The resignation of Miss Edna Yeo, one of the teachers of Prince Street School was accepted. Mrs. Gladys S. McDonald and Miss Annie M. Gardner were appointed to fill the vacancies in the teaching staff of Prince Street School. Miss Elizabeth E. McKinnon was appointed as a substitute teacher for the city schools. A number of bills were passed and other routine business transacted.

COMING TO CHARLOTTETOWN.—The New Glasgow News says that Col. Sam Hughes, Minister of Militia, was in Pictou on Friday last, accompanied by Col. Williams and Lord Brook, the latter Adj. General of the Canadian forces. The party had come to Pictou from Prince Edward Island, by the D.G.S. Constance. When in Pictou Major Struan Robertson, who is at present in command of the 75th Regiment, during the absence of Colonel Cameron, learned from the Minister of Militia that the 75th regiment would be drafted to go to Charlottetown, P. E. I., in August of this year, when the Canadian championships are to be held and when a general celebration of the Centennial of Confederation will be held. This will be a splendid trip for the members of the 75th Regiment, and it is something of an honor for them to be picked among so many other provincial regiments to attend the celebration in the sister province.

GREAT IMPROVEMENTS.—The jewelry store of W. W. Wellner has undergone a transformation inside and out. All the old front has been torn out and replaced with a modern front giving much more window display space; and the end of the building adjoining the bank of Montreal has been torn away and a show window put in. The work has been in charge of Messrs Lowe Bros, whose ability is well known. An idea of their placing a steel rider in the corner to take the weight of the building and thereby give more glass space is worthy of notice. Considerable rearranging of the work benches and

show cases have been made to facilitate the handling of the firm's increasing repair trade which is now the largest in the province; also by increased show case space and store rooms over the store, to better display their large stock. The late W. W. Wellner started the present business in 1868, forty-six years ago, and the business has been continued in the same stand since 1870. His son, Mr. Wm. T. Wellner has managed the business since his death, being associated with it since childhood and actively for eighteen years. Mr. Frank Simmons learned his trade with the late W. W. Wellner and has been associated with the business for eighteen years. Mr. Lloyd E. Wellner, another son who has been in the employ of Messrs F. R. Bergmann and Co., Ltd., of Halifax, Mig. Jewellers and watch-makers, where he acquired the latest ideas in the line of repairing of watches, jewelry etc., is also associated with the firm. Mr. Charles Beers, who has had over twelve years experience, at repairing of watches, has been associated with the firm for some time and Mr. Arthur Williams, who has had over two years' experience, is also in their employ so that they are thoroughly equipped to handle all kinds of watches, clocks, and jewelry repairing as well as engraving, which Mr. W. T. Wellner studied with one of the best engravers in Boston. They also have an up-to-date optical department and are in a position to attend to the wants of their many customers in this line. The Guardian wishes them every success in their future business.

Ranch
The ranch will be located on the Union Road, about six miles from Charlottetown, on a farm of 165 acres. A portion of this property is covered with a beautiful grove of spruce and hardwood making an ideal spot to prosecute the fox-farming business.
The service of one of the most experienced ranch-builders in the province have been secured, and with his skill coupled with the advice of our Veterinary Specialist, we will be able to give our shareholders the most up-to-date ranch yet built. It will be absolutely safe, sanitary and comfortable.
Equipment
A comfortable house for the keepers, barns, ice house, watch-tower and everything necessary for the conducting of a first class ranching proposition will be provided.
Ranching Expenses
There will be absolutely no charge for the ranching of the foxes for the first year. All charges for keep, food and everything connected with the maintenance of the foxes—salaries of the keeper, watchman, veterinary inspector—will be paid by the promoters up to Sept. 1st, 1915. This one item alone means a saving to the shareholders of from fifteen to twenty-five per cent, as the charges for keep in the greater number of companies is from fifteen to twenty-five per cent. The shareholders of the Canada Atlantic Fox and Fur Company, Limited, are, therefore, in a position to secure the fullest returns from their investment.

Large vs Small Companies
The tendency in this as in all other important industries at the present time is to centralize the business with the idea that the more foxes that can be ranched under one management the smaller the percentage of expense and the better the returns in dividends to the shareholders. With forty pairs of foxes breeding, if two or three pairs should prove to be barren it would have no material effect on the annual dividends, but if only five pairs were in the ranch and the same thing occurred it would make the dividends comparatively small.
Future Policy
While the company expects to earn large profits from the sales of live foxes for breeding purposes, it proposes to retain annually a considerable percentage of each year's production, placing itself in a position where it can pay good dividends from the sale of furs alone, thus making it from the outset a safe and permanent investment, carrying out the original idea of the promoters which is to establish a safe and permanent fur-farming industry.
Management
As will be seen by the names of our Provincial Directors the management is in the hands of prominent and experienced men. All of the directors have had a large business experience, and the Secretary-Treasurer and Ranch Manager are men with a successful career in the Fox Industry, all being large shareholders in the company. They will for their own, as well as other stockholders' benefit, guard the best interests of the company in every respect.

Table with 2 columns: Stock Year, Estimated Earnings of this Company For Three Years. Rows include Stock 1915 (40 Pairs), Stock 1916 (45 Pairs), and Stock 1917 (50 Pairs) with detailed financial projections.

Guaranteed DIVIDENDS
The Company guarantees to the shareholders a dividend of not less than ten per cent per annum upon its paid-up capital during the first five years it does business, which is equal to a total dividend of fifty per cent. on paid-up capital in five years.
