The Crystal Statement

Owing to the continued urgent request on the part of H. M. Downing, President of the Prince Edward Island Hockey League, who has persistently advised us to complete the Prince Edward Island schedule of games as an earnest of our appreciation of those Charlottetown citizens who so magnificently supported hockey in this Province by construction of the Charlottetown Forum, we yesterday abandoned our many times repeated statement that we would not play hockey with Mr. Nicholson on the ice and based our resumption of the series alone upon the retraction of detrimental statements made re Mr. Downing. Mr. Downing insisted that we abandon this decision without argument, but we persisted with the result that we received from the Abegweit Executive two statements which we are now persuaded to accept although we feel they are far from covering the amends honorable due Mr. Downing. Subject to the actual publication of said two statements in Tuesday morning's Guardian, the provision of adequate police protection at the Forum and a fair attitude on the part of that section of the Charlottetown Press which has recently published unfair and unauthorized reports of Mr. Downing, we hereby definitely agree to continue this series from game to game beginning Tuesday, Feb. 3rd at the Charlottetown Forum.

In this connection we desire to express to Dr. Yeo our deep appreciation of his continued fairness in all matters discussed with him; we also desire to convey to Mr. Sterns and Mr. Smith of the Abegweit Executive our appreciation of their sportsmanlike attitude throughout this regrettable incident and we sincerely trust that resumption of those games under the existing conditions may meet with the approval of hockey enthusiasts in general.

Signed:—C. C. Montgomery, President; John E. Schurman, Secy. Treas.; Ralph Silliphant; A. R. Saunders, members Crystal Hockey Club.

CRYSTALS AND ABBIES TONIGHT

Dark hockey clouds that have been hovering over the P. E. Island League hockey firmament have at last broken up to again show a silver lining and peace once more reigns supreme, in other words an armistice has been reached, and as a result Abegweits and Crystals will meet here tonight in the third game of the second section of the Island League.

Both camps are now resting, but at the same time assembling their forces for the big advance which opens at 8.30 tonight.

Bill Gillispie's boys have enjoyed a well earned rest and are a-rarin' to go, and judging by the interest manifested by Charlottetown fans, it looks as if the record crowd of the season will pass through the Forum turnstiles tonight. And—that's that.

WHAT IS A SPORTSMAN?
(R. C. Lehmann, in Punch, June 26, 1907)

After all what is a Sportsman? As I understand the breed, he is one who has not merely braced his muscles and developed his endurance by the exercise of some great sport, but has in the pursuit of that exercise learnt to control his anger, to be considerate to his fellowmen; to take no mean advantage, to resent as a dishonor the very suspicion of trickery, to bear aloft a cheerful countenance under disappointment, and never to own himself defeated until the last breath is out of his body.

The Summerside Journal says: If the discordant hockey brethren in both towns would just adopt as their motto the famous words of Sir Henry Newbolt's fine poem "Play up! Play up! and play the game," and also drop this "I won't play in your yard" stuff it would mean a real boost for many sport.

A MERE \$40,000

"Hack" Wilson, Chicago Cub outfielder and home run hitting champion, is to get a raise next season from \$22,500 to \$40,000—only \$1,250 a week, with about four months holidays—without pay. According to a press despatch in another column it says that the conditions are not known as yet. Any conditions should suit "Hack," with a "break" like the above. It seems funny, however, that one player can command such a salary, especially when the "City of Capone" hasn't got enough money to pay its public servants.

loyal friendships was also stressed by Dr. Ashdown, by reciting several lines of different "addresses" to dear and loyal friends and benefactors. The learned lecturer predicted that when two hundred years (1959) from the date of his birth had passed, Burns would be the most popular poet of all time. His understanding and philosophy of life is read and appreciated by people of all creeds and generations. It is doubtful if he is not even now the most popular. The anniversary celebrations held in all parts of the English speaking world speak in all eloquent manner for the reverence of his name and writings. At the first interlude a duet "Flow gently sweet Afton," was capably rendered by Misses Miriam Proffit and Anna Cousins. Miss Olive Dalzell also sang "Ye Banks and Braes O' Bonnie Doon." Miss Proffit again favored the audience with the beautiful ballad "My ain folk." Mayor J. M. Leard presided in a most pleasing and capable manner. The singing of "Auld Lang Syne" ended a most interesting and instructive lecture.—K.

—BURNS ANNIVERSARY—"Scotland's Dearest, and the world's greatest lyric poet," was the classification of the great Robbie Burns by Rev. Dr. Ashdown, temporary pastor of the Presbyterian Church at Kensington, at the one hundred and seventy-second anniversary of the birth of the immortal bard. The entertainment and lecture was given in King George before a deeply attentive audience. The learned lecturer divided his discourse into four parts, interspersed with vocal and instrumental Scottish selections by local young ladies. The speaker disclaimed, in a very impressive manner, the popular fancy that Burns was uneducated,—he contended that although Burns had no amount of technical education, that in the broader sense of the term, he had a most beautiful education—including all the graces with which a human being may be endowed. His love epistles are unsurpassed in any time or language for beauty of sentiment and expression. The poet epitomized those wonderful endowments in his poetical addresses to Jean Armour and Highland Mary. The speaker stressed the sweet singer's philosophy of life, displayed in both "The Cotter's Saturday Night," and "Two Dogs," his outstanding courage, in the face of conditions of class and privilege, as they existed at that time in Scotland, to write the satirical "A man's man for a' that"—the nerve and courage of conviction contained in the ironical lines, "Ye see yon birkie ca'd 'a' lord, Who struts an' stears an' a' that, Though hundreds worship at his word He's but a coof for a' that."

HORSE NOTES

MORE SPED FOR P. E. I.

Monty Gerow is in Saint John meeting a carload of fast horses that he is bringing over for patrons here. Among the number are: Miss Possibility, 2.10 1-2. This mare has been cleaning up the ice races in Maine, and is a beautiful individual. She can pace a good half mile track in 2.12 or better.

Glandale, 2.12 1-4, is a big rangy trotter and will be active opposition in fast trots the coming season.

Igo, 2.11 1-2, is also expected to arrive here with the speed contingent.

WELCOME, MONTY!

Monty Gerow, the well known Fort Fairfield trainer, may possibly locate at Charlottetown for Spring and Summer training. This will be a big boost for harness horse racing, as Monty has a host of friends here who would visit the track daily to see him.

NEW HALF MILE TRACK

Last fall Mr. Edgar Milligan of the firm of Milligan & Morrison, constructed a half mile track on his farm. Those who have seen it say that it is of the proper shape and will, when completed, be an ideal course. It is understood that Mr. Milligan will build a grand stand and stables and put on a midsummer meeting.

WILL NOT FUNCTION

The Maine & New Brunswick Circuit, which has been a fixture for some years, is not expected to materialize this year and there will not likely be any midsummer meetings at St. Stephen, Woodstock or Fredericton. They will function strongly in the Fall Fairs however.

REPLENISHING THEIR SPEED

Cape Breton horsemen have been replenishing their speed by recent purchases in United States. Among the number brought down are two free-for-all pacers, a fast class trotter and several high class pacers eligible to the '18 to the '25 class. Altogether there are thirty-five horses in training on Cape Breton Island. Mrs. Charles Ballard, whose string is trained by William Hood, having the best outfit. Several other owners are angling for horses, and expectations are that fifty horses will be available for racing when the circuit opens this Spring at Glace Bay.

Canadiens And Boston Lead Both Loops In N.H.L.

(Canadian Press)

MONTREAL, Que., Feb. 2.—Play-ers of the teams which are in play-off berths in the two sections of the National Hockey League continue to dominate scoring. Howie Morenz, of Canadiens, tops the point makers of that division with 31. Ebbie Goodfellow, of the Detroit Falcons, leads the division in which he plays with 33 points. Both Goodfellow and Morenz have each scored 19 goals, but the real goaling leader is Bill Cook, right winger of the New York Rangers, who has notched 20 times.

A committee of the British House of Commons has reported in favour of the abolition of capital punishment. There is not much likelihood that Canada will follow the example of England in this matter. In this country we have murderers of a kind against whom the penalty of death is an important protection. These are our professional criminals who live by robbery with violence and will not hesitate to kill in order to plunder. This class of criminal is very numerous in the United States and it is undoubtedly the fear of the scaffold which deters them from extending their operations to our country.

Mr. Percy Turner and Mr. Wilfred Doucette were passengers to Souris yesterday.
