINCE EDWARD ISLAND DAIRY ASSOCIATION

(Continued from page 1.)

A large number of those pointing out different factors. Harvey Mitchell spoke on the prizes in the herd competitions. He said it will be the means of awakening much interest. It was not so much the money value of the prizes, but the stimulation of interest. The herds entered in this competition were above the average for this province and were below the Ontario herd average. The average herd for five months was 5665 lbs. while Ontario herds in competition averaged 7542 lbs. for 6 months. The Association should support the movement for an all year round competition period and drop the five months period.

After more discussion Mr. Anderson spoke for some time on the system of taxation whereby improvements on farm buildings were taxed so much higher than money lying in the bank. He thought the Dairy Association should act on it. Walter Simpson thought the man who doesn't fix his buildings should be taxed and not be offered inducement to refrain from making improvements. Land should be improved. Others followed on the same lines. The Secretary's report brought down showed that Dairy classes were held at Hillsboro, Tryon and Kensington, in May last and dealt with prizes offered in competition as reported following this. The response was rather disappointing. However, the showing made by those who entered was good.

An increase in production of Fall and Winter Dairying was reported. That the Association had not previously encouraged the purchase of hand separators was regretted. Much assistance could have been given purchasers in the choice of a machine. It was noted with satisfaction that cheese exported to Great Britain was improved in quality when landed. The standard of quality of cheese was being well maintained.

The prices paid for cheese on the board were very satisfactory, while the whole year's work was exceptionally favorable, the gain over the previous year was small. Loss of population was a serious drawback to dairying and the study of conditions with a view to suggesting a remedy should be made. It was thought better to encourage making farms smaller and not larger as the tendency at present is. The system of taxation was criticized other matters of interest to dairymen were touched on in an intelligent manner. The report was adopted on motion.

F. T. Morrow brought down his annual report as inspector. He made during the year two hundred and thirteen visits to 46 factories, and he reported each factory in detail as to its production, improvements effected or needed and general conditions. In his report he suggested that factory secretaries be furnished by the makers with weekly returns of cheese made and shipped or others disposed of. He made reference to dairy meetings, of which fourteen were held, cow testing, attendance at annual meetings, and other topics and concluded by thanking all for assistance rendered him in the performance of his duties.

His report was adopted on motion. After this a general discussion took place on pasteurizing whey and Mr. Mitchell and Mr. Morrow offered some advice on this subject, this being supplemented by the practical of one or two factories which was given by delegates. Then a resolution was introduced broaching the education subject and the debate grew animated. Some speakers strongly contended that the present P. W. C. training was insufficient along agricultural lines to fill the need, while others upheld the P. W. C. It was suggested that the scholarship fund at present given to the P. W. C., by the Government be turned over to the Truro Agricultural College to educate one or two P. E. I young men annually. The evening meeting commenced with a discussion on changing the date of the financial year to correspond with the financial year of the province. It was decided to leave the matter over for another year.

Mr. Dewar, M. L. A., for Cardigan, then proceeded to read a paper. He gave his experience of testing the cows in his herd. He had weighed milk every day and tested every month. This enabled him to decide which was to be blamed, the cow or the man behind the cow. Any Dairy man who will test his cows one year will get information which will enable him to engage in dairying profitably. The cow which he thought was the good one turned out the poorest, and vice versa. The prizes in life are only won by those who work for them. The dairy man must get clear of the 3000 pound cow and get the one that will pay a profit on her feed. The keeping of milk records will enable dairymen to do this. On motion this paper was received and given to the committee on publication. Harvey Mitchell, of the Dominion Department of Agriculture, then gave an address. He complimented Mr. Dewar on his excellent paper and also on the valuable work he reported on testing his herd. He stated that the Minister of Agriculture had instructed the Dairy Commissioner to select a district and to get all the dairymen in said district to test their cows and select the heifer calves from the best milkers. He in stated cases where contesting an award had increased the yield from a herd over 2000 pounds of milk per cow. Three districts as mentioned above will be organized, one each in Ontario and Quebec and one for the Maritime provinces. James O'Connor gave some experience in testing. He found that some cows which filled the bucket pretty well had a lot of froth in their milk. He spoke of the great advantage of cows when they can get water at any time of the day. John S. Connors told how Island factories made more pounds of cheese out of 100 pounds of milk than they did in Ontario. Mr. Mitchell spoke of the matter of agreeing on plan of testing milk at cheese factories, a plan that all could agree upon. Two plans have been in use. The Straight Butter Fat test, and the fat test plus two to allow for the casing. Hon. Mr. Richards spoke of the breeding of cattle, especially dairycows. He advised getting the very best dairy sires to head the herds and said that if the best cows were bred to a good dairy sire one would soon have great improvement and a much larger production per cow. He gave an instance of an Island cow which gave nearly 8000 pounds in seven months. Prof. Ross suggested a discussion on Winter Dairying. He opened by saying that dairying to pay must be carried on all the year round. Labor is cheaper in the winter. Better calves can be raised in winter that will develop into better cows and bigger producers in future. Instances were given of Island herds that were giving a profit of 140 per cent on their feed. A vote of thanks was given Mr. Dewar and his valuable paper. The thanks of the association was also tendered to Principal Robertson for the use of the Hall. Principal Robertson replied in a happy little speech. A vote of thanks was also tendered the Dominion and Local Governments for the aid given to dairying during the past year.

Prizes awarded were as follows. For the largest amount of milk per cow to any cheese factory or creamery in each county, 1st, \$10; 2nd, \$8; 3rd, \$7; 4th, \$6; 5th, \$5; 6th, \$4. Same prizes for amount of butter fat per cow. Prizes also awarded for herd competition, special prizes offered by Jas. Paton & Co., City and Sinclair & Stewart, Summerside, for amount of butter fat per acreage, prizes as follows: 1st, \$6; 2nd, \$5; 3rd, \$4; 4th, \$3; 5th, \$2.

QUEEN'S COUNTY. Herd Prizes. D. N. McKay, Springfield. Jas. A. O'Connor, Clinton. J. M. McLeod, Uigg. A. D. McLeod, Kinross. W. F. McDonald, Glenfinnan. W. J. Jenkins, Vernon River. Acreage Prizes. Jas. A. O'Connor, Clinton.

James Howlett, Gowan Brae. Nathan Acorn, Bridgetown. J. A. Dewar, New Perth. Jas. A. McKinnon, Rollo Bay.

HOT SHOT FOR SIR EDMUND WALKER

TORONTO, Feb. 20.—"After reading the speeches at the board of trade meeting Thursday night," says P. C. Larkin, "I am astonished that I do not find myself an annexationist. I have been doing business in the United States for sixteen years; I see much of the country and meet a great many people, and yet I find I am no annexationist; yet, we are told by such an authority as Sir Edmund Walker, president of the Bank of Commerce, that if we trade with the United States we cannot escape inoculation."

"Sir Edmund Walker has had a large experience in business in the republic to the south of us. Has he found that in his case it has created an annexationist sentiment? Possibly it has, but his well-known imperialistic views enable him to overcome the feeling, and thus he has been able to continue trading in the market which he finds most profitable."

"Sir Edmund feels, however, that it would not be right to expose the farmer to temptation. That is, he feels that while it is wise and profitable for him his millions to trade in the United States, it would have had effect on the loyalty of the farmer if he were enabled to get 5¢ more for a horse or five cents more for wheat a little south of where he sells it."

DIVORCE PROCEEDINGS AGAINST HUSBAND

PARIS, Feb. 22.—Baroness Vaughan, the morganatic wife of the late King Leopold of Belgium, has commenced divorce proceedings against Emmanuel Durieux, a merchant to whom she was married at Arronville on August 18 of last year. A divorce attempt made by the judge to reconcile the couple failed.

BOLD HOLDUP IN TORONTO STORE

TORONTO, Ont., Feb. 22.—A young man, masked, entered William Wharrior's jewelry store yesterday afternoon and drawing a revolver ordered the aged proprietor to throw up his hands. Wharrior turned to run, but the burglar struck him down and then fled without taking anything.

GETS CALL TO PICTON

KINGSTON, Ont., Feb. 21.—Rev. F. H. Spruille, pastor of Prince Street Methodist Church has received an invitation from Main Street Methodist Church, Picton, to become its pastor in June next. If a transfer can be arranged he may accept.

Your Danger From Kidney Troubles

BEGINS WHEN YOUR BACK ACHES.

Backache is the first and the sure sign of kidney disease. When the back aches or becomes weak it is a warning that the kidneys are affected in some way. Next to the heart, the kidneys are, perhaps the most important organs in the body. It is no wonder then that if the kidneys are affected the whole system must be. On the first sign of backache Doan's Kidney Pills should be taken. They go right to the seat of the trouble, heal the delicate membranes of the kidneys and make their action regular and natural. Mr. E. J. Saultier, Lake Annis, N.S., writes:—"I take a great deal of pleasure in telling you the benefit I have received from the use of Doan's Kidney Pills. I was troubled with my kidneys for several years; my back was weak, I had terrible headaches, and was so restless I could not sleep at night. I commenced using Doan's Kidney Pills and in a very short time I was right and fit again."

Doan's Kidney Pills are 50¢ per box or 3 for \$1.25, at all dealers or mailed direct on receipt of price by The T. McBurn Co., Limited, Toronto, Ont. If ordering direct specify "Doan's."

Shoe Boils, Capped Hock, Bursitis are hard to cure, yet ABSORBINE

For Boils, Bursitis, Sores, Swellings, Gout, Rheumatism, Sprains, Bruises, Ailments, Pain, W. F. Young, P.O. Box 141 Temple St., Springfield, Mass. LARSEN Ltd., Montreal, Canadian Agents.

SHANGHAIED SAILOR IS ENROUTE HOME

PROVENCE, Feb. 21.—Arthur F. Garland, of Milford, N. H., arrived here on the steamer Tennessee, after an involuntary absence from New England since last August, when he was shanghaied in Boston on board a Norwegian ship bound for Buenos Ayres. Garland had a wife and child and a home in Milford, N. H., when he was carried away. He received a letter while in New York from a friend of his wife, saying that the latter had taken the child and departed for parts unknown. One day last August he took a pleasure jaunt to Boston, where he case before Captain Anderson. Arriving at Buenos Ayres after a voyage of 56 days, Garland, with all the rest of the foremast hands, was paid off. Failing to find a berth back to the United States he was forced to ship on the British tramp steamer Kirkcaldy, bound to Antwerp, Holland, as a fireman. There he joined another British tramp, the Hornby Castle, as fireman again, went to Newcastle, England, and then set out for Galveston, Texas. Garland left the Hornby Castle during the afternoon.

OTTAWA WANTS CIVIC REFORM

OTTAWA, Feb. 21.—The typhoid troubles of Ottawa have raised considerable criticism of the board of health and the medical health officer. There is an accusation of dereliction of duty of both regarding the entrance of pollution in the water supply. Outspoken public opinion was retaliated to by a proposal of the board of health agreeing on its own efficiency and proposing to raise salaries all round in the department. This was the last straw and the city council, after a warm debate, asked the board of control to reorganize the discredited department. Tonight the controllers have asked for the resignation of Dr. Law, medical health officer, around whose head the storm has waged. Meantime there is a serious move in the city towards government by commission owing to many acts of the aldermen recently. On this point one newspaper has taken a plebiscite which gives 98 per cent. in favor of Ottawa being made practically a federal district under a commission. Castle there, and jumped freight to New Orleans, where he shipped on the steamer Momus, bound for New York. He arrived a fortnight ago. He was down and out when James H. Spear, a lawyer, came to his assistance, and paid his fare to the city. He left for Boston during the afternoon.

RESTORE THE VOICE WITH EVANS' ANTISEPTIC THROAT PASTILLES

To soothe, heal and strengthen the sore, inflamed or overstrained tissues of the throat and give real and permanent relief from throat troubles use

EVANS' ANTISEPTIC THROAT PASTILLES

Formula of the Liverpool Throat Hospital

A positive boon to all who use their voices in public. Among scores of appreciative letters from singers and public speakers in nearly every civilized land, the following has been received from MME. GARDNER: "I think these Pastilles are excellent and I have already recommended same to many of my friends." Send for free sample to NATIONAL DRUG AND CHEMICAL CO. OF CANADA, LIMITED, MONTREAL.
